Common Sense About Eczema and Eruptions!

Here's Something About S. S. S. That You'll Be Glad to Hear.

You might just as well know it right now,—the cause of skin eruptions, pimples, blackheads, boils and so on, is right in the blood. There is no getting away from it. Science has proved it. We prove it. You can prove it.

When the cause of skin troubles and eruptions is in the blood, it isn't com-

mon sense to simply treat the skin. A bottle of S. S. S. will prove to you what is happening in your blood. S.S.S. is a scientific blood cleanser,—it drives out the impurities which cause eczema, tetter, rash, pimples, boils, blackheads, blotches and other skin eruptions. When these impurities are driven out, you can't stop several very nice things from happening. Your lips turn naturally rosy. Your eyes sparkle, your complexion clears, it becomes beautiful. Your face looks like that of a prosperous, ruddy, well-fed, refined gentleman, or if you are a woman, your complexion becomes the real kind that the whole world so admires. S.S.S. is also a powerful body-builder, because it builds new and more blood-cells. That's why it fills out sunken cheeks, bony necks, thin limbs, helps regain lost flesh. It costs little to have this happen to you. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

LARKIN JURY UNABLE TO REACH A VERDICT

The jury in the trial of Cliff S. Larkins, charged with a statutory offense involving a 16-year-old girl, after deliberating for 24 hours, was unable to agree, and were discharged by the court this morning at eight o'clock. They went into the jury room at 9:30 Tuesday morning.

According to court house reports, the jury stood nine to three for conviction most of the time, with only slight changes in the balloting. The jury was composed entirely of men, and the testimony in the case was of an exceedingly sordid nature.
