Swift Selling Resistance in Stock Market

NEW YORK, Oct. 13-(AP)-A swift forward surge in the stock market today was cut back by stiff selling resistance. There was only a small net gain at the close.

More issues were traded—1,136—than in any other session this year, and the volume of business at 1,790,000 shares was the third highest in 1949. During the advance, 123 new highs for the year were established.

Large blocks were traded frequently during the first hour boosting the total for that period along to 520,000 shares.

Prices advanced throughout the list with some of the gains topping 2 points in the initial phases of the market. But by noon the enthusiasm died down on the buying side and prices started slipping. The decline was steady, except for brief periods, throughout the rest of the session.

John L. Lewis' proposal to add 30 to 35 cents to the cost of each ton of coal as his price for ending the coal strike found no favor in Wall street and dampened the buying spirit.

The associated press average of 60 stocks gained .1 of a point at 67.5, again a new high for the year. The industrial component of the average was up .4 of a point, but both the rails and the utilities fell back .1 of a point each.

The volume of 1,790,000 compared with 1,660,000 traded Tuesday. The number is the highest since the 1,850,000 share market of March 30.
