*"It is an Ill Wind That Blows Nobody Good."*

*That small ache or pain or weakness is the "ill wind" that directs your attention to the necessity of purifying your blood by taking Hood's Sarsaparilla. Then your whole body receives good, for the purified blood goes tingling to every organ. It is the remedy for all ages and both sexes.*

**Hood's Sarsaparilla**
Never Disappoints

## IMPROVED TOURIST SLEEPERS.

**Railroads Are Acceding to Demands of Middle Classes Who Want Better Sleeping-Car Service.**

In response to the demand of the times the O. R. & N. and its connections are placing in operation a much better grade of tourist sleepers for Pacific coast service than at any previous time. The largely increased traffic to this section of the country has demanded all the improvements of latter-day transportation, and in consideration of tiha the railroads are establishing a service which is excellent in every particular. Not only are the wishes of the first-class passengers served, but those who are traveling to and from the East on second-class tickets are splendidly cared for. There are was a time when a tourist sleeper appealed to a limited number of people who were traveling on the "cheap" order, in every meaning of the term. Now, however, there has been a radical change. With the better tourist sleepers in operation the class of passengers has been improved, and one may now travel upon them and enjoy all the privileges of a first-class sleeper at a greatly reduced rate.

Daily, on the O. R. & N. Eastbound fast mail, is attached one of these latest improved tourist sleepers, a model of beauty and handsome appointments. The new cars are almost an exact counterpart of the first-class sleepers.

One noticeable feature of the new tourist cars is the absence of a smoking apartment. The new cars being built by the Pullman Company are not porvided with smoking apartments. This new departure has been taken because of the fact that most through trains are provided with composite cars, which provide a smoker for the sleeping-car passengers.

Kit Carson's rifle, which was carried by him for more than 40 years, is now in the possession of the Montezuma lodge of Masons, at Santa Fe, of which lodge Kit was a member.

**$100 REWARD $100.**

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address

**An Excellent Combination.**

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

## MINES OF ALASKA.

**Favorable Report From Head Waters of the Big Horn—Glowing Reports From the Porcupine.**

Herman Olson has returned to Skagway from the headwaters of the Big Horn river, which empties into Taku Arm opposite the Golden Gate. He found a foot or 14 inches of snow at Ptarmigan pass on his return, and a week ago there was even more of it in the Big Horn mountains. While the snow was too deep for Olson to reach the highest point desired, he was fortunate enough to find another copper and gold ledge, which is from 25 to 50 feet in width, and carries ore which looks remarkably similar to the wonderful rock taken from the famous Engineer's group on Taku Arm. Olson staked four claims for his principals on this ledge.

**Cook's Inlet Country.**

John W. Cliff and Captain S. B. Johnson and wife, have just arrived at Skagway from Cook Inlet. "We left Sunrise City, Cook Inlet, September 15," said Mr. Cliff, "making the trip down in 14 days. The mining season for that part of the country had about closed when I left. This has been one of the most favorable seasons, so far as climate conditions are concerned, ever seen in that country. But few, if any, new gold discoveries have been made on the Kenai peninsula this season. The old established mines have been reasonably successful. Mills creek, Lynx creek, Granite creek and Upper Six-Mile river, may be mentioned among those that have produced well in the Sunrise mining district. They are all sluicing propositions. The properties mentioned have yielded all the way from $8 to $100 per day to the man for part of the season. The Turnagain Arm district has several paying streams, among which are Resurrection, Bear, Palmer, California, Glacier, Indian and Crow creeks."

**Fortune in Gold Dust.**

There came to Skagway the other day 11 boxes of gold dust, each weighing nearly 400 pounds, and the whole valued at $750,000. The gold dust was brought out by the Flyer Line Steamboat Company for the Canadian Bank of Commerce, and on its arrival there was taken to the Brannick hotel and deposited in the downstairs front room, in which a bed was laid for the guards, H. E. Rudd and G. H. Burns, who have lived with it ever since it left Dawson. Rudd and Burns were formerly mounted Policemen and went in with Major Walsh in 1897, when Rudd remained in this town for nearly a year. These men say this is certainly the largest shipment of dust that ever came out this way, and they believe it is the largest single shipment that ever left Dawson.

**Dyea Is Reviving.**

E. B. Whalen made a business trip to Dyea from Skagway and found the town easily carrying its new honors as a prospective railroad terminus. The old narrow gauge tram is being torn up, and standard gauge railroad bed is being constructed along the street and out to Canyon City. At Sheep Camp the new company has constructed a large commissary building and also a bunk house, and it is said 11 men are now at work on the tunnel; but this is not likely, as the engineer has scarcely had time to make the exact location of that important piece of work. A large stock of supplies has already been taken out to the new station, and several pack animals are employed in taking out further supplies.

**When Navigation Closes.**

Charles Sperry says the Yukon was closed by ice at an unusually early period last year. He says that in 1886 he was at the mouth of Stewart river on the Yukon, and the river did not close that year until on Thanksgiving day, November 24, on which day three scows, bringing 13 men, arrived at Stewart river. On November 10, 1888, Mr. Sperry and another man, took their dog team in a boat and started for Circle City, but on the 13th of the same month they were blocked by ice at the mouth of the Klondike river. From these experiences it appears that there have been years during which navigation was open much later than last year, when it closed at Dawson, November 3.

**Bennett Is Booming.**

Bennett is experiencing a great boom, says the Skagway Alaskan. The whole lake shore is lined with men building scows and there are not enough restaurants to feed the people. All kinds of business is flourishing, and it is probable that things will remain in this state until the close of navigation.

**Conditions at Dawson.**

Private telegrams were received by E. S. Busby, Canadian customs inspector in Skagway, saying that Dawson was enjoying fine weather and excellent business. His advices also conveyed the information that there is a scarcity of socks, potatoes, hay and oats in the Klondike capital. A great deal of provender is passing through Skagway, but most of the hay and oats is for the Canadian Development Company. Within the last two weeks over 200 tons of hay have gone forward from Skagway.

**Likes the Porcupine District.**

J. A. Cameron, who was for six years deputy warden of the state penitentiary at Walla Walla, has just returned from a 10 days' trip to the Porcupine district, with which he is very favorably impressed. Mr. Cameron was accompanied by his brother-in-law, T. D. Stewart, who was so much taken up with the different mining propositions on Porcupine and McKinley creeks that he concluded to remain a week or 10 days longer in that country, reports the Alaskan.

**Are Leaving Atlin.**

Passengers from Atlin report that about 175 miners came out from the Atlin district in one day recently, many of whom remained at Bennett. A large number of these were not in flush circumstances, and not a few of them will turn their faces toward Dawson, now that the bars are down.

Robert B. Mantell, the actor, was relieved of his financial obligations in the United States district court at Chicago. He filed his petition several months ago, scheduling $13,847 liabilities and $100 assets.

## TRANSPORTATION INADEQUATE.

**Rates Are Moving Up and Have Bearing on Export Trade.**

Bradstreet's says: More nearly, perhaps, than ever before, does the volume of general trade and industry tax existing transportation facilities handling the same. From nearly all parts of the country, but particularly from the West and South, come reports of car scarcity. Some of this congestion seems to be the result of a diversion of traffic ordinarily carried on by water routes to already crowded railroads. The inability of present transportation facilities to cope with the existing situation is, however, not confined to domestic trade lines. From both coasts of this country come reports of insufficient tonnage offering to handle goods seeking a foreign outlet, and freight rates are considerably higher than they were a year or more ago. This latter feature, in fact, is one which may have important effects upon our foreign trade during the balance of the year.

With few notable exceptions prices continue strong. A number of lines have advanced quotations, while the great body of staple articles manifest all their old firmness. Some weakness in wheat prices is directly traceable to higher freight rates because of the partial closing of the door to relief from growing domestic stocks.

Raw wool is firmer and even higher on better demand at the East, some heavy speculative transactions being reported.

The strength of lumber is apparently undiminished.

Business failures for the week number 221, as compared with 164 last week, 213 in this week a year ago, 225 in 1897, 202 in 1896, and 259 in 1895.

Business failures in the Dominion of Canada for the week number 20, as compared with 19 last week, 24 in this week a year ago, 27 in 1897, 48 in 1896, and 36 in 1895.

**In the Horseless Future.**

The following is the Chicago Tribune's prognostication: "What was the matter with that cab driver you were called to see last week?" asked Doctor Squills. "As nearly as I can describe his case," answered Doctor Kallomel, "it is automobiliousness."

**The Isthmus of Panama.**

Its engineers believe that they have solved the problem of the successful completion of this great enterprise. If so, it will prove a great benefit, no more than has Hostetter's Stomach Bitters, the remedy which never fails to cure afflictions of the stomach. The Bitters strengthens weak stomachs and torpid livers.

South of Alva, in Southern Illinois, is the banner cornfield of the world. It will give this year 600,000 bushels of corn, an average of 100 bushels to the acre.

**The Rock Island Wall Map of the United States**

Is the best offered to the public. It is very large and specially adapted to school purposes. Every teacher of geography and every business office should have one. It will be sent postpaid to any address on receipt of fifteen cents in postage stamps or coin. Address,

JOHN SEBASTIAN, G. P. A., Chicago, Ill.

**Climate, Scenery and Nature's Sanitarium.**

Scenery, altitude, sunshine and air, constitute the factors which are rapidly making Colorado the health and pleasure grounds of the world.

Here the sun shines 357 days of the average year, and it blends with the crisp, electric mountain air to produce a climate matchless in the known world. No pen can portray, no brush can picture the majestic grandeur of the scenery along the line of the Denver & Rio Grande Railroad in Colorado. Parties going East should travel via this line which is known all over the world as the Scenic Line of the world. For any information regarding rates, time tables, etc., call on or address R. C. Nichol, general agent, 251 Washington street, Portland, Or., or any agent of the O. R. & N. Co., or Southern Pacific Company.

Statistics which have been collated in Wisconsin show the average cost of raising wheat to be 24 cents a bushel and the cost of corn 27 cents. In both cases there are included interest on the value of the land, with the cost of implements and horses added in.

The city of Concord, N. H., has exempted from taxation for 10 years the new machinery, to the value of $600,000 of the New Hampshire Spinning Mills, of Penacook, reported as organized recently for the manufacture of fine grade combed yarns.

**His Head's Course.**

On the second day out one of the sailors on a White Star steamer had a bad fall and sustained a severe cut on his head. One of the ladies on board was very solicitious about him, and inquired of the captain that evening how he was doing. Rough weather came on, and she was compelled to forget the wounded sailor in her own suffering. Four days later, when she emerged white and weak, from her stateroom, she saw the poor sailor with a strip of plaster on his forehead. "How is your head?" she asked, kindly, as he passed by on some duty. "West by south, m'am," was the reply, delivered with respectful but hasty clearness, and he was gone.

**TO CURE A COLD IN ONE DAY**

The Japanese government has made the camphor trade of Formosa a monopoly. No one can sell except to the government, nor manufacture without a license.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

The Standard Oil Copmany has filed its answer to the petition of the attorney general of Nebraska in the case brought under the anti-trust law to restrain the company from transacting business in the state. The company in its answer, denies that it is any sense a trust.

**Something New in Cookery.**

From Puck: Scalloped oysters—Select firm, plump oysters and scallop them evenly and neatly with a pair of sharp scissors. Now, with a needle threaded with pink silk, if for a pink tea, or blue if you wish blue points, work a buttonhole stitch around the scallop. When finished press carefully on the wrong side with a hot iron. Shirred eggs—Carefully remove the shell from a fresh egg, and hold the white and yelk firmly in the left hand. Now, with a fine needle and thread, gather the material in straight rows about half an inch apart. Draw up to the required fullness and fasten neatly the ends of the thread. Snow pudding—Take about four quarts, say four and a half, of fresh snow. Wash in several waters and put it to soak in hot water over night. In the morning knead it up and set by the fire to rise, add some melted glue, and set aside to cool. Chicken patties—This dish is a lost art as Patti is no chicken. Egg plant—(See incubator).

**Saved Through Chest.**

In 1836 Mohammed Balba usurped the crown of Granada in spite of the superior claims of his elder brother Jussef. He was very unsuccessful in his conduct of the war against the Christians and was at length assassinated by poison absorbed through his skin from a shirt. He entertained a desperate dislike to the brother whom he had injured, and when he knew that his own fate was sealed he sent an order to the governor of the prison in which Jessuf was confined that he should be executed immediately. When the order arrived Jessuf was playing chess with the chaplain of the prison. With great difficulty Jessuf obtained a respite from the governor permitting him to finish the game. Before it was ended, however, news came that the usurper had died of the poison. This cancelled the order of execution, and Jussef, instead of going to the scaffold, mounted the throne.

Freeport, Ill., will purchase the city waterworks, operated by a private corporation, paying therefor $245,000.

5 DROPS The Pleasantest, Most Powerful and Effective Neverfailing Remedy for *La Grippe, Catarrh, Rheumatism.* TRADE MARK Will cure any ache or pain known to the human body. Send for total bottle, 25c. This offer lasts 30 days only. Large bottle (300 doses of 5 DROPS each) $1.00 or 3 for $2.50.

Special Master Carey's sale of the patent lands of the Northern Pacific was confirmed by Judge Jenkins.

# Acid in the Blood

That rheumatism in its worst form can be cured by proper treatment is shown by this interview with Mat Tanner, of 231 Hamilton St., Albany, N. Y. He said: "I was taken with rheumatism that began in my hips and spread throughout my body. For two years and a half I was confined to my bed. I employed nine of the best physicians of Albany, and two specialists from New York, but all declared my case hopeless. My niece recommended Dr. Williams' Pink Pills for Pale People. The use of several boxes enabled me to leave my bed and go about with crutches. Finally I abandoned the crutches, and am now as well as ever. No praise of Dr. Williams' Pink Pills for Pale People is too strong for my case.

MAT TANNER."

Sworn to and subscribed before me this 17th day of September, 1898.
NEILS F. TOWNER, Notary Public.
—From the Albany (N. Y.) Journal

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in packages. At all druggists, or direct from the Dr. Williams Medicine Co., Schenectady, N. Y., 50 cents per box. 6 boxes $2.50.

**The Word Splitter Squelched.**

They were gazing across the lake.

"It looks like rain," said the man who was reckless with his English.

"What looks like rain?" coldly inquired the word splitter.

"Water," said the reckless man.—Cleveland Plaindealer.

News paper has gone up a quarter of a cent a pound within the last three weeks. The newspapers of New York city use 400 tons of paper daily, at a cost of two cents a pound. The recent sharp advance means $2,000 a day more to the newspers or $730,000 a year.

Fifty thousand copies, covering the full report of the proceedings of the trust conference at Chicago, will be printed for distribution.

# Worms

CASCARETS are a sure cure for tape worms and those other pests of worms that make the lives of children and their mothers miserable. Any variety of parasites that live in the human stomach or bowels, and feed on the substance which should properly nourish the body, are dislodged by Cascarets Candy Cathartic, and expelled. One or two tablets usually drive them out, and persistent use is sure to do away with the unwelcome intruders. Many children and older people suffer from worms without knowing it, and get thin and weak, although their appetite is good. The best way to find out is to take Cascarets. Never accept a substitute!

—Brooklyn Citizen.

"A tape worm eighteen feet long at least came on the scene after my taking two CASCARETS. This I am sure has caused my bad health for the past three years. I am still taking Cascarets, the only cathartic worthy of notice by sensible people."
GEO. W. BOWLES, Baird, Miss.

The judge began to understand, and
