Active Buying, Short Covering Boosts Grain

CHICAGO, Nov. 1—(AP)—Active buying and short-covering boosted wheat, oats and rye futures around 2 cents a bushel in some cases today.

There were many bullish influences, including a higher than expected government subsidy rate to millers in November, better flour business, announcement that the UNRRA planned to buy about 13,500,000 more bushels of U.S. wheat during the remainder of the year, and expectations that demands would be increased for passage of the Pace bill to increase parity prices.

The UNRRA announced it had bought 354,829 tons of U.S. wheat, about 12,000,000 bushels, for European relief during August, September and October. It said it would buy 400,480 tons more.

Wheat closed ⅝ to 1⅞ cent higher than the previous finish, December $1.78¼, corn was up ⅛ to ½, December $1.18½, the ceiling, oats were ahead 1⅛ to 2⅛ cents higher, December $1.63-$1.62⅞, and barley was down ⅛ to ¼, December $1.19¼.

The defense supplies corporation announced the November subsidy rate to millers for wheat ground outside the Pacific coast area would be 30 cents a bushel, an increase of 3½ cents, and in the coast area would be 33 cents, up 5½ cents. The trade had expected boosts of about 2 and 3 cents.

Pumpkin Pack to Run Another 1½ Weeks at Calpac Plant Here

Pumpkin canning is in full swing for the 21st year at the California Packing Corporation at 1250 Mill st. With an estimated week and a half to run, Calpac expects to put 3500 tons of pumpkin into cans to be sold up and down the Pacific coast states this year.

Canning commenced October 22 with two nine-hour shifts packing this year's average pumpkin crop obtained mostly from the Santiam river area around Jefferson. Having canned pumpkins every year from 1923, with the exception of 1931, the cannery expects a medium sized pack this year comparable with former seasons.

Approximately 50 men work a shift, and the cannery's office said that they had not experienced any labor shortage problem this year.
