The rains the fore part of the week delayed harvesting a little, but again it is under way. The rain did not do any material damage to the crop. The grain was in a dangerous condition Monday, and many were the blue faces around town; but warmer temperature prevailed yesterday, and the blue looks are chased away by bright ones. Some fall sown grain that was uncut has fallen down, and that will probably be the greatest loss.

About one month ago my child, which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was reccommended and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought and it is now perfectly healthy.—C. L. Boggs, Stumptown, Gilmer Co, W. Va. For sale by Marsh & Medler.

MARSH & MEDLER

Will present to every lady and gentleman (but not children) calling at their store a package of the new celebrated

MOKI TEA

without charge. This offer is made to convince the citizens of Wasco and vicinity that this wonderful yet simple preparation will do exactly what is claimed for it.

MOKI TEA is a nerve builder, composed of the harmless roots and herbs used by the Moki Indians. It gives brilliancy to the complexion, is a positive cure for sick headache and constipation, removes pimples, blotches, moth patches, and all rawness of the skin. Cures dyspepsia, malaria, biliousness, dizziness, sour stomach, loss of appetite and all diseases that are due to a derangement of the stomach and liver. It acts upon the muscles and tissue, giving new life and buoyancy to the frame.

Take a cup of MOKI TEA upon retiring at night, and become fair, sweet tempered and happy.

It is very pleasant to take, and so positive are we of its results that we make the above liberal offer.

FIRST COME, FIRST SERVED.

Remember it costs you nothing to try it.

Sold in 25c and 50c Pkgs.

The Wheat Market.

According to reports the wheat market throughout the East last week has presented a general tone of dullness. The attendance of buyers has been limited and the demand without revival. Operators in the face of favorable crop reports are restricting requirements as much as possible.

From most parts of England reports state that the wheat crop is being gathered in fine condition. It is considered the best crop in years past.

In France several estimates have already been given, but no accurate computation can be made, as the farmers themselves are often uncertain of the yield of the crop before threshing. In any event the crop, although not so large as last year's, will nevertheless exceed the average.

Germany—Under more settled weather harvest work has made very considerable progress and the crop is satisfactory on the whole.

Russia—As is usual, it is impossible to arrive at even the approximate truth regarding the harvest in this vast country. Generally speaking, the yield in several governments other than Bessarabia and some other southern districts is fairly satisfactory, but low prices offer no inducement to forward grain to the seaboard. Shippers continue to act with extreme caution and will not buy from the producer until Western markets have settled down to autumn business.

The Best Remedy for Flax.

Mr. John Mathias, a well known stock dealer of Pulaski, Ky., says: "After suffering for over a week with flux, and my physician having failed to relieve me, I was advised to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have the pleasure of stating that the half of one bottle cured me." For sale by Marsh & Medler, druggists.

Life Saving Appliances.

In its endeavors to improve the national marine life-saving stations the United States board for that purpose has recently examined a considerable number of appliances brought to its attention by inventors. Among these is a model of a serpentine ship, constructed by James Graham, the peculiar feature of which is that the body of the ship will revolve in the water and the occupants will be in an interior cylinder. Perhaps a more practical idea is that presented in the makeup of life preservers as developed by C. Moller, of Norway, who has made a padded vest and used reindeer hair for padding, the claim being that such hair, whether wet or dry, is as buoyant as cork and more durable. In behalf of this latter device it was urged before the board that life preservers or belts made of canvas and filled with reindeer hair have the desirable advantage of giving to the user more freedom of action, while there is also less liability to catch obstructions or to injure the hands by contact when rowing.

ACKER'S DYSPEPSIA TABLETS are sold on a positive guarantee. Cures heartburn, raising of the food, distress after eating, or any form of dyspepsia. One little tablet gives immediate relief. 25c and 50c. Marsh & Medler, druggists.

Sheep Producing States.

There are nine states and territories according to the statistics of the department of agriculture credited with 2,000,000 or more sheep each in the following order named:

Montana—3,377,547.
New Mexico—3,128,692.
Ohio—2,730,471.
Oregon—2,575,468.
Texas—2,543,917.
Wyoming—2,328,025.
Idaho—2,311,890.
California—2,175,545.
Utah—2,116,949.

While Oregon stands fourth on the list as to the number of sheep, she is credited with being second as a wool producer, which speaks well for our stat and sheep breeders.—Rural Spirit.

Some fruits never seem to get sweet when cooked with sugar. The trouble is that ordinary cane sugar when heated with certain fruit acids is converted into grape sugar. This sugar has only one-third the sweetening power of cane sugar, and so a good deal is required. This can be overcome by putting in a little baking powder with the sugar, and this will so neutralize the acids of the fruit as to prevent the conversion of cane sugar into grape sugar.

HERE ARE YOUR SYMPTOMS:

1-1. FLUTTERING OF THE EYELIDS AND A TINGLING SENSATION ABOVE THE EYES. HUDYAN will relieve this almost immediately.

2-2. TREMBLING OF THE LIPS—This is due to the affection of the facial nerves. HUDYAN will restore the nerves to a healthy condition, and the trembling will disappear.
