Appropriation To Arm West Nations Okehed

WASHINGTON, Oct. 19 -(AP)- Congress tonight passed an appropriations bill carrying $1,314,010,000 to arm friendly foreign nations against communism.

The senate passed the bill by voice vote shortly after the house had acted.

The arms money was contained in a $1,577,000,000 supplemental appropriations which now goes to the White House for the president's signature. The bill carries money for various agencies.

A senate-house row over a $288,000 pay raise for senatorial office workers momentarily held up the big bill.

A conference committee finally ironed out the differences after house members had stalked out of the meeting in angry rejection of the senate proposals.

House members of the conference group finally agreed to the senate's request for about $3,000 to permit each of the 96 senators to raise their office help.

The foreign arms fund includes $1,000,000,000 in cash and contract authority to help arm European members of the North Atlantic pact. These countries also are scheduled to receive $450,000,000 of existing arms which this government considers in excess of its mobilization needs.

Opris Cleared on Trespassing Charge

Statesman News Service

SILVERTON, Oct. 19 — Trifton Opris, 63, Silverton star route, Wednesday was found innocent in Marion county district court on charges of trespassing and defacing a posted notice.

Involved was a strip of farm land, the title of which allegedly is in doubt. The charge grew out of private complaints signed by M. G. Boyd and Virginia Boyd, neighbors of Opris.

POLIO CASES SET MARK

PORTLAND, Oct. 19 -(AP)- The largest number of polio cases since 1943 were reported today by the state board of health. Thirty-three Oregonians were stricken with the disease last week, the board said. Six of them lived in Baker county; four in Portland, and four in Lane county.

Grandma Enters EOCE to Prepare For Writing Book

LA GRANDE, Oct. 19 -(AP)- A 70-year-old grandmother has joined Eastern Oregon College of Education's freshman class because she wants to write the story of her pioneer father.

Mrs. Grace Wright Powers, who never had time to go to college before, is taking 16 hours of college work: Oregon history, typing, essentials of speech, American literature, English composition.

All the courses she expects to use in writing down the incidents her father, Dunham Wright, recounted to her of early Oregon days. Wright died at the age of 100.

The white-haired grandmother doesn't mind in the least being a half-century older than the rest of the students.

"I like school very much," she said. "I always have."

Edwin Nourse Resignation Is Accepted

WASHINGTON, Oct. 19 -(AP)- President Truman today accepted the resignation of a government foe of deficit spending, while congress wrote the last dollar mark on appropriations which added up to a possible $5,000,000,000 federal deficit.

Mr. Truman voiced "my thanks and my appreciation" to Dr. Edwin G. Nourse, retiring on Nov. 1 as chairman of the president's council of economic advisers.

His letter to "Dear Dr. Nourse" did not mention Nourse's criticism yesterday of the government's excursion into red ink spending. And Nourse said he didn't aim his criticism at the Truman administration alone.

But the flare-up raised some last-gap cries for economy in congress—even while the senate slipped into the foreign arms bill a pay boost for senators' staffs—and won house consent after an angry battle of words. The item, about $288,000, was minor in relation to the prospective $5,000,000 deficit.

Wrestler Flattens Black Bear in Bout Near Dallas

Statesman News Service

DALLAS, Oct. 19—(Special)—Michael (Mike) Golden, ex-professional wrestler of Dallas, has a new slant on the usual story about friendly black bears.

Hunting over the week end with two companions, Golden spotted a black bear in the Pope & Talbot timber area west of here. Golden sounded off to attract the bruin, expected it to turn for a side shot.

But the bear, probably crazed from some previous shot, wheeled and charged toward the hunter. Recognizing a tough opponent, Golden remained as cool as possible and dropped the beast with one shot to the head.

The bear weighed 187 pounds, and Golden is having the hide tanned as a memento.

Dentists Hear New Theories On Tooth Decay

SAN FRANCISCO, Oct. 19-(AP)- A new theory on the cause of tooth decay—that it is due to a complicated process involving enzymes and strange types of bacteria as well as acids—was reported here by a University of California dental researcher.

The theory, offered by Dr. James Nuckolls, professor of operative dentistry, all but discards the widely accepted idea that decay is due mainly to acids formed as the result of eating sugars and starches. It concedes, however, that the acids may play some part in the whole process.

Dr. Nuckolls addressed the American Dental association. The theory represents years of research by Dr. Nuckolls and Dr. Harry Frisbie and their colleagues.

Enamel, the hard outer covering of the tooth, is made up mostly of calcium and fluorine, which bacteria cannot eat, but also contains a fine network of protein.

Since protein breakdown is caused by enzymes, the researchers looked for bacteria in the mouth which might produce these agents of destruction. They found bacteria called actinomyces in great numbers. This microbe, the researchers said, apparently produces enzymes capable of breaking down the protein in enamel.

Transamerica Stock Sales Slated Today

SAN FRANCISCO, Oct. 19 -(AP) Blyth & Co. announced today that a nationwide investment banking syndicate which it heads will make a secondary offering tomorrow of 1,199,554 shares of Bank of America stock at $45.25 a share.

The stock represents parts of the 2,336,321 shares owned by Transamerica Corp.

Announcing the proposed sale recently, Transamerica said it would reduce the bank holding corporation's stock in Bank of America to 11.1 per cent of the 10,238,053 shares outstanding. The remaining shares of the bank stock are held by approximately 150,000 stockholders.

Transamerica will use proceeds of the sale to liquidate bank loans and to provide additional working capital.

Bank of America, in terms of total deposits and resources, is the world's largest bank. It is the leader in branch banking in the country, with banking offices in 536 locations.

HANFORD HIRING DELAYED

RICHLAND, Wash., Oct. 19-(AP) Additional hiring of workers at the Hanford atomic plant will probably be delayed until the first of the year, a company spokesman said today.

EARTHQUAKE RECORDED

PASADENA, Calif., Oct. 19-(AP)- A moderately strong earthquake at a point about 6,500 miles from Pasadena, direction undertermined, was recorded by seismological instruments at California Institute of Technology at 1:13:23 p.m., PST, today.

Speedup of Atomic Production Okehed

WASHINGTON, Oct. 19 -(AP)- Congress cleared the way today for a fast start on the administration's plan to expand atom bomb making facilities and the supporting TVA power system at a cost of more than $300,000,000.

The program provides also for expansion of facilities at Hanford, Wash., the center of plutonium operations.

Reacting to the president's recent announcement of an atomic explosion in Russia, the lawmakers voted to relax curbs they placed only a few months ago on spending powers of the atomic energy commission.

The bill went along to the White House for apparently certain signature.

Warmongering Moves Aired By Yugoslavs

BELGRADE, Yugoslavia, Oct. 19 -(AP)- Yugoslavia's official press reported today Russia has moved red army troops into neighboring cominform countries as part of a "warmongering" campaign against Premier Marshal Tito's government.

The report was carried in a three-column article in Dorba, voice of the government, in the most specific accusation about Russian troop movements made public in this country.

The article declared that Russia has moved into Romania through Bucharest with some small units approaching the border toward Yugoslavia.

The article reported that Cominform (Communist International Information bureau) countries, with Russian help, are strengthening their border guards and building trenches and bunkers all along their frontiers with Yugoslavia.

"All these military preparations are being followed by stronger warmongering propaganda in the frontier areas," Borba said.

Judy Coplon Fails To Halt New Trial

NEW YORK, Oct. 19-(AP)-Judith Coplon today failed in an attempt to have the indictment quashed before her second trial on spy charges.

The 28-year-old former justice department employe, convicted in Washington of taking government documents for espionage purposes, is scheduled to go on trial here Nov. 9 on an espionage conspiracy charge.

Charged with her in the alleged conspiracy is Valentin A. Gubitchev, Russian engineer who has been suspended from his job at the United Nations.

Search Continues for Hillcrest Escapees

A search for two girls who have been missing from Hillcrest school for girls for two days continued Wednesday. They are Peggy Bushong, 18, of Bend and Ivy Cantrall, 15, of Roseburg.

Still missing, also, were three boys who escaped from a detention cottage at Woodburn boys school late Sunday night.

BUM TWENTIES REPORTED

SEATTLE, Oct. 19 -(AP)- A rash of counterfeit $20 bills in the Seattle area was reported today by Leo A. Smugai, supervising secret service agent here. The bills are distinguished by backs of a brighter green than genuine bills. Their serial number is 351386513A.

The first radio network started operation in 1926. It was NBC.

Coal Walkout Talks Reach Hopeless Stage

By The Associated Press

An industry spokesman said Wednesday that negotiations to end the coal strike have reached the "hopeless" stage.

U.M.W. Boss John L. Lewis walked out on the conference at White Sulphur Springs, W. Va., where attempts are being made to end the contract dispute.

A union official said, however, that the miners' chieftain was not abandoning the talks.

There also were signs of crisis in the national steel strike. Many industries were running out of steel supplies.

The White House said President Truman is watching both strikes but has no present plans for intervening in either.

An operator spokesman said both sides were stalling in the fruitless coal negotiations, waiting for a call from Washington. Presumably, government seizure of the mines could result.

The Ford Motor Co., one of many firms feeling the pinch of shortages, said it will be forced to shut down most operations by about Nov. 11 if both strikes continue. Assembly operations could continue until Nov. 15. But even if both strikes are ended at once, the company indicated, some curtailments and layoffs will be necessary.

The only active peace move was a conference in New York between Federal Mediator Cyrus S. Ching and representatives of the U. S. Steel corporation. Ching said he wanted to see if big steel had altered its positions on free pensions. He talked with CIO Steelworkers union representatives Tuesday and with some other steel companies last week.

Lewis said nothing about the chances of coal peace, but blasted AFL President William Green. Green has rejected Lewis' proposal that the AFL help finance a $2,500,000 weekly strike fund for Philip Murray's CIO steel workers.

"You cry loud for labor peace and labor security, but seldom do anything to achieve it," Lewis said in a note to Green.

The Iron Age, metalworking trade weekly magazine, reported the "zero hour is now at hand for many steel users."

It said some plants already have closed and others will shut down this week. The magazine added:

"If the strike should last a month it will mean a severe shortage of steel for from four to five months. A longer tie-up will almost certainly hit purchasing power so badly that a sharp business setback will result."

WAGE HOLD VOTED

PORTLAND, Oct. 19 -(AP)- The city council voted today to draft an ordinance making city employes' present salaries a permanent minimum.

BRITAIN IGNORES RED

LONDON, Oct. 19 -(AP)- Britain has told nationalist China she has no present intention of recognizing the Chinese communist regime, Chinese informants said today.

Twins Join Triplets In Grimmett Family

Birth of twin sons at Salem Memorial hospital Wednesday was a comparatively calm event for Mr. and Mrs. Raymond Grimmett, 1060 S. Commercial st.

They already were parents of triplets—two boys and a girl—born eleven years ago. They have no other children. Grimmett is one of the proprietors of Foreman's cleaners and dyers. Mrs. Grimmett expects to be in the laundry business in a rather big way when she gets home, too.

High-level Crop Support Bill Gets Approval

WASHINGTON, Oct. 19 -(AP)- Congress today finally approved a high level crop price support bill, but not without a cry of "Santa Claus" from some city members.

Before the house approved the measure 175 to 34, Rep. Fulton, a republican from Pittsburgh, inquired pointedly if Saint Nick wasn't one of the authors. Rep. Coudert, another GOP member, said the 8,000,000 residents of New York City would be able to contain their enthusiasm. Coudert's district on Manhattan Island contains 298,995 people, none of them farmers.

Farm state members struck back hard. They said the bill would underwrite continued prosperity for all, and by no means represents a gouge at the city consumers.

"It is a bill to give America a stable economy," Declared Chairman Cooley (D-NC) of the house agriculture committee.

The bill went through the senate 46 to 7, clearing away the last big obstacle to final adjournment of congress.

Senator Ives (R-NY) forced a rollcall vote in the senate, crying that the bill would mean higher food prices for consumers and higher cost for taxpayers. Senator Saltonstall (R-Mass) chimed in, saying that "the taxpayer and consumer is the forgotten man."

But the final vote showed that the opponents were in a tiny majority. All seven senators who voted against the bill were republicans—Baldwin (Conn), Bridges and Tobey (NH), ves (NY), Lodge and Saltonstall (Mass) and Williams (Del).

Congressional leaders predicted freely that President Truman would sign the bill.

Hot Pineapple Leaves Docks

THE DALLES, Oct. 19 -(AP)- A truckload of pineapple that figured in a "hot cargo" river dock fight three weeks ago rolled out of here today for California.

There were no pickets in sight although CIO stevedores had been expected. State police were on hand to prevent any violence. Three weeks ago a raid on the dock had halted unloading of a barge from the Hawaiian strike-bound waterfront.

City port commission laborers, who had loaded the truck today, later turned to loading of two railroad boxcars. The canned fruit was moved from the port warehouse. No attempt was made to move cargo from the barge, still tied up at this inland Columbia river port.

Christian Science Lecturer Scheduled

Christian Science will be discussed by Mrs. Elisabeth F. Norwood of Brookline, Mass., in a public lecture at Leslie junior high school auditorium Friday night.

Mrs. Norwood's appearance is sponsored by First Church of Christ, Scientist, of Salem, and is authorized by the mother church in Boston, Mass. Her remarks will stress the power of love to heal all types of disease and destroy fear.

Presidential Nominees Get Senate Vote

WASHINGTON, Oct. 19 -(AP) The senate approved today President Truman's second effort to give a top government post to his close friend and former senate colleague, Mon C. Wallgren.

Over the bitter opposition of Senator Cain (R-Wash), it voted 47 to 12 to confirm Mr. Truman's selection of Wallgren to membership on the federal power commission.

With no opposition, the senate also confirmed two other major nominations and a flock of minor ones as it cleared its calendar for an early adjournment. They included:

James M. Mead, former democratic senator from New York, to be a member of the federal trade commission. Mead was nominated only yesterday, as was Wallgren.

Mrs. Eugenie Anderson of Red Wing, Minn., to be United States ambassador to Denmark. She thus becomes the first woman to represent this nation abroad in its highest diplomatic rank.

$12 PLUS TAX TO SAN FRANCISCO ON THE Shasta Daylight

Now that the summer tourist season is over, space is easier to get on the new streamliner *Shasta Daylight*, which has carried capacity loads daily since its inauguration July 10.

We invite you to try this new luxury dayliner on your next trip to San Francisco and see for yourself why it has created such a sensation. It leaves Portland in the morning, arrives in San Francisco that evening. Through big "Skyview Picture Windows" you'll see the spectacular scenery of the Shasta Route now mantled with autumnal colors.

Brand new from stem to stern, the *Shasta Daylight* has 9 chair cars with adjustable seats, cushioned in foam rubber, diner, coffee shop, tavern car, parlor-observation, with many innovations for your comfort and pleasure. All chair car seats are reserved, but there is no charge for the reservation.

FAST DAILY SCHEDULE

Lv PORTLAND	7:45 A.M.
Lv SALEM	9:00 A.M.
Lv ALBANY	9:31 A.M.
Lv EUGENE	10:16 A.M.
Lv KLAMATH FALLS	2:23 P.M.
Ar SAN FRANCISCO	11:15 P.M.

GOING TO LOS ANGELES?—The *Shasta Daylight* connects with the *Owl* at Martinez, arriving at Los Angeles 10:55 next morning.
