The Genuine Round Oak Heating Stove

The Stove that Never Died a Winter Yet!

Do You Pay Too Much for too Little Stove Value?

If the stove you are using is not a genuine Round Oak, you are, we fear, paying an excessive price for your heat. The value of a stove is measured by the amount of heat it steals from the chimney. There are five reasons why the Round Oak Square Base will give more heat with less fuel.

May we show you exactly why?

Burns all fuels.

SOUR LEMONADE AS A FLESH REDUCER

Adèle Farrington, whose clever work in "What Love Can Do," the five-act Red Feather production which comes to the Rex Theatre on Tuesday night, Sept. 19, has attracted much attention to herself by announcing that she is "fighting flesh" and doesn't care who knows it.

"I tried President Taft's recipe," declares Miss Farrington, "but it didn't work in my case. I cut out all starchy foods, including potatoes and white bread, and took long walks. Then I cut down on my allowance of water. No change."

"Finally I visited a gypsy fortune teller at the Frisco fair. The gypsy looked at me long and hard, took a squint at my palm and then announced decisively:

"Your greatest worry is an excess of flesh. Venus being in conjunction with Saturn in the constellation of Capricornus, the Goat, should serve as a warning to you to reduce your flesh. The gods of the nether world tell me that you should drink plenty of sour lemonade mixed with the juice of pickles. Follow the advice of the gods and success will crown your secret wish."

"I dropped fifteen pounds in a month by following the gypsy's advice," declares Miss Farrington. "They tell me now that I'm getting sylphlike, whatever that means. Hooray for sour lemonade and pickle juice!"

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when absorbed through the skin surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do far exceeds the good they can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury. It is a salve which acts directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine article, as there are many imitations. Price 25c per bottle. Take Hall's Catarrh Pills for constipation.

SCHOOL NOTES

School commenced with a rush this week. Students from all over the country began gathering late in the week, and Monday showed the largest gathering of pupils the Vale schools have ever had. Prof. G. A. Ruring reports 56 enrolled in High School to date, an increase of 80 per cent over last year, and 230 enrolled in the grades, which is also an increase of about 20 per cent over last year. "The school this year," remarked Mr. Ruring, "certainly bids fair to become the best we have had in Vale."

In High School, the first two days were devoted to arranging the program, and by Wednesday it was straightened out so everyone was satisfied.

Miss Agnes Ryder came in Sunday, and will teach Latin, German and English this year. Miss Ryder will also coach the girls' basketball team a little later.

A. N. Williams states that there is enough material for a football team, and the boys have kept the old gridiron hot since the first of the week. The field is in pretty bad shape, but with the wear it has had the past week, it will soon be in good condition. Harland Diven was elected captain.

At a student body meeting Monday, the Junior class seemed to be greatly in evidence. Officers were elected as follows: Walter Taylor, '18, president; Floyd Powell, '18, vice-president; Harland Diven, '19, secretary; and Lillian Davis, '19, treasurer; Ray Johnson, '20, sergeant-at-arms.

Chas. Crandall, in company with Carsten Mueller, a recent High School graduate, left Friday for the University of Oregon at Eugene, where Carsten will be enrolled the coming year.

Miss Evangeline Kendall, of Vale, and Geo. Brown will attend High School again this year. He came in from the ranch last week.

Miss Belle Messick and Miss Georgia Bobery of Baker visited with Miss Clara Morritt last week.

Fred Holden and Judson Hill were guests at the Sargena ranch a few days ago.

Mrs. Nellie Derrick and children spent Wednesday night at the Williams ranch.

Miss Gertrude Morritt left Tuesday for Walla Walla to enter the St. Paul academy again this year.

Oren Woodcock and Tom O'Neill went to Brogan Thursday on business.

Miss Vada Morritt has gone to Ontario to attend high school this winter.

Mrs. Floyd Howard has gone to the Basin to stay with her mother while her husband is away threshing.

Mr. and Mrs. H. Rose visited at the B. Howard home Thursday.

Miss Grace Wheeler, of Haines, will attend High School this year. She is staying with her brother, Jno. R. Wheeler.

Ray Johnson drove over from Big Bend last week.

Miss Chespa King has arranged to attend school mornings.

Geo. Brown will attend High School again this year. He came in from the ranch last week.

SOME SHOOTING

St. Louis.—Rejected for enlistment in the United States Marine Corps because the "trigger" and middle fingers were missing from his right hand, Elbert Harlan, a raw-boned applicant from Oklahoma, went from the recruiting station in the Fuller building, to a shooting gallery nearby, and made twenty-five straight hits on a moving target with a small calibre rifle, while the sergeant who had rejected him looked on.

The Marine sergeant explained that a hand minus several fingers would look bad when encased in white gloves and that the loss of the fingers would seriously interfere with the proper handling of the rifle at drills.

But the Oklahoma recruit was unconvinced and went back home in the belief that the government doesn't now a good man when it sees one.

Reversing the old rule, it is sometimes what people don't know that hurts them most.
