A Steel Windmill and Steel Tower every 3 minutes.

☞ Those figures tell the story of the ever-growing, ever-going, everlasting Steel Aermotor. Where one goes others follow, and we "Take the Country." Though sold, we are unable to make all of the 18,000 Aermotors in '91. Orders often waited weeks to be filled, but now we have vastly increased our plant and are prepared properly to place our Aermotor in every habitable portion of the globe.

Are you curious to know how the Aermotor Co. in the 6th year of its existence, came to make many times as many windmills as all other makers combined? How it came to erecting the Steel Wheel, the Steel Fixed Tower, the Steel Tilting Tower?

1st. We engineered in a field in which there had been no improvement for 23 years, and in which there seemed no talent or ability. And since has yet been shown except in feeble imitation of our inventions.

2d. Before commencing the manufacture, exhaustive scientific investigation and experiments were made by a skilled engineer, in which over $500 dynamometer tests were made and different forms of wheels, propelled by artificial and therefore uniform wind, which settled definitely many questions relating to the proper speed of wheel, the best form, angle, curvature and amount of sail surface, the resistance of air to rotation, the resistance to the wind, such as heavy wooden arms, obstructions before the wheel, as in the vaseline mill, and many other more abstruse, though not less important questions. These investigations proved that the power of the best wind wheels could be doubled, and the AERMOTOR daily demonstrates it has been done.

3d. To the liberal policy of the Aermotor Co., that guarantees its goods satisfactory or pays freight both ways, and to the economic output of the factory which enables it to furnish the best article at less than the poorest is sold for, for '92 we furnish the most perfect bearings ever put in a windmill, and have made an exhaustive revision of the Aermotor and Towers.

If you want a strong, with Steel Fixed Tower, such as you want the tower you don't have to climb the steel Tilting Tower and the Wheel that runs when all others stand still, that gets you less than wind and lasts ten times as long (The Steel Aermotor) or if you want a Geared Mill to run slower, grind, cut feed, pump water, turn grindstone, saw wood, that does the work of 4 horses at less than 1½c. per hour, write for copiously illustrated printed matter, showing every conceivable style of windmill construction and work, to

The Aermotor Pneumatic Water Supply System enables you to pump by every part of your house with water without an Elevated Tank.

MISSIONARY'S STORY

How He Suffered from Eczema. Doctors Failed. Grew Worse. Death Only Relief Expected.

I have been troubled with chronic Eczema on my limbs. The itching was very annoying and made me unfit for work. I had tried many remedies and consulted a good physician, but received no permanent relief. A friend told me of the CUTICURA REMEDIES. I then sent for a copy of your book, more than a year ago, and now I wish I had read the book and begun to use the CUTICURA REMEDIES at once. But the doctor said the remedies, good in some cases, would be of no use to me, and continued to prescribe for me for nine months. I grew worse and worse. Death would have been a relief, and it was the only relief I expected. Just then my wife (I thank God for a good one) found the book you sent in some out-of-the-way place and read it through. She discharged the attending physician and said we would try the

Cuticura Remedies

Procured one box of CUTICURA, one cake of CUTICURA SOAP, and a bottle of CUTICURA RESOLVENT. I began to use them about the middle of last August, procuring a new supply when the first was exhausted. I am now well and attend to my missionary work. I am Secretary of the Sullivan County Bible Society (portrait inclosed). Have been engaged in missionary work in the county for eighteen years. To recommend the CUTICURA REMEDIES to suffering humanity will be a part of my missionary work in the future.
