Rail Stocks Hit Two-Year High

NEW YORK, July 9 -(AP)- Railroad stocks pounded down the line to the highest level in two years and the market generally reached a 23-month peak today.

Individual issues advanced fractions to more than two points.

The rise was not spectacular but simply a steady relentless drive ahead.

The rail section took off first. Steels soon joined in the move and as trading progressed gains gradually appeared throughout the list. Final prices were just about tops for the day.

Trading was the most active in about two weeks. Turnover of 1,370,000 shares compared with an even 1,000,000 yesterday.

The Associated Press average of 60 stocks advanced .5 of one point to 72.4, the highest since August, 1946. The rail component also gained ½ point at 47.9, a top since July, 1946.

Corn Prices Slide Lower

CHICAGO, July 9 -(AP)- Corn prices dropped to new lows since mid-March on the board of trade today. Dealings were active, and the slump in corn carried wheat and oats lower also.

Belief that the agriculture department's crop forecast, issued after the market's close, would predict a large corn crop was one factor in the selling of the yellow grain. This was confirmed when the department estimated corn production at 3,328,862,000 bushels, a record.

Another reason for the selling was continued hot and mostly clear weather in the mid-west, ideal for growth of the new crop.

Wheat closed ⅞ lower to ⅛ higher, July $2.29⅛-2.29; corn was ¾ to 3¾ lower, July $2.02-2.02¼; oats were 1 cent lower to ¼ higher, July 89⅛-¼, and soybeans were 2 cents lower; July $4.03.
