BRINKLEY—LEWIS.

Wedding at the St. George Hotel This Morning.

This morning at 10 o'clock, at the parlors of the St. George hotel in this city, occurred the marriage of Mr. John Brinkley, of Athena, and Miss Josephine M. Lewis, daughter of Mr. and Mrs. D. W. Lewis, of the Willamette valley. The Rev. John Uren, pastor of the Thompson street Methodist Episcopal church, performed the wedding ceremony. Mr. Brinkley is a merchant of Athena and Miss Lewis has been a resident of the Willamette valley, from where she arrived in Pendleton this morning.

Mr. and Mrs. Brinkley leave at once for Athena, where they will be at home after tomorrow, April 12.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle-working medicine is a godsend to weak, sickly, run-down people. Every bottle guaranteed. Only 50c. Sold by Tallman & Co., druggists.

GOOD PRICE FOR WHEAT.

Gus Freeman Receives What Equals to Him 45 Cents a Bushel.

Gus A. Freeman, a rancher living ten miles north from Pendleton in the Cold Spring region, today sold his wheat, 1500 bushels, the amount which he had remaining from the 1899 and 1898 crops. Mr. Freeman stated to the East Oregonian that he was paid 42 cents net for the wheat, and that there stood against it 3 cents of charges for warehousing, etc., so that, in receiving 42 net, Mr. Freeman figures he got 45 cents a bushel.

He also said that the crop now growing is such as never before was excelled at this time of year and that so far a magnificent yield is promised.

Is This Plain Enough.

If you have a nagging cough and are losing flesh, go to a drug store, and get a bottle of Shiloh's Consumption cure. Take two-thirds of it, and then, if you are not benefited, return the bottle to the druggist, and he will return your money. Isn't that fair? No one could ask more. 25 cts., 50 cts. and $1 a bottle. Tallman & Co., leading druggists.

NEED FOR STOCK INSPECTION.

Laws of Middle West States Should Be Kept in Mind by Oregon Growers.

Oregon Stockman should pay heed to the announcement made officially that before shipping any breeding or dairy cattle into the other western states, it is necessary to obtain a bill of health from a veterinarian acting either under the United States bureau of animal industry or the live stock sanitary board of the state in which the shipment originates,—certifying that the animals in question have been examined and found free from tuberculosis. The above is not so generally known as it should be and in some instances shippers have suffered considerable inconvenience and delay on account of not having the necessary bill of health. The regulations governing the above matter vary somewhat in different states, and furthermore are subject to slight changes from time to time, hence we advise persons contemplating moving dairy or breeding cows or heifers from northern to southern or southwestern states to inform themselves beforehand as to what is required.

Cable advices from London yesterday stated that the British government had decided to shut South American cattle and sheep out of the country and had issued an order to that effect. This action was taken on account of foot-and-mouth disease in England, authorities claiming that it was, to some extent at least, imported from the Argentine. South American stock will still be admitted for immediate slaughter at the port of entry, but will not be allowed to go into the interior. This places cattle and sheep shipped from the Argentine on the same footing as those from the United States and Canada, which have been barred out of the British Isles, except for immediate slaughter, for a number of years. It is hardly necessary to point out that this action will have a considerable bearing upon the live stock industry of this country, as it wipes out the advantage so long enjoyed by our chief competitor in the British markets.

YATES ESTATE FINAL REPORT.

N. A. Davis Makes an Accounting—Final Hearing May 19.

In the estate of Yates Brothers, at Milton, the administrator, N. A. Davis, reports to County Judge J. E. Bean the condition of the affairs up to today, when he filed his final account. Judge Bean set Saturday, May 19, as the date for the final hearing.

Administrator Davis sets forth that at the time of the last report all the property had been converted into cash; that of the cash, excepting $3508.88, had been regularly paid out under and pursuant to order of the court heretofore made, by the administrator, and that that sum remained in the hands of the administration on December 22, 1899; that since that date, the administration has paid ten per cent upon the claims allowed against the estate, having thus paid out about $3384.32, and for additional expenses incurred, $216.14. The account shows, then, that he has paid out $3600.46, leaving the estate indebted to him in the sum of $1.58, which sum he forgives the estate and asks the court to discharge him from the care of the Yates Bros. estate and the estate of the late Louis E. Yates.

IMPORTANT MEETING TONIGHT.

Commercial Association Will Confer Regarding Sewerage With Engineer Miller.

A special meeting of the Pendleton Commercial Association will be held this evening at the rooms, the object being to confer informally with G. N. Miller, the civil and hydraulic engineer, regarding sewerage for Pendleton. Mr. Miller is the engineer who was employed by the city of Walla Walla to supervise and do all the engineering work in putting in the sewerage system there. He is of a Seattle firm of engineers who have operated extensively on the sound.

At the meeting this evening, which will begin at 8 o'clock, the members of the association will listen to Mr. Miller in some general remarks regarding the sewerage of cities and it is likely that some arrangements will be made to have the subject taken up and looked into with a view to ascertaining what would be the cost of a system adequate for Pendleton.

It is important that the meeting be well attended, and that the business men inform themselves on the subject of sewerage.

Open today, 67 7-8.
Range today, 67¼ to 68.
Close today, 67¼ to 67 5-8.

A Great Volunteer Army.

Volunteer service is always the best service. A drafted soldier has no heart in his work. A soldier who is prompted by a genuine love of country is worth forty soldiers who are fighting for pay. The largest volunteer army of soldiers in the world are those who are wielding the sword of the Spirit, commonly known as the Word of God. It is not generally known that one million three hundred thousand men and women go out every Sabbath day with Bible under arm to teach the children of our great country the principles of morality and the golden rule. If this vast army would be paid the mere pittance of one dollar per week for their services, it would amount to nearly one hundred millions of dollars annually, and yet without pay they go forth week after week, in storm and sunshine, to teach your children and mine how to be better citizens. These figures are furnished to us by the International Sunday school convention, which has a fostering care over all the Sunday schools of the country. This organization gives us the international lesson system, and is the mother of all Sunday-school improvement. B. F. Jacobs, Atwood Building, Chicago, is the chairman of the committee having this great work in charge.

The Rainier Reserve.

The secretary of the interior has practically decided that the number of sheep to be allowed to graze in the Rainier forest reservation during the coming summer shall be limited to 250,000, the cattle to 5500, and the horses to 1000. Until further notice, this grazing will be allowed without charge. The secretary is anxious to impose a charge of from two to four cents on each head of sheep, and from 10 to 12½ cents on horses and cattle, but finds he has no authority to make this charge and will request congress to grant him that authority. It is very doubtful if congress will take such action, as there is a general sentiment among many western men against imposing a charge for grazing on the public lands. No sheep or cattle from Oregon will be allowed on the reserve.

PERSONAL MENTION.

Lee Moorhouse went to Portland today.

Mrs. A. D. Stillman departed this morning for Portland, for a visit of a few days.

Mayor Jacob Betz, of Walla Walla, is in town today, looking after his new buildings.

D. M. Sloan is in Pendleton again from the Puyallup Indian reservation in West Washington.

Dr. C. J. Whitaker is visiting in his old home in Michigan, where his father is very seriously sick.

Eugene Troessner, representing Henry Weinard's brewery of Portland, is a guest at the Hotel Pendleton.

L. R. Geer, state land agent, was a passenger on the overland today en route to Portland to be present at the state republican convention.

George D. Peebler, democratic nominee for county treasurer, left today for Lebanon, Ore., where he will visit his father, who is 98 years old and still vigorous and hearty. Mr. Peebler will remain there for about a week.

G. N. Miller, of Seattle, a civil and hydraulic engineer, is in town and will remain to attend the special meeting of the Commercial Association tonight, at which will take place informal discussion of sewerage plans.

Otis Loveridge writes from Byron, Calif., that he intends to sail from San Francisco on the steamship Zealandia, bound to Cape Nome, Alaska. He goes alone to grapple with old Dame Fortune in the struggle for gold.

A. P. Bradbury, who for many years has traveled through this territory for a Portland cracker company, and who has for the greater part of the time resided in Astoria, has removed his family to Portland, intending there to make his home in the future.

James Odell went on to Portland today. His mining partner, F. A. E. Starr, who was here with him, this morning returned home to Sumpter, his wife and family having come up from Portland and going on to Sumpter. Mr. and Mrs. Starr intend to make their home in Sumpter in the future.

La Grande Chronicle: John Moran, who for the past ten years has been in the employ of the O. R. & N. from this station, has been transferred to Pendleton and will shortly be joined by Mrs. Moran, where they will reside permanently. Mr. and Mrs. Moran have many friends in La Grande who regret their departure and whose best wishes go with them.

THE FREE SEED ABUSE.

A Congressman Attempts to Check It but is Not Successful.

Washington, April 11.—The house devoted Tuesday to the agricultural bill, passing it substantially as reported. An animated discussion arose over a series of amendments offered by Corliss of Michigan restricting the distribution of seeds and free vaccine. Corliss maintained that government distribution invaded the field of private enterprise. His various amendments failed.

An amendment by Latimer of South Carolina was adopted, increasing the supply of "farmer's bulletins" issued by the agricultural department and distributed by members of congress.

Corliss of Michigan offered an amendment to the provision for the free distribution of seeds providing that "dinner pails for laboring people" be included in this distribution. He said there was as much reason to give dinner pails to one class as to give seeds to another class. The amendment was defeated.

JIM HILL'S TRAIN WRECKED.

The Accident Occurred on the Northern Pacific in Silver Bow Canyon.

Butte, Mont., April 11.—President Hill of the Great Northern railway, attended by a party of officials of his road, arrived here after an exciting experience. Early this morning his special train was ditched on the Northern Pacific track in Silver Bow canyon about six miles west of Silver Bow Junction. The engine and baggage car were overturned and although members of the party were badly shaken up none were injured. New steel was being laid where the accident occurred and several rails had been torn up. Hill's train was traveling at a high rate of speed and although flagged, the engineer could not stop his engine in time to prevent the accident.

Portland Democratic Ticket.

Portland, April 11.—The democratic county and city convention in session today nominated a city ticket headed by Dr. G. M. Wells for mayor. The selection of the legislative ticket was left to a committee which will report to the convention when it reassembles Saturday next.

Wheeler Building. Court Street

ECZEMA = SATANIC ITCH.

This most aggravating and tormenting of all skin diseases is caused by an acid condition of the blood, and unless relieved through certain instrumentalities too much of this acid poison reaches the skin and it becomes red and inflamed. The itching and burning are almost unbearable, especially when overheated from any cause. The skin seems on fire, sleep or rest is impossible, the desperate sufferer, regardless of consequences, scratches until strength is exhausted.

This burning, itching humor appears sometimes in little pustules, discharging a sticky fluid, which forms crusts and scales. Again the skin is dry, hard and fissured, itches intensely, bleeds and scabs over. This is a painful and stubborn form of the disease.

While Eczema, Tetter, Erysipelas, Salt Rheum and many like troubles are spoken of as diseases of the skin, they are really blood diseases, because

THERE CAN BE NO EXTERNAL IRRITATION WITHOUT AN INTERNAL CAUSE.

If the blood is in a pure, healthy condition, no poisonous elements can reach the skin.

External applications of washes, lotions and salves sometimes mitigate the itching and soothe the inflammation, but cannot reach the disease. Only S. S. S., the real blood medicine, can do this.

S. S. S., the only purely vegetable remedy known, is a safe and permanent cure for Eczema and all deep-seated blood and skin troubles. It goes direct to the seat of the disease, neutralizes the acids and cleanses the blood, re-inforces and invigorates all the organs, and thus clears the system of all impurities through the natural channels; the skin relieved, all inflammation subsides, and all signs of the disease disappear.

Mrs. Lela M. Hoffman, of Carlington, Ohio, says she was afflicted with Scrofulous sores and Eczema from birth. Her face at times became so badly swollen that she was not recognizable, and her limbs and hands were very sore. She was treated by all the doctors in town without being benefitted, and in her researches for relief, was told by an old physician to take S. S. S. She followed his advice and was promptly cured, and has never had a return of the disease. This was seventeen years ago. She sincerely believes she would have been in her grave years ago but for S. S. S., and adds, "what it has done for me it will do for others."
