Where Shall We Eat Today?
MAYBE YOU can answer that question for a lot of folk. When the Lord created man he left that problem to man himself and he has been faced with it ever since. This brings out the point I'm trying to get over. People always have to eat, and a few of the listings below will solve it for them as well as yourself.
OVER IN Springfield is about the nicest restaurant set up you will ever find ing and equipment that is located in for real money making. New building the hottest location there and doing a bang up business. $3500 down is all it takes to get started and this includes the stock.
OR IF YOU want a cafeteria right here in Eugene that has excellent possibilities we have that too for $2500 down and $5800 is full price including stock. This will give you financial independence and the best part of it is you have a very low overhead and an excellent long time lease—oh yes, I almost forgot to mention a nice 2 bedroom apartment goes with this—"Boy, ain't that something!"
IF YOU want something smaller we have a real live sandwich and ice cream set up that is located in one of the larger super markets that has unlimited possibilities. Its averaging around $75 per day now and could do a lot more. The net profit runs between 40% and 50%. Think that over. You can take possession of this for $1500 plus a small inventory and $3000 is the full price.
DEWEY CAMPBELL will be pleased to give you further details on any of these. They are all good bona fide businesses that will stand rigid investigation.
