The Lumber Industry

NEWS OF INTEREST TO KLAMATH LUMBERMEN

More Trained Men Are Needed in Forestry

PORTLAND, March 16.—More technically trained men are needed in government forestry work is the statement of District Forester George H. Cecil of Portland, in calling attention to he special examinations to be held the latter part of March for forest assistant and grazing assistant throughout the western states.

"The spread of the forestry idea throughout the United States during the past few years," said Cecil, "has been most marked. The creation of two new forest experiment stations by the federal government during the past year and the introduction of bills in congress for several more stations, as well as the widespread interest being manifested in the two general forstry bills now before congress, are an indication that the country as a whole is realizing the seriousness of the forest problems of the country."

"These problems call for an early solution and here is an unparalleled opportunity for trained foresters, whether they enter government work or whether they become associated with lumber associations, as logging engineers with lumber companies, or with pulp and paper concerns, or whether they enter the teaching field."

Cecil calls especial attention to an examination to be held throughout the United States on March 27 and 28 for forest assistant for the forest service and Indian service. Forest officers stated that this examination can be successfully passed only by men who have taken a course in forestry as the questions are highly technical in character. The entrance salary for forest assistant in the forest service will ordinarily be fixed at $1500 and for the Indian service at $1200 to $1320.

Cecil also announced that on March 29 and 30, there will be held a civil service examination for grazing assistant throughout the western states. These examinations are to fill positions in connection with range investigations and grazing administration on the national forests. To pass this examination the applicant must not only have technical training in plant physiology and range botony but also some practical experience in range problems and the handling of livestock on the range. The entrance salaries vary from $1500 to $1800 per year depending on the qualifications of those that pass and the vacancies that may exist at the time.

GOLDTHWAITE LEAVES

J. O. Goldthwaite left this morning for Portland, where he expects to remain on business for several days. Mrs. Goldthwaite, who spent a few days in this city with her husband after his recent arrival from San Francisco, returned to her home at Pine Ridge this morning.

SPORTS

English Boxing Fans Exhibit Enthusiasm

LONDON, March 15.—With four home champions expected to uphold their titles during the coming two months, and the prospect of seeing Carpentier again in a London ring, English enthusiasts are following the boxing game closely.

George Cook recently defeated by Carpentier returns to the ring on March 27, meeting Joe Beckett, the English champion, in a match to wield the British Empire heavy-weight championship. It is expected that this same bill includes a bout between Joe Fox, the holder of the feather-weight belt, and the Belgian, Arthur Wyns, which has been postponed from this month because the former fell a victim to the influenze epidemic. Wyns has already beaten one English featherweight champion, Mike Honeyman.

Boy McCormick, who lost last November to Ted "Kid" Lewis, the middleweight holder well-known in America, will meet Jack Bloomfield two weeks later to decide future possession of the light heavy-weight belt, now held by McCormick.

Lewis is also recovering from an attack of the "flu" and is expected to be in perfect condition for his match with Carpentier which, according to present arrangements, will be held here about the middle of April.

Theater Price Stronger

But It's Not Any Higher

"The price of admission to Saturday's matinee will be stronger than usual," said Ted White, manager of the Strand theatre today.

"Forced to raise the price eh? Films going up?"

"Not a higher price," said the manager. "Stronger. One onion is the price of admission to Saturday's matinee for all the kids in town. The box office receipts go to the strikers' relief kitchen. It takes lots of onions to keep the kitchen going. By the way, the matinee bill is as strong as the price of admission."

STYLEPLUS CLOTHES

There is only one line of clothes in America whose quality and style are nationally endorsed although the prices are moderate.

Models designed by a leading designer. Fabrics all-wool and guaranteed tailoring unusually fine—hand work in the important parts. All this costs money—it is the basis of high grade clothes.

Yet the makers of Styleplus, by concentrating and standardizing, have taught the American public that real style and real quality can be produced at moderate prices.

The Guarantee
"Every Styleplus suit and overcoat bearing the official Styleplus label is guaranteed to be all-wool. Should any Styleplus garment fail to give reasonable wear and satisfaction, the retail merchant from whom it was purchased, is authorized to replace it with a new and satisfactory Styleplus garment."

It is on this basis of exceptional value that we have taken on Styleplus Clothes. Come in and see the new models.
