A GREAT COMEDOWN.

Once a Commercial Traveler, Now a Bootblack.

The many friends of George R. Elliott, traveling through this territory for Wadhams & Kerr, Portland, will be sorry to learn of the serious reverse of fortune that has befallen him. He is still a guest of the Hotel Pendleton. The train was late Wednesday morning, so that a number of commercial travelers, including Mr. Elliott, lost a day and were housed up having fun at each other's expense. The loss of a bet by Mr. Elliott threw him out of a job without a moment's warning and put him back into his old business of blackening and oiling shoes. He opened up his bootblack stand and went to work, but at higher prices, as he said he needed the money. John B. Coe, a traveling man, and Kaspar Van Dran, one of the proprietors of the hotel, were first attended to and paid 25 cents each for getting their shoes shined. Quite a number of other traveling men contributed 25 cents each for the same privilege, in order to recoup Mr. Elliott's depleted exchequer, and the last to have his "tans" fixed up was Ed Blackburn, of the Cudahy Packing company, of Omaha. Having put a first-class professional shine on Mr. Blackburn's shoes, and having made expenses for the day, Mr. Elliott packed up his brushes, blacking and oils and again went out of the business.

TWO FOOTBALL GAMES.

High School Girls Sell Tickets for Thanksgiving Game.

The High School football team has two games scheduled, the first with La Grande, at La Grande, on next Saturday, November 24; the second with Baker City, at Pendleton, on Thanksgiving day. The boys and their friends who can make arrangements so to do will leave for La Grande on Saturday morning at 6:15 and will return the following day. The cost of a ticket for the round trip is $2.90.

The Thanksgiving game in this city is going to be made an event long to be remembered. In order to get the Baker City team here it will be necessary to raise over $100 for the purpose of defraying their expenses and making their visit pleasant. The Pendleton team was treated royally at Baker City a year ago, and the home boys remember their trip with many expressions of pleasure. A number of High School girls are assisting the good work along by selling tickets for the game, and indications are excellent for the largest crowd being present that has ever been out to witness a football game in Pendleton.

Glorious News.

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrotula, which had caused her great suffering for years. Terrible sores would break to on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion builds up the strength. Only 50 cents. Sold by Tallman & Co., druggists. Guaranteed.

WEEKLY MARKET REVIEW.

Wheat Holds Its Own as Compared to Last Week's Prices; Several Sales.

Pendleton, Nov. 22.—Wheat holds its own as compared with a week ago, exporters still offering 42 to 42½c for No. 1 club and red chaff and extra for bluestem, while millers offer 44c delivered at the mills. Some wheat changes hands at the above figures, but not a great deal. The estimated surplus of 64,000,000 bushels for export from Argentina has had a depressing effect upon Eastern and foreign markets. It costs just about as much, within a fraction of a cent, to ship wheat from Buenos Ayres, the capital of the Argentine Republic, to Liverpool, as it costs to get wheat from Pendleton to the seaboard, either to the sound or to Portland. That is a big factor in causing farmers to figure on local markets and to look toward Japan, China and the Philippines for an outlet for their surplus wheat. It cannot be shipped east by rail at a profit at present prices.

Wheat in Portland

Portland, Nov. 22.—The Commercial Reivew, in its issue today, says of the market:

There is very little doing in the wheat market at present, evidently most of the shippers who had out extreme bids reduced the same, and sellers are waiting for another spurt in prices before they let go any more. Some large lots have passed into exporters' hands at prices that could not be duplicated today. The market has again sagged back to its former self and what business is being done is mostly of small lots that is usually being done at this time of year. Tonnage is not coming in freely. Reports from the interior state that farmers are paying considerable attention to farm work and from the looks of these reports fallsown acreage has been unusually heavy this year. Millers in the valley are good buyers for Eastern Oregon wheat. Their crop is so short that they are unable to buy at any fair price, and rather than pay very extreme prices, are buying wheat from east of the mountains; but, notwithstanding these two factors in the business, there is yet considerable wheat in the country, fully two-thirds of the crop being held by interior ware housemen and farmers. We quote club, Walla Walla, 54c; bluestem, 57c, and Valley, 60c, per bushel.

Wheat in San Francisco.

San Francisco, Nov. 22.—The market here is very quiet. Shippers are not offering to buy and sellers refuse to make any concessions as to prices, basing their hopes on a more active market in the near future. Tonnage is in port disengaged, but shipowners are asking higher prices than shippers care to pay, hence there is nothing doing in taking up new business. Speculative business in wheat for future delivery continues very much restricted. Unless something unforeseen occurs to benefit California wheat before January, the Argentine new crop will be available for consuming countries and the market for California wheat will be narrowed still further. Prices are, for No. 1 shipping, $1; milling $1.02½ to $1.08 per cental.

Wool in Boston.

PORTLAND NEWS.

Weather Conditions; the O. R. & N. Line to the Orient; Bar Association Meeting.

Portland, Nov. 21.—The assertion of Forecaster Beals, of the United States weather bureau, regarding the continuance of the cold, has thus far proved true. About Portland the mercury has held a low point all day and tonight the skies are clear, bespeaking a prolongation of the freeze for several days more, at least. Mr. Beals asserts that the weather continues abnormally cold throughout the entire district which comprises the states of Washington, Oregon and Idaho. At Spokane, when the last telegraphic report was received at the bureau, the mercury stood 4 degrees below zero. At Walla Walla it plays about the cipher and the other stations report temperatures ranging between six to thirty degrees above.

The O. R. & N. Line.

The question as to whether or not the O. R. & N. would put on a line of steamers to run out of Portland to the Orient has at last been declared settled and the announcement that two of the largest vessels ever engaged in the trade between Pacific ports and the far east, have been purchased, and will be placed in the service at an early date. The vessels which have been purchased by the O. R. & N. company are the Indrepura and the Indravelli. The boats are beauties, it is said, and are well fit to run upon the line of the company that has purchased them. Hereafter Portland can extend to the shippers great inducement to patronize the vessels running from her port to the Orient, and there is doubt in the minds of none, who are in position to give opinions of weight, but that this venture on the part of the O. R. & N. is one that will be successful in the extreme.

Bar Association Meeting.

The sessions of the State Bar Association were continued this morning. It has been decided that John Marshall day will be observed throughout this state on February 4, next year, and an effort will be made to secure a general holiday throughout the state on that date, by proclamation of Governor Geer. An effort is also being made to bring matters in such a way that a special observance be given the day at the capitol. It is the desire to have a program given in the evening of the day, at Salem, and to have some form of special demonstration, participated in probably by the members of both houses of the legislature. S. B. Houston, of Hillsboro, and Thomas G. Greene delivered addresses. The banquet, which will close the tenth annual meeting of the association, is in progress at the Portland hotel, this evening. The different sessions of the association meeting have been successful in the extreme, so say the members who have attended them.

Transport for Horses.

Lieutenant-Colonel J. W. Jacobs, of the United States army, quartermaster's department, announces that he has received information to the effect that the government has chartered another transport for use in carrying horses to the Philippines, and that the vessel is expected to arrive at this port December 1.

Life Saved by Electric Light.

An interesting calculation has recently been made which shows that when the electric light has entirely displaced gas, oil lamps and candles, there will be 6000 less deaths annually, these being so much more unhealthful than electricity. In a like manner there will be far less sickness in the world, when every one learns to check the inroads of dyspepsia with Hostetter's Stomach Bitters. Constipation, indigestion, biliousness, fever and ague and malaria are but danger signals proclaiming a diseased condition of the stomach. Good digestion is at the base of perfect nutrition. The Bitters strengthens the stomach, and cures all disorders arising from mal-nutrition. Every one would do well to try it. See that our private revenue stamp covers the neck of the bottle.

A committee representing the Parliamentary club will be at the East Oregonian office on Saturday afternoon, November 24, to meet the ladies who may desire to contribute books and magazines for the purpose of assisting the free circulating library, and for the further purpose of distributing free literature of this character to those who may wish it. All are invited to call, to receive the literature or to contribute it.

A Life and Death Fight.

Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for consumption, which completely cured me. I would not be without it even if it cost $5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure throat, chest and lung troubles." Regular size 50c and $1.
