Our Tri[illegible]

The first of th[illegible] a quick trip to the county-seat, more for sight seeing than anything else. Among the first things that caught our eye was the large display of Superior stoves, both cook and heater, at Hopkins Bros.' and of course we had to stop, and before we knew it we were the happy purchasers of one of the best. The price was the lowest and the stove first-class in every respect, Hopkins Bros. are the people. When in Albany call and see them and see whether you want to buy or not.

Coll Van Cleve, of the Toledo Coal Mining Co., was in the city yesterday. He says the company has reached a large body of good coal, which he is confident is a fortune for its owners. The vein he says is eight feet thick and thousands of tons of a fine grade of coal in sight. Some prominent Albany business men are in the company and they are putting in machinery to work the mines. They will begin to take out coal next week, and if this coal discovery is as good as claimed for it will prove one of the valuable industries of Oregon. A good paying coal mine is what has long been sought in this state, and if it has been discovered at Toledo, as it seams has been done, it will prove a bonanza.—Herald.
