"GIT ALONG, LITTLE DOGIES, GIT ALO-O-O-NG!"

Down a long, dusty trail across the western Oklahoma plains went this file of gaunt cattle, searching for water and grazing, both of which had disappeared from their home pastures during the drouth. This melancholy scene was repeated many times over through the western plains area until partial relief came in the form of heavy rains in some sections. It was "the last roundup" for thousands of western cattle.

DOES YOUR CAR GIVE 100%

● Power Output ● Performance ● Economy? ●

Whether your car has been driven 5000 miles or 50,000 it's a safe bet that it is not 100% efficient. That is why we have just purchased over a $1000 worth of scientific motor testing equipment—the most complete in Eugene—it takes all guesswork out of motor tuneups.

We Test The Following With Perfect Machine Equipment.—No Chance for Errors—

Spark Plugs—Compression—Gen. Ignition Test—Distributor—Ignition Coil—Condenser—Ignition Cable—Vacuum Carburetion

Your car cannot function properly unless all the above are in perfect adjustment. You will be surprised at the short time needed to complete adjustments—and the small cost will be amply repaid by greater economy and efficiency.

TRY the SPOON TEST!

We realize that no amount of advertising or talking on the rich smoothness and honest-to-goodness satisfying flavor of our ice cream can put over the idea effectively.

We have, then, but one way remaining: The Spoon Test. First, go out and get some BLUE BELL ICE CREAM and then get a spoon . . . A silver spoon . . . a pewter spoon . . . any kind of spoon (even a fork will do!) . . . Then taste the ice cream . . . judge it as critically as you know how . . . we leave it up to the honesty of your taste. That is our most complete and sincere advertisement.
