45 sold in '88
2,288 sold in '89
6,268 sold in '90
20,049 sold in '91
60,000 will be sold in '92

A Steel Windmill and Steel Tower every 3 minutes. These figures tell the story of the ever-growing, ever-going, everlasting Steel Aermoter. Where one goes others follow, and we "Take the Country." Though sold, we were unable to make all of the 20,049 Aermotors in '91. Orders effected weeks to be filled, but now we have vastly increased our plant and are prepared promptly to plant our increase in every habitable portion of the globe.

Are you curious to know how the Aermotor Co. in the 4th year of its existence, came to make many times as many windmills as all other makers combined? How we came to originate the Steel Wheel, the Steel Fixed Tower, the Steel Tilting Tower?

GALVANIZED It is not enough to make perfect at the time of painting. The Steel Aermotor and Steel Tower are now galvanized after being completed, thus absolutely protected from rust.

1st. We commenced in a field in which there had been no improvement for 23 years, and in which there seemed no talent or ambition, and none has yet been shown except in feeble imitation of our inventions.

24. Before commencing the manufacture, exhaustive scientific investigation and experiments were made by a skilled mechanical engineer, in which over 5,000 dynamometric tests were made on 61 different forms of wheels, propelled by artificial and therefore uniform wind, which settled definitely many questions relating to the proper speed of wheel, the best form, angle, curvature and amount of sail surface, the resistance of air to rotation, obstructions in the wheel, such as heavy wooden arms, obstructions before the wheel, as in the vaneless mill, and many other more abstruse, though not less important questions. These investigations proved that the power of the best wind wheels could be doubled, and the AERMOTOR daily demonstrates it has been done.

25. To the liberal policy of the Aermotor Co., that guarantees its goods satisfactory or pays freight both ways, and to the enormous output of its factory which enables it to furnish the best article at less than the poorest is sold for. For '92 we furnish the most perfect bearings ever put in a windmill, and have made an exhaustive revision of the Aermotor and Towers.

If you want a strong, stiff, Steel Fixed Tower—or if you want the tower you don't have to climb (the Steel Tilting Tower) and the Wheel that runs when all others stand still, that costs you less than wood and lasts ten times as long (The Steel Aermotor) or if you want a Geared Windmill to churn, grind, cut feed, pump water, turn grindstone, saw wood, that does the work of 4 horses at the cost of one ($100), write for copiously illustrated printed matter, showing every conceivable phase of windmill construction and work, to

The Aermotor Pneumatic Water Supply System enables you to supply every part of your house with water without an Elevated Tank.
