FROM WASHINGTON CITY.

Mount Tacoma and Several Thousand Acres of Land in Its Vicinity to be Reserved for a Park.

The President and all the members of the Cabinet had group photographs taken the other day, preparatory to their official separation.

Senator Squire has introduced a bill appropriating $100,000 for one ten-inch and one twelve-inch rifle high-power steel Gatling gun for coast defense.

The legislative, executive and judicial appropriation bills for the fiscal year 1894 reported to the House make an aggregate appropriations of $21,677,995, or $222,134 less than that of the current fiscal year.

The House Committee on Postoffices has completed the postoffice appropriation bill for the year ending June 30, 1894. As agreed upon it carries an appropriation of $83,869,367, an increase of $3,535,081 over the appropriation for the current year.

Hopkins of Pennsylvania has introduced in the House a resolution directing the Attorney-General to inform that body why the persons originating and controlling the American Sugar Refining Company, or the sugar trust, had not been proceeded against as other persons charged with a similar crime.

The Secretary of the Interior in response to the request of Senator Mitchell has transmitted to the Senate all the papers relating to the claim of Oregon Indians for money in payment of ceded lands in 1855. The papers go to the Indian Committee of the Senate, who will try and find out whether there is anything in the claim made by the Indians.

Mount Tacoma and several thousand acres of land in its vicinity are to be withdrawn from settlement and made a timber reservation, with the ultimate hope that it will be created as a national park. Senator Squire has been working on this for some time, and Representative Wilson saw Secretary Noble about it recently. An agreement was reached to have the withdrawal made.

The War Department has received a dispatch from General Wheaton, commanding the Department of Texas, stating that the Mexican government has instituted proceedings for the extradition of the three bandit leaders arrested by United States troops on the charge of violating the neutrality laws. The dispatch was sent to the Secretary of State, who will co-operate with the Mexican government in securing speedy action in the cases.

The fees paid the messengers who bring the electoral votes to the national capital amount to a considerable sum in the aggregate. Already there is some talk of repealing in one of Mr. Holman's appropriation bills the provisions for paying these messengers and providing that the electoral returns shall be sent in by mail or by express. The following are the fees paid the messengers from the Pacific Northwest: Oregon, $797; Washington, $820; Idaho, $666.

Secretary Noble has addressed a communication to the Commissioner of Indian Affairs, setting forth his conclusions of the strained relations between J. Leroy Brown, acting United States Indian agent at Pine Ridge and Dr. Charles A. Eastman of the Sioux Indian agency. The Secretary's conclusion is that good service requires that Dr. Eastman shall be suspended from acting as physician at Pine Ridge agency, and unless Dr. Eastman can be assigned or appointed to another place he is willing to accept within the next fifteen days he must resign, or he will be removed. The Secretary finds there is no reasonable ground to find fault with the conduct of acting Agent Brown in this connection.

Commander Henry L. Johnson has been dismissed from the navy. He was tried before a general court-martial at Mare Island navy yard in December last on three charges, the principal one of which is in official language "through negligence, suffering a vessel of the navy to be run upon a rock and hazarded." The vessel was the Mohican, which Johnson commanded, and the grounding took place off the Alaska coast. Such is the vessel to which he was assigned after a suspension for several years for the same offense for which he was dismissed. The court found him guilty of the three charges preferred, and sentenced him to dismissal. Secretary Tracy has approved the findings, and this action has been confirmed by President Harrison.

Secretary Noble has transmitted in response to a resolution of the House his report concerning the executive order of November 19, by which that part of Utah lying west of the 110th meridian was restored to the public domain, with all the correspondence on the subject. The documents show this land was thrown open to settlement for the purpose of allowing the people of the United States an opportunity of exploring the placer fields in search of gold and other valuable minerals. All the facts connected with the restoration were published generally throughout the West at the time the President's message was issued. A telegram has been received from Colonel Hunt of the army, reporting that no prospectors had nor were intruding on the Navajo reservation.

The Appropriation Committee has agreed on a pension appropriation bill. It carries an appropriation of $166,400,000, an increase of $20,662,650 over the appropriation for the current year. The recommendation of the subcommittee that no pension shall be paid any persons under the dependent pension law unless they can show that they are wholly disabled for manual labor and have an income less than $600 a year was stricken out, as was the recommendation that no widow pensioner should receive a pension unless she was married to a soldier previous to 1870. The proposition to authorize the Commissioner of Pensions to detail medical examiners from the pension office to act as examining surgeons and abolish the Board of Examining Surgeons was also rejected.
