Butter Quality Shows Decline

Oregon creamery butter during the first two weeks of May fell short of the average score set during March, but only two samples were low in butterfat content as compared with eight during March, the state department of agriculture said Wednesday.

Kenneth E. Carl, assistant chief of the department's foods and dairy division, reported 43 samples of butter were scored this month. Of these, 40 were labeled grade A and three grade B, Carl said.

The official scoring board scored 25 of the 40 as grade A, but dropped 15 samples to grade B. In March, 50 samples were labeled, with 32 scored grade A and 18 grade B.

Stock Market Prices Steady

NEW YORK, May 19 -(AP)- The stock market steadied today after Tuesday's abrupt break but aggressive selling barred the way into higher price ground.

Except for a handful of issues, prices see-sawed back and forth most of the day. Some oils, rails and metals managed to hang on to gains of fractions to around a point but for the market generally small changes either way were about in balance.

The day's turnover of 1,850,000 shares was well below yesterday's 2,480,000.

The narrow price movements were summed up by the Associated Press average of 60 stocks, which advanced only 1 of one point to 70.5. Of 1,109 issues which traded, 527 advanced and 367 declined.

As late as the 1890s, persons who affected long fingernails were thought to use them as a shield against doing any work.

B—Then you sign without endorsers and get the cash. Proof: 4 out of 5 who ask us for a loan, get it!

C—Then repay in monthly installments which you select to fit your purse. $25 to $500 on auto. $25 to $300 on salary and furniture.
