Some Details of Farm Plan Given

Rough outlines of the new agricultural reduction plan adopted by the federal government have been received here by Harry Riches, county agent. Riches said he expected more details from Washington within a fortnight. Riches said three points outlined in word from Washington were:

1. Each farmer who applies for a payment will have his "base acreage" determined—the acreage he planted to soil depleting crops last year. Soil depleting crops are defined as corn, cotton, tobacco, Irish potatoes, sweet potatoes, rice, sugar cane, sugar beets, cultivated sunflowers, commercial truck and canning crops, melons and strawberries, peanuts, grain and sweet sorghums, and small grains, including wheat, oats, barley, rye, buckwheat, flax, emmer, speltz and grain mixtures.

2. For each acre of those crops which he dicerts to soil conservation or building, he will get $10, or up to 15 per cent of the base average. Special base acreages will be established for cotton, tobacco, peanuts, flax seed, rice, sugar beets and sugar cane.

3. Another payment of $1 an acre will be made for soil building crops, contingent on certain soil practices not yet formulated.

Townsend Club to Be Disbanded; Political Vehicle Role Spurned

MEDFORD, Ore., March 21.—(AP)—Martha Miller, member of the advisory committee of Townsend club number two of Medford, said the organization voted to disband because of "political and agitationary" forces.

She said "We refused to let political racketeers ride into office on the Townsend bandwagon." Discord over choice of a president preceded the vote to disband.

Potter Latest to File For House as Bourbon

H. M. Potter, of the Silverton district, filed late yesterday as a candidate for the legislature from Marion county. Potter will be one of four democrats to make up the slate.
