Something New Under the Sun.

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucuous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES" the GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying disease. It cures all inflamation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD IN THE HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the "GUARANTEED CATARRH CURE."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. E 625 EDWIN S. GILES & COMPANY, 2030 and 2032 Market Street, Philadelphia.

Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach, Liver and Kidney remedy. Cures Dyspepsia, Loss of Appetite. Try it. Only 50 cts. Guaranteed. Will Be the Proper Idea.

There is an effort being made to put Oregon history in such a form as to induce teachers to present the subject systematically in our schools. It has been suggested that a history be written of the state and placed in every public school, that teachers and pupils may have at all times access to the work which will give in detail the history of the discovery, growth and development of Oregon. The subject is worthy of the thoughts and best efforts of those interested in Oregon history, and that should include all Oregonians, either by birth or residence, for Oregon history is one of the most interesting subjects in the development of the nation.—Oregon School Journal.

An Evangelist's Story.

"I suffered for years with a bronchial or lung trouble and tried various remedies but did not obtain permanent relief until I commenced using One Minute Cough Cure," writes Rev. James Kirkman, evangelist of Belle River, Ill. "I have no hesitation in recommending it to all sufferers from maladies of this kind." One Minute Cough Cure affords immediate relief for cough, colds and all kinds of throat and lung trouble. For croup it is unequalled. Absolutely safe. Very pleasant to take, never fails and is really a favorite with the children. They like it. Perry & Perry.

The king of the Belgians went out for a walk the other day, and entered a farm to ask for a glass of milk. When he had made a remark in English to his companion, he heard the boshos say to her husband in Flemish: "I wonder what that long-nosed Englishman will give us for the milk?" Rev. Jeff. Hicks Is Not Dead.

Notwithstanding a widely current rumor that the Rev. Ira R. Hicks was dead, he never was in better health, and never did a harder or more successful year's work than that just closing. He has just completed his large and splendid almanac for 1902 and, with his staff of able helpers, has brought his journal WORD AND WORKS, justly forward with international reputation. For a quarter of a century Mr. Hicks has grown in reputation and use as the peoples' astronomer and forecaster of storms and the character of coming seasons. Never were his weather forecasts so sought after as now, his timely warning this year of a serious month, having saved the people from loss and suffering. Millions of bushels of wheat were harvested by his advise to plant crops that would mature early. The American people will certainly stand by Prof. Hicks, when it costs them so little and the benefits are so great. His fine almanac of 200 pages is only 25c, and his splendid family journal is only one dollar a year including the almanac. Send to WORD AND WORKS Pub. Co., 2301 Locust St., St. Louis, Mo.

Health and Beauty.

A poor complexion is usually the result of a torpid liver or irregular action of the bowels. Unless nature's refuse is carried off it will surely cause impure blood. Pimples, boils and other eruptions follow. This is nature's method of throwing off the poisons which the bowels failed to remove. DeWitt's Little Early Risers are world famous for remedying this condition. They stimulate the liver and promote regular and healthy action of the bowels but never cause griping, cramps or distress. Safe pills. Perry & Perry.

BOSTON'S NEGLECT OF POE.

No Fitting Recognition of His Fame in the Whole Country.

I have mentioned the circumstance that it has never occurred to the town of Boston to erect a monument to Poe, who, next to Franklin, probably has the most world-wide fame of all the men of letters native to that town, and Poe was connected with Boston not alone by the important accident of his birth, but by the commencement there of his literary career, itself an event worth commemorating. So far as I am aware, Boston never awarded to Poe the honor which, in the case of her dead literary men of eminence, she sometimes deems worthy to be taken in lieu of any further monumental attention, namely, the calling of a public meeting by the mayor, at which addresses are made and complimentary resolutions adopted. The name of Poe is, indeed, carved on the outer walls of the public library at Boston; so are several hundred other names. Their purpose is chiefly decorative.

However, Boston's neglect in respect of Poe was but the neglect of all the rest of the country. His kindred left his grave at Baltimore unmarked and a fund of about $1,000 had to be raised by public subscription to place above his ashes the unbeautiful mortuary monument which now bears his name. If an enterprising commercial person had not hired the cottage in which Poe lived at Fordham, just out of New York, and put up above its door the large sign "Poe's Laundry," surmounting it with the figure of a raven, thereby arousing the wrath of many people, including the owner of the cottage, and shaming them into a protest, it is probable that the poet's fame would still be quite destitute of any public memorial.—Atlantic.

Force of a Bird's Flight.

Some idea of the terrific force with which a bird passes through the air may be gained from the fact that a short time ago a common curlew flew right through a piece of plate glass a quarter of an inch thick at Turnberry lighthouse, Ayrshire.

Great Luck of An Editor

"For two years all efforts to cure Eczema in the palms of my hands failed," writes Editor H. N. Lester, of Syracuse, Kan., "then I was wholly cured by Bucklen's Arnica Salve." It's the world's best for Eruptions, Sores and all skin diseases. Only 25c at Perry & Peery.

—The latest story of a wonderful gold find in Alaska is of a lake whose bed is literally paved deep with gold dust. The lake is 1,000 yards long, 800 yards wide and 150 feet deep. It is fed by water from a glacier, and its only outlet is a little stream two feet deep, but of incredible swiftness. The assay of the sand which a sea captain brought to Seattle recently showed $8 to $10 a cubic yard, and on this basis a man alone could take out $10,000 a year.

—The big white moose recently shot in the Maine woods by a Mr. Sargent, of Grafton, has greatly interested naturalists as well as sportsmen. It is the only white moose ever seen in Maine, and very few have ever been heard of elsewhere. The naturalists say it is, of course, not strange that there should be an albino moose, resulting from a freak of nature, as white deer and other albino game animals are not uncommon. But white moose are a great rarity.
