Testing Started For Teen-age Road-e-o

Registration blanks for participation in the Teen-age Road-e-o were left at Crater High school Tuesday by two representatives of Medford Junior Chamber of Commerce, county sponsors of the nation-wide event.

Students, with permission from parents, were given a written examination today. Those passing the written test will enter the driver test on Saturday, April 30. The test will be a performance test in four obstacle-type exercises.

Prizes will be awarded. The local winner will compete in the county contest with a chance for the state and national contests.

R. Sage to Quit Gold Hill Post

No replacement has been named to date for Robert Sage, principal at Gold Hill grade school who has accepted a position as principal of Washington school in Medford for next year.

Sage was offered the post following a meeting of the board of School District 49. He succeeds Kenneth Hulbert, who will become principal of the Jefferson school in September.

He is a native of Jackson county. He attended Table Rock school and Medford High school and received his BS in education at SOCE in 1946. From 1946 to 1949 he was teacher and coach at Jackson school.

Sage earned his master of education degree at the University of Oregon in 1954 and has also taken graduate work in education at the University of Boston.

He is married and the father of two sons, ages three and five, and a daughter, age nine.

Capital Parade

The legislatures's masterpiece could be titled "Raise What Taxes to Raise How Much for What—How?

Their job of balancing the budget is still open at both ends—the income and the outgo. Appropriations are still going out but incomes are not set to come in.

On the 100th day of the session, Tuesday, the stark financing problem stared defyingly back into the bleary eyes of the day and night shift working members of taxation and ways and means committees. The slashing axe still has cobwebs.

Late reports add up a $62,000,00 deficit.

Most of the income avenues will have to be selected by the people at the polls at a special election.

It's too complex for 90 men to solve in 100 days.

BASIC SCHOOL FUND

Two bills which propose a new formula for a distribution of the basic school fund were the subject of a lengthy hearing before the senate committee on education Monday. Both bills provide a substantial increase in the equalization factor of the formula under which this fund is distributed. Supporters of the bills argued that it is the responsibility of the state to provide education for its youngsters and that under this theory the money should be taken from those areas in which the greatest wealth exists and distributed where the children live. Opposition to these measures comes largely from Multnomah county and from eastern Oregon counties with high assessed valuations in proportion to their school populations.

VOTING DATE CHANGED

Primary elections in Oregon will be held hereafter on the fourth Tuesday in June instead of the third Friday in May if the House follows the lead of the senate which this week passed the bill by a vote of 23 to 6.

Principal opposition to the measure in the senate was based on the fact that June is a vacation month

INTERIM COMMITTEES

The current legislature may set a record for interim committees with record appropriations. Fourteen such committees have been proposed and are under consideration by the ways and means committees—which you may have heard are considerably dollar-minded.

Appropriations specified in the 14 proposals total $1,493,216. The 1953 legislature set up 12 interim committees.
