Buying Boosts Stock Market

NEW YORK, Dec. 8 – (AP) – The stock market sat up and took nourishment today as technical factors inspired quick-turn buying of selected industrials and rails.

Short covering and other bidding by professionals, based on the thought that the recent decline to average lows since last June entitled the list to at least a temporary revival, received the principal credit for the comeback. Skepticism regarding anti-inflation moves and foreign affairs still kept numerous customers on the sidelines. Tax selling again was a deterrent. Little response was made to another string of good dividends.

The Associated Press 60-stock composite was up .5 of a point at 63, best recovery since November 20. The index was down 1.1 points Friday. Of 989 issues registering, 539 rose and 252 fell.

Freeze, Flour Buying Press Grain Upward

CHICAGO, Dec. 8—(AP)—Freezing weather in the southwest and reentry of the production and marketing administration into the flour market caused grains to close with gains of several cents on the board of trade today.

For most of the session cereals backed and filled over a fairly wide price range. At one time the December wheat contract fell below $3, but resting demand was evident at that point. A good deal of short covering entered pits toward the close and final prices were about the day's best.

Wheat closed 2¼ to 3 cents higher, December $3.04½-$3.05, corn was 2¼-3¼ higher, December $2.54⅞-$2.55, oats were 1⅜-1⅞ higher, December $1.23½-⅜, and soybeans were unchanged to a cent higher, March $3.80.

Cold weather spread over a wide area of the winter wheat belt and more was predicted.

The PMA, government buying agency, was seeking flour supplies for export from mills. Shipment was desired by January 15. Prices were unchanged from previous buying levels.
