# Butter Up One Cent Here; Stocks Are Carried Up

## BUTTERFAT PRICE FOLLOWS; REST OF MARKETS STEADY

A one-cent rise in butter and butterfat prices was reported on the local markets Saturday. This was the only price change to be seen here Saturday.

The new price makes sweet cream butter 23 cents, buying price. Butterfat was quoted at 17 and 15 cents.

No new movement in the vegetable market was reported here Saturday, prices remaining as previously announced.

A movement in prunes is expected to materialize shortly after the first of the month here. At present the northwest market is watching the attempt in California to sign up 85 per cent of the crop in a cooperative pool. Northwestern growers believe that if this is successful the price will hold up, but if it fails they look to see the price shattered. Locally, the prune crop will not be ready for a few weeks and as a result there is no movement in the prices.

## PORTLAND BUTTER MART IS FLOODED

PORTLAND, Aug. 26.—(AP)—Late increase of arrivals in the butter trade here suggest the recent sharp break in California values which makes it more profitable to ship to Portland. Arrivals from outside points in Portland showed a fair increase for the week. Local manufacture continued to decrease, a condition that is causing a general cleanup of offerings here.

Storage butter continues a bearish factor in the butter trade generally along the coast inasmuch as speculators appear to have lost faith in the ability of the market to do much better.

Butterfat values are unchanged.

There remained a lack of general change in the market for eggs at the week-end. Local Co-ops continue to maintain their values as a result of the shorter lay but some outside retain their tactics of demoralization with sales of undergrades.

There is a demand for all sorts of live chickens in the local trade. Prices are steady to firm at the recent advance despite the lack of change in cards which are misleading and an effort to stop shipments direct to Portland.

Slight betterment in the peach trade has resulted from the determination of growers of the leading districts to stop picking rather than take a loss on their supplies. Prices are steady but are hurt by the low sales of some big stores.

There is an oversupply of fresh Italian prunes as well as plums on the local market, resulting in a further drop in the price. Lack of ouside demand throws more fruit on the coast trade.

Generally steady trade conditions are suggested in the market for country killed meats. Hogs are moving out at the recent slight shading of prices. Veal is in call for tops but a trifle slow for heavy sorts.

There was a slightly better feeling in two major markets during the week-end session of the East Side Farmers' wholesale market. Perhaps the chief showing was in tomatoes which ruled generally 35c box for good stuff and a more active call while some selections sold 40-45c box.

Cantaloupes also sold better but there was little if any improvement in the price.

Peaches were not so liberally offered and demand appeared a trifle better but indicated a top no higher than 45c box. This applies to both J. H. Hales and Elbertas.

Apples were a trifle slow with a small movement in red Gravensteins as high as 70-75c for face and fill while jumble Gravensteins moved at former values.

## PUBLIC MARKET IS BUSY SATURDAY

Hundreds of persons visited the Producers' Public market Saturday to inspect the many special prices listed for the farm produce displayed there. No changes in the regular quoted prices were announced, the special prices being for Saturday only.

Plentiful supplies of all sorts of vegetables and fruits were on the market Saturday. Every stall was packed and several extra ones were installed.

Chickens, eggs, dairy products and rabbits were specialties to be found in many stalls Saturday.

## COMMODITY TREND UPWARD SUPPORTS SECURITY ISSUES

NEW YORK, Aug. 27.—(AP)—Commodities again took the lead away from securities in another wave of buying in today's markets.

Public utility stocks held up well, closing with many gains of $1 to $3 a share, but other classifications of stocks lost most of their earlier gains when profit takin gappeared. Turnover for the two-hour session was about 2,000,000 shares.

Cotton had one of its most vigorous upturns of the year, advancing $2.50 a bale or more. Wheat was up around 2 cents a bushel.

The Copper stocks held up well. American Smelting and Anaconda gaining $1 a share each to $31.25 and $12.25, respectively. Kennecott moved up $1.25 to $15. North American featured the utilities, soaring $4 a share to $40. American and Foreign Power and Consolidated were up around $2 a share and American Power and Light gained $3 to $14. After going to above $40 a share, U. S. Steel reacted to $48.37 for a net gain on the day of 62 cents. Case Threshing was up $1.62 a share to $61.62 and International Harvester, after an early gain of $2.25 a share closed at $31.27 up 62 cents.

Cotton closed $2.40 to $2.80 a bale higher, the gain being one of the most spectacular of the year and boosting prices to new high levels for the season.

The weekly car loading statement was somewhat disappointing to those who had hoped for a large increase. The gain was about 6200 cars over the preceding week.

The week closed with no sharp gains in production reported by the steel industry but increases were reported in prospect.

The curb market shared in the buoyant display of strength among utilities stocks. Electric Bond and Share Common again soaring spectacularly. The present stock which sold as low as $5 this summer closed at $44.37, a gain of $5.37 in one day of trading.

## Wheat Comes Back On Chicago Marts

CHICAGO, Aug. 27.—(U.P.)—A rush of buying sent wheat up 1 to more than 2c on the board of trade at the start today to the highest levels in two weeks. Heavy profit taking met the upturn but the market held stubbornly around 2c higher most of the session. Bearish influences were ignored in a wave of buying which was again led by houses with eastern connections. There was heavy selling here against purchases at Winnipeg. Buying was influenced by the upturn in cotton and stocks. Corn, oats and rye joined the advance for fair gains. The rise in corn brought increased country offerings.

At the close wheat was 1 3-4 to 1 7-8c higher, corn was 7-8 to 1 1-4c higher, oats were 5-8 to 3-4c higher, and rye was 1 1-8 to 1 1-4c higher. Provisions were firm.

Receipts were: Wheat 23 cars, corn 225 cars and oats 37.

Cash prices were: Wheat 2 to 3c higher, corn and oats 1-2 to 3-4c higher.

## "Horsefeathers" Is Crowd Getter

So successful has been the engagements of "Horsefeathers," the Four Marx brothers' comedy, in Seattle and Portland that it has became necessary to hold extended runs in both cities. In Seattle 18,472 people saw the picture at the Fox Fifth avenue theater and so many were turned away the last night that the run was extended to the Fox theater for another week. At Portland "Horsefeathers" enjoyed a capacity week at the Fox Paramount, where the demands for admittance were so great that the film was sent over to the Fox Rialto for an extended run of one week. "Horsefeathers" will bring the Four Marx brothers to Eugene Sunday at the Fox McDonald theater where the film will be shown Sunday, Monday and Tuesday.

The management announces that in order to accommodate the crowds expected Sunday that the doors will be open one hour and half earlier or at 11:30 o'clock Sunday morning. The showings of "Horsefeathers" will be continuous Sunday.

**PRUNE MARKET OPEN**

ROSEBURG, Aug. 27.—(AP)—The first prune prices of the season were reported here today, buyers being in the field purchasing a limited quantity of choice fruit. The prices, which correspond closely to closing quotations of last season, are as follows: 30-40, 3c; 40-45, 2½c; 45-50, 2¼c; 50-55, 2c; 55-60, 1 3-4c; 60-65, 1½c; 65-70, 1¼c; 70-100, 1c.

**WOOL UP AGAIN**

BOSTON, Aug. 27.—(U.P.)—After a period of hesitation in the wool market the following advanced asking prices, buying was again resumed on a large scale and carried wool prices to distinctly higher levels. Practically all descriptions of domestic wools participated in the rise. Wool of 56s and lower grades were advanced with relative ease. Another feature of the market was the response wool top prices made to the rise in raw wool values.
