[illegible] shipment during the remainder of January [illegible] ¢ ctl on the spot. [illegible]

English country markets firmer.
French markets [illegible].
Liverpool Wheat [illegible].

The Wheat Market.

The wheat market remains without material change, with a good feeling in favor of wheat. Wheat on wharf may be quoted $1 60 to $1 70 per central, the former for small lots from first hands, and the latter for round lots, while for "free on board" the same as last week. It may be said there is no change in the market within a week past.

We take from the dispatches published in the Oregonian report of Liverpool wheat market, that quotes wheat just shipped or to be shipped, per 500 lbs. to Queenstown for orders 44s, whereas we have reliable information that orders are 45s, and that possibly 45s 6d can be obtained for a round lot of really choice. We gave the same last week, and know we are correct, which shows the untrustworthy character of the market reports of our cotemporary.

We were mistaken in saying that the ship Allegiance got here too late to save her charter. Every exertion was made as soon as the ice embargo was removed, and she reached here last week Wednesday night before 12 o'clock, with a few minutes to spare.

Since last week the ship Cadzow Forest has been chartered at 35s to the United Kingdom, which shows that freights are not advancing. There are only two iron ships in the river not engaged, one here and one at Astoria. A number of wooden ships wait for cargoes, some of which have been here eight months. The preference has been strongly for iron vessels.

We hear of a shipment of Salem Mills flour to Liverpool at satisfactory figures.

Change in the Earth's Axis.

The general opinion of physicists as to the probability of a change in the position of the earth's axis has recently undergone modification. Different mathematicians who have of late gone into the question as, for instance, the Rev. J. F. Twisden, George Darwin, Professor Haughton, the Rev. E. Hill, and Sir William Thomson, all agree in the theoretical possibility of a change in the geographical position of the earth's axis of rotation being effected by redistribution of matter on the surface, but they do not appear to be all in accord as to the extent of such changes. Mr. Twisden, for instance, arrives at the conclusion that the elevation of a belt 20 degrees in width would displace the axis by ten miles only, while Professor Haughton maintains that the elevation of two such continents as Europe and Asia would displace it by about 60 miles, and Sir W. Thomson has not only admitted, but asserted as highly probable, that the poles may have been in ancient times very far from their present geographical position, and may have gradually shifted through 10, 20, 30, 40, or more degrees, without at any time any perceptible sudden disturbance of either land or water. In a recent paper, however, Professor Haughton has maintained that the north pole has not sensibly changed its position during geological periods.

Massachusetts is kind to bachelors and unkind to old maids, there being 3,000 of the former and only 163 of the latter married in that State last year.

PROTECT HOME LABOR.

The success of American manufactured wares throughout the world, and even in the English markets, is a final endorsement of the protective policy that found its staunchest advocate and champion in Henry Clay. Western man, as he was, he took the lead in sustaining manufacturing interests at the East. The record of time shows that when Democratic policy of trade was nearest fulfillment in the United States, our nation has always experienced its worst seasons of commercial disaster; whilst such disaster has never visited us when the protective policy has been in force long enough to encourage manufactures. After the war, with the burden of national debt upon us, duties had to be collected as a means of revenue, and a just discrimination made in favor of protection. This state of things has made the success of American manufactures possible, to such an extent that our manufactured goods have found their way even to British markets, while they have supplanted British wares in many foreign markets, all because protection favored home manufactures and caused competition and enterprise that has finally made us producers of the best and cheapest goods known.

Here in Oregon we have all the natural advantages that have made New England so rich and great; and in addition to untold water power that never fails, Summer nor Winter, we have a fertile soil that cannot be excelled. Our future depends on the utilizing of the great manufacturing advantages we possess, for the western valleys of Oregon and Washington Territory will in time rival in manufacturing industries the prosperity of New England. Protection is now needed to make such industries possible here. They must know small beginnings, and grow gradually, but in time they can go alone and demand no protection, and can even compete with all nations in the world's markets. We shall be great producers of wool of the finest quality; we have mines of iron and copper, our forests are of valuable timber, and practically without limit, can supply mills and factories forever; while flax is a product in which we have no superior. When we can work up all the raw material we can produce we shall be the most prosperous State in the Union.—Portland Bee.

CAPITAL PUNISHMENT.

If there is any virtue in capital punishment the State of Oregon should furnish a purer atmosphere as one by one the criminals under condemnation are swung off the gallows. Fifteen persons are under condemnation, or have already paid the dread penalty for the hideous crime of murder, or are yet to stand trial. Besides this several murders have lately taken place, which does not look as if the dread of the halter had become very prevalent. Our State presents a very unpleasant appearance to the civilized world, for if in the same proportion murders had been committed through the United States, there would have been four thousand executions, or sentences, within the past few weeks. In this State there has, within six months, been one murderer for every ten thousand of inhabitants. The statement is appalling, but is nevertheless true, and the fact must be met and argued fairly.

It is to be hoped that the solemn hanging of those under sentence, when it occurs, will have some visible effect to prevent the great prevalence of crime among us. If murder and assassinate still to run riot we may begin to doubt if capital punishment produces a salutary effect. It is a waste of sympathy to try to save the lives of many hardened criminals. Too often long terms of imprisonment are commuted, the criminals are pardoned and let loose on society to resume the same evil courses. The pardoning power is abused, and the privilege of petition is abused to effect it. Too many assist to procure liberty for desperate men who promise return in confinement to become scourges again when at large. The sad spectacle of the waiting gallows erected in various counties is to be deplored, but there should be no forfeiture of justice for the sake of false sympathy. It must be that when these unhappy and guilty wretches have paid the last penalty and are sent to the final judgment seat, the season will not have been in vain. The outraged law must be enforced, and when the majesty of the people is thus asserted, we may hope that criminals will respect their own fears, if not the rights and lives of others.—Portland Bee.

KENTISH COUGH LOZENGES, THE GREAT British Remedy. There is unquestionably no other remedy so certain in its effects. ASTHMA, WHITE COUGH, BRONCHITIS, and DISORDERS OF THE THROAT also yield to its influence. The highest medical testimony at home to their value for these complaints has been proved by over half a century's experience. They contain no opium, morphine, or any injurious drugs. KENTISH COUGH LOZENGES, prepared by THOMAS KEATING, Chemist, Brighton, are sold by all druggists. Agents for the Pacific Coast, JOHN H. REDINGTON & CO., and CRAS. LANGLEY & CO., San Francisco. [illegible]

Valuable Land for Sale.

Mr. Clarke, of the FARMER, having removed from Marion County, offers to sell 640 acres of land situated at a point where the Minto Pass Road leaves the valley, in the midst of a thickly-settled and very healthy region, most of the land being under fence, and at least half of it can be made good wheat land at a cost of four or five dollars an acre for clearing. It is well wooded and watered, and is a region unexcelled for health. The improvements are of value to a new settler. Price $5.00 an acre. $2.00 an acre can be left on annual payments for a term of years at low interest. This is one of the best bad tracts to be made in the State. It is a favorite region for Germans, and several German families could divide it among them. It would make an excellent ranch for sheep and Angora goats, with which it is now stocked. tf

Astonishing Success.

It is the duty of every person who has used BOSCHEE'S GERMAN SYRUP to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 40,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the GERMAN SYRUP cannot be too widely known. Ask your Druggist about it. Sample bottles to try, 10 cents. Regular size, 75 cents.

Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means for enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worried out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof that Green's August Flower will make them as free from disease as when born. Dyspepsia and Liver Complaint is the direct cause of seventy-five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10 cents. Try it.

Scott's Barbed Fence Wire.

Messrs. Newbury, Chapman & Co., of Portland, are agents on the Northwest Coast for SCOTT'S PATENT FOUR POINTED STEEL BARBED FENCE WIRE, for which superiority is claimed, as follows:

It is plated instead of being twisted, thereby preserving the grain of the metal.

The wire is made by machinery, and is uniform.

It is plated by patent process, and is weather proof.

It is four pointed, 128 points to the rod.

The wire is wound on strong spools, and can be shipped any distance.

It takes 500 pounds single strand, for one mile, and half as many posts as board fencing.

Those needing fences and obliged to transport long distances, will be interested in the difference of cost between barb wire and lumber. And even where timber is abundant, many may prefer to use this light and durable material. jan17-1m

FOR SALE.

640 Acres of LAND!

ON THE LINE OF THE

Mt. Jefferson Pass Road.

Situated one mile above Mehama, in Marion County, 160 acres under fence, well timbered, well watered, some improvements, and a portion in cultivation.

This land is situated on the edge of the Cascade Mountains, at least half of it can be cheaply cleared, and is richest of mountain soil.

It is reached by a level road from Salem, no hills, five hours' easy drive. It is in the midst of a thickly-settled country, with good neighbors, and a more healthy region cannot be found. Schoolhouse a few rods from the line. Excellent for stock range, and hundreds of acres of land that can be cleared for wheat at a cost of $5 an acre.

This is a favorable opportunity for some farmer desirous of going into the stock business extensively, or for a colony of three or four families of Germans. There are many Germans settled in the vicinity, and they like it.

Part of the purchase price, $5.00 an acre, can be paid for a term of years in annual installments, at low rate of interest.

Attorneys for Administrator. jan 3-w8t

Guardian's Sale.

NOTICE IS HEREBY GIVEN THAT BY VIRTUE of a license granted to me by the County Court of the State of Oregon, for the county of Multnomah, on the 8th day of January, 1879, I will sell at public auction, in front of the Court House door in said county, ON THE 15TH DAY OF FEBRUARY, 1879, at 10 o'clock, A. M., of said day, the following described piece of land, belonging to James J. Chastain, an insane person, situated in Multnomah county, State of Oregon, in section six (6) of Township one, south of Range two, east of the Willamette Meridian. The same being a part of the Perry Prettyman donation claim, and bounded as follows: Beginning at a stake at the southwest corner of the homestead; said stake is fourteen chains and thirty seven links north and thirty nine chains and fifty-three links west of the southeast corner of said Prettyman's claim, running thence north three degrees and fifteen minutes east, twenty one chains and eighty seven links to a stake in the middle of the county road; thence north eighty eight degrees forty nine minutes east along the middle of said road, five chains and forty eight links to a point; thence southerly parallel with the west line twenty one chains and twenty links to a point in the south line of the homestead; thence south eighty eight degrees forty nine minutes west, five chains forty eight links to the place of beginning, containing eleven and eighty nine one hundredths acres.

jan17-5w W. T. CURTIN, Guardian.

LOOK OUT!

Mr. W. P. Leonard is no longer authorized to receipt for me, or to collect subscriptions.

Also a man named Sullivan, who we understand, is collecting for the FARMER. Any one placing money in their hands do so at their own peril.

Dr. Mintie's Nephreticum

Works wonders. In all cases of Dropsy, Bright's Disease, Kidney, Bladder and Urinary Complaints, or Retention of Urine, are cured by the Nephreticum. Female Weakness, Gravel, Diabetes, pain in the back, side and loin are cured, when all other medicines have failed.

See what the druggists of Portland and San Francisco say about Dr. Mintie's Nephreticum and English Dandelion Pills:

"We have sold a large amount of Dr. Mintie's medicine, the English Dandelion Pills; also the famed Nephreticum, and in all cases highly recommended. John A. Childs, druggist, Second street, Portland, Oregon; C. H. Woodward & Co., druggists, cor. First and Alder, Portland, Oregon; Messrs. Abrams & Carroll, druggists, Nos. 3 and 5 Front, San Francisco. We regard Nephreticum as the best Kidney and Bladder remedy before the public." All druggists keep them.

For all derangements of the Liver,
Use Dr. Mintie's English Dandelion Pills.
For Biliousness and Dyspepsia,
Use Dr. Mintie's English Dandelion Pills.
For Fever and Ague,
Use Dr. Mintie's English Dandelion Pills.

Every family should not fail to keep the Dandelion Pills on hand.

To Whom it may Concern.

This is to certify that I have been affected for the last three years with chronic inflammation of the bladder and torpid liver. Having spent a small fortune with the best medical talent I could obtain in San Francisco and visited the various springs in California, hoping to find relief. Having found none I gave up all hope of being cured and dropped all medicines and doctors. While reading one of the daily papers I saw an advertisement of a medicine called Nephreticum, a preparation prepared by Dr. Mintie & Co., of San Francisco. I was persuaded by my wife to try it, and I went and bought a bottle. Having taken that one bottle I found much relief, all pains easing and feeling much better I took two more bottles and I am now perfectly restored to health and strength, thank God, for the superior skill of Dr. Mintie & Co. Any one who may doubt this statement can call to my residence and see me.

J. F. MOORE, 127 Fifth Street,
Portland, Oregon.

September 11, 1878.

DR. A. E. MINTIE & CO. Gents: I volunteer to say your English Dandelion Pills equals and even surpass all you claim "from my experience in their use." Fancy they have no equal for Dyspepsia and Liver troubles.
