A few farmers are making an effort to kill the gophers which infest and do so much damage to ranchers, while many other are neglecting the very important duty. We understand the proper officials will be here the first of May to inspect the work already done and also to place a man in charge to look after the work done and poison the little bolt tailed rodents to be charged up to the respective land holders. Mr. and Mrs. John Thomas will leave Sunday for Portland where they will spend the summer. There is to be a picnic dinner at the Annex school house at the close of school on Friday of this week.
