Russian Collapse May Ruin French Laborers

PARIS, Feb. 15.—(Correspondence)—The repudiation by the bolsheviki government of Russia's entire bonded debt caused some anxiety among French people, who held at least half of the debt of the empire outstanding at the beginning of the war.

Eighteen billions of francs of Russian bonds, at the price of issue, were listed on the Paris bourse. Twelve billions, according to the lowest estimates, and fifteen billions, according to other calculations, were bought by the French public.

Servants in white aprons, bareheaded market women, domestics of all categories and men in blouses of the peasant and the laborer, made up the long lines of investors in front of the wickets whenever Russian loans were offered for sale.

"I haven't a sou invested in Russia," a millionaire Parisian said to the Associated Press, "but every one of my servants has one or more Russian bonds." Another millionaire said the same was true of his household. "Instead of hitting the counting house and the salon, the bolsheviki are hitting the servants' hall and the backstairs," was the way he put the situation.

There is no little apprehension in socialist circles as to the effect of this heavy blow the extreme revolutionary element in Russia has delivered at the extreme liberal element in France. A peasant or workingman who may overlook or disbelieve news of bolsheviki excesses or misconserue their effect will be unable to doubt the evidence of his own despoilment.

Until now the holders of Russian bonds have been reassured by the payment of the January coupons, which the French treasury assumed. It doesn't appear yet, however, whether the French government will assume the burden indefinitely, and if the bankruptcy of the revolution is allowed to become effective, the greater number of the smaller investors who have been financing the Russian empire since 1888 will be ruined.

Airmen To Soon Fly Between Hawaiin Isles

HONOLULU, T. H., Feb. 7.—(By mail)—Aeroplane flights from Honolulu to the other islands of the Hawaiian group are to be made soon by Major Harold M. Clark, army aviator stationed here.

No airplane has ever yet flown from one of the islands to another. Maui and Kauai will be the first islands visited, after which the major expects to fly to Niie, which is 190 miles from Honolulu by steamer, but somewhat nearer, as the airplane will fly.

Previous to attempting the flights Major Clark will go to the other islands by steamer to pick out suitable "landing" places.

During the past two weeks Major Clark has made many flights over Honolulu and other parts of the island of Ooahu. The greatest altitude attained by him thus far is 9,000 feet.

Many Experts Busy On Tonnage Problem

WASHINGTON, D. C., March 6.—In its search of the world for ship tonnage to aid in defeating the central powers, the United States is building up the largest force of commercial experts which ever has been stationed in foreign countries.

Primarily the work of the commercial representatives of the state department, the department of commerce and the war trade board will have to do with the war, but in co-operating with the government and business leaders of other nations, they will spread a knowledge of American products and trade ideals that officials expect will increase America's commerce after the war.

Completion of the foreign staff of the war trade board is being pushed as rapidly as possible, so that early results may be had from the government's decision to put every available ship to war purposes by restricting trade to necessities. The state department also is sending special representatives to countries which will be affected by the licensing of imports into the United States, and commercial attaches of the department of commerce are assisting in the work.

The war trade experts will have three principal duties: To prevent goods reaching Germany, to guide the course of trade, and release as much tonnage as possible. They now have been stationed in London, Paris, Berne, Scandinavia, Rio Janeiro, Buenos Aires and Tokio.

Estimates of the tonnage expected to be put into trans-Atlantic service by restricting trade with South America and the Far East are being guarded closely by the shipping board and war trade board as likely to be of military value to the enemy in indicating the size of the army which this country hoped to put in Europe. Neutral tonnage is expected to replace American and British vessels in non-hazardous routes thru negotiations now in progress.

In preparation for recommending the curtailment of trade with certain countries the shipping board has established a new department to which representatives of industry will offer their advice as to the amount of the reduction to be made in the importation of materials affecting them. As it would be impossible to consult each individual firm, the industries will be reached thru their trade associations or war service committees.

NEW LAW FIRM IS LAUNCHED

YOUNG ATORNEY WHO HAS SPECIALIZED IN LAND AND TIMBER CASES ENTERS PARTNERSHIP WITH RESIDENT LAWYER

A new law firm for Klamath Falls was announced today. Harold Merryman, the well known young attorney, who has spent several years in practice before the Klamath County bar, has identified himself with Walter C. Van Emon of this city under the firm name of Merryman & Van Emon. Mr. Merryman has been for a number of years associated with the United States government in the Interior Department as special agent, handling public land and timber cases, as well as Indian affairs. He is a graduate of the Georgetown University Law School of Washington, D. C., and has assisted the United States attorneys in Idaho, Utah, New Mexico and Nevada at various times in prosecution of public land and timber cases.

GERMAN BREWERIES TO CONSOLIDATE

AMSTERDAM, March 6.—The German government has issued an official decree providing for the consolidation of the brewing business. Breweries, selected on the principle of highest efficiency, are to take over the production of others that are to be shut down, and are to pay the latter monetary compensation.

The breweries naturally complain of this measure, calling attention to the fact that more than 3,000,000,000 marks of German capital is invested in this industry, which thus outranks even the chemical industry, iron smelting or coal mining. The number of breweries in Germany is more than 12,000, closely connected with which are 830,000 hotels and restaurants, which employ 800,000 persons.

Resolution of the Common Council Declaring Its Intention to Improve Conger Avenue, and Fixing Date for Hearing Objections Thereto.

The city engineer, pursuant to resolution of the Common Council heretofore adopted, having, under date of September 2, 1917, filed plans and specifications, and estimates of cost of improving Conger avenue by paving same from Main street to the terminus of said Conger avenue, including intersections, and the Council having taken same under advisement and finding said plans, specifications and estimates satisfactory,

Be It Resolved, That said plans, specifications and estimates for the improvement of Conger avenue be and the same are hereby approved.

Be it further Resolved, That the Common Council hereby declares its intention to improve said Conger avenue in accordance with the said plans, specifications and estimates, said improvement to consist of paving said Conger avenue with light bitulithic pavement, and the construction of storm sewers thereon, at the cost, as estimated by the city engineer, of the sum of $25,765.89.

And be it further Resolved by the Common Council, That the property listed and described in "Schedule A," hereto attached and so designated, and made a part of this resolution, be and hereby is declared benefited by said improvement, and that said property as listed and described in said Schedule A is hereby declared to be the property to be assessed for the expense of said improvement.

Be it further Resolved, That Monday, the 1st day of April, 1918, at the hour of 8 o'clock p. m., at the Council Chambers in the city hall, be fixed as the time and place for the hearing of objections and remonstrances against said proposed improvement, and the Police Judge is hereby directed to cause notice of said hearing to be published as by charter provided.
