## Limit Low Hit By Rye Futures At Grain Mart

CHICAGO, Dec. 20 -(AP)- A flood of liquidation orders collapsed December rye within two minutes near the end of trading today and the price was down the full five cents allowed in a single day's business at the close.

A few traders who were caught short on December wheat and corn sought to cover their commitments on light scattered offerings which were swapped away for May and the new crop months. Some interests sold oats freely.

Wheat closed unchanged to ⅛ cent higher than yesterday's finish, December $1.80½; corn unchanged at $1.18½ ceilings; oats ¼ to 1⅝ lower, December 76¾-77; rye ¼ cent to 5 cents lower, December $1.77½ to $1.76⅝; barley unchanged to ⅜ higher, December $1.22½.

Traders noted a report from Washington that foreign wheat commitments of the commodity credit corporation might force some Kansas City flour mills to close because of lack of supplies.

One authority said that mills had obtained about 5,000,000 bushels of wheat under the CCC program but that sales were discontinued because remaining government-owned stocks are not readily available for milling and those at terminal markets are needed for export.

Receipts of wheat at principal markets were reported to have dropped to 602,000 bushels, about half the volume of a week ago.

## Market Slow At New York

NEW YORK, Dec. 20-(AP)-Lower tendencies prevailed in today's stock market although dealings were among the slowest of the past six months and a handful of favorites managed to emerge with modest plus signs.

Closing losses ranged from fractions to better than 2 points but extreme declines were shaded in most cases at the last. Transfers of 800,000 shares compared with 970,000 Wednesday and were the smallest for a full session since Aug. 22.

Strike stalemates continued to dampen bullish enthusiasm. Accounts were trimmed for protection over the forthcoming long weekend and numerous customers absented themselves from Wall Street for an early get-away on their holiday.

The Associated Press 60-stock composite was off .4 of a point at 74.4.
