OREGON EDUCATORS TAKE PART IN MEET

Experts from the Oregon state system of higher education will have a prominent part in the program of the National Vocational Guidance association, one of the most important sessions of the National Education association meeting in Portland next week, it was announced here today by Karl W. Onthank, dean of personnel for the University of Oregon. The two sessions, both on Wednesday, July 1 at the Hotel Benson, will be presided over by Dean Onthank, and Dr. J. R. Jewell, dean of the university school of education.

Both Dean Onthank and Dean Jewell will also take part in the program of the sessions. Dr. Howard T. Taylor, chairman of the department of psychology at the university, and C. W. Salser, assistant dean of the school of education at Oregon State college, will also speak.

The association is headed by Leona C. Buchwald, supervisor of guidance and placement for the public schools of Baltimore, Maryland. Other Oregon educators on the program include H. M. Barr, director of research for Portland schools; C. A. Howard, state superintendent of schools; Berdine Merrill, president of the Portland grade school teachers' association; Ariel E. V. Dunn, director of the placement bureau, Portland public schools; Henry M. Gunn, principal of Lincoln high school, Portland; James Hamilton, personnel director, Reed college.

Nationally known experts from other states include Grayson N. Kefauver, dean of the school of education, Stanford university; Jeannette Donaldson, supervisor upper grades and junior high schools, state department of education, Washington, and Virgil E. Dickson, assistant superintendant of schools, Berkeley, Cal.

Joint Recital to Be Thursday Event

TO THE PARENTS OF EUGENE

The milk that is delivered to your home for your children to consume should be the safest milk obtainable.

The Present Epidemic of Septic Sore Throat and Scarlet Fever in Eugene was definitely traceable to Grade A Raw Milk.

The U. S. Bureau of Public Health Service Says PASTEURIZE

The Health and Welfare of Your Family Deserves This Assurance of Safety in Milk

The Reports of the U. S. Bureau of Public Health Service.

Milk borne epidemics reported by City and County Health officers during the years 1933 and 1934 from all over the United States:

	1933	1934
Number of Epidemics	42	45
Cases reported	1348	1741
Deaths reported	39	42

Not one of these epidemics was traced to PASTEURIZED MILK.

A copy of the full report of the U. S. Public Health Service bulletin is available at either of the creameries listed below.

DR. MORRIS FISHBEIN, Editor Journal of the American Medical Association, in the Eugene Register-Guard dated March 19, 1936 says:

"Nowadays, it is customary to pasteurize even Certified Milk. This destroys any bacteria or germs which may be in the milk and which might transmit disease. Many people have been worrying whether pasteurized milk provides all the essentials available in raw milk. Controlled studies made under hospital conditions indicate that the growth-promoting capacity of heated milk is not measureably less than that of Raw Milk."

The U. S. Public Health Service Says Pasteurize.

The U. S. Army Demands Pasteurized Milk for All CCC Camps

Public Health Officials of Metropolitan Areas Demand Pasteurization.

Eminent Health Specialists Recommend Pasteurization

Can Eugene Fail to Ignore These Timely Warnings?

For Safety, Demand Grade A Pasteurized Milk!
