Anti-TB Drive Wins Support

Everyone should back the efforts being made to control tuberculosis, declared Dr. A. Triolo, county health officer, Thursday, calling the disease "one of the greatest threats to community health today."

The health officer urged general support of the 1946 Christmas seal sale now being conducted by the Lane County Public Health Assn.

"Tuberculosis is a disease spread from person to person," Triolo said. "Of all diseases of this type, it takes the highest toll of lives. Since tuberculosis is a communicable disease, and one which strikes hard at our young people, its control is a matter of vital public concern. One undiscovered case of tuberculosis is a threat to the health of everyone else in the community."

Triolo commended the campaign of the Lane County Public Health Assn. to prevent tuberculosis by spreading information about the disease to all groups within the community and by providing special services to the community to further the control of tuberculosis.

"The work of the association is carried out with the cooperation of the health department. We should all help the association's work by generous purchase of Christmas Seals," the health officer urged.

MINISTERS PROTEST

ASTORIA—(AP)—A formal protest against appointment of Myron C. Taylor to the Vatican as "personal representative of the President" was on its way to the White House Thursday, the Astoria Ministerial Assn. reported.

Radio 'Hams' Keep Contact

It takes more than a mere 6000 miles of Pacific ocean to keep Bud Carter, University of Oregon sophomore, from having an occassional chat with a lifelong buddy who is now in Yokohama, Japan.

Recently, through the means of amateur radio, Bud had a long bull session with his friend, Roger Cook, an ex-Marine who is now employed by the Chinese government in Yokohama.

Roger, who operates amateur radio J2AAT in his spare time, has regular radio talks with his family in Pasadena through a "ham" in that city, but up until last week had been unable to contact any amateur station in Eugene.

So Bud scouted around and looked up Dale Smith, 745 Eleventh Ave. W., who operates station W7HLB. Together they scanned the "ham" bands listening for J2AAT. One night last week they heard J2AAT calling and contact was established between the two stations.

Now, with the aid of Dale and his 150 watt "rig," Bud and Roger plan to get together via the radio waves to hash over old times and they hope someday to establish a three way hook-up with Roger in Yokohama, his family in Pasadena and Bud, here in Eugene.

Indochina Quiet; War Graves Found

HANOI, French Indochina—(AP)—A lull in French-Annamite warfare was reported Thursday from Haipohong. News that the French had resumed at Langson the exhumation of the bodies of French and Annamites murdered by the Japanese indicated that hostilities there also were interrupted.

Reports said sniping was continuing in Haipong, however, and that 20 kidnaped Chinese had not yet been returned. The rest of the coastal city's Chinese population was said to be under French protection.

In Langson, near the China-Indochina border, 72 decapitated corpses have been recovered from a single grave, the French said. The victims were massacred by the Japanese in March, 1945.

Lutefisk Plentiful For Holiday Season

ASTORIA — (AP) — Lutefisk—known in Scandinavian circles as Norwegian turkey—is going to be plentiful on local fish markets during the holiday season.

During the war only small quantities reached the market here, it was pointed out Thursday by Art Lindstrom, who is now engaged in shipping "bales" of the lye-cured cod to the Portland market.

Before the fish reaches the consumer, it is processed in water to restore its light, flaky texture, Lindstrom said.

STUDENTS WALK OUT

KOCHI, Japan —(U.P.)— Students of the Kochi Agricultural School struck Thursday and refused to attend classes until an allegedly militaristic atheltic instructor who slapped students is dismissed.
