FOR BABY'S SKIN SCALP AND HAIR

Something for Mothers to Think About

EVERY CHILD born into the world and inheritted or early developed tendency to scaling, disfiguring humors of the skin, scalp, or blood, becomes an object of the most solicitude, not only because of its suffering, but because of the dreadful fear that the humor is to be lifelong and mar its future and prosperity. Hence it becomes the duty of mothers of such afflicted children to avail themselves with the best, the purest, most effective treatment available.

Daily warm baths with CUTICURA SOAP to cleanse the skin and scalp of crusts and scales and gentle applications of CUTICURA OINTMENT to instantly allay itching, irritation and inflammation and soothe and heal, to be followed in the severest cases by mild doses of CUTICURA RESOLVENT are all that can be desired for the alleviation of the suffering of skin-tortured infants and children and the comfort of worn-out worried mothers has been demonstrated in countless homes in every land. Their absolute safety, purity and sweetness, instantaneous and grateful relief, speedy cure and great economy leave nothing more to be desired by anxious parents.

Millions of People Use CUTICURA SOAP, assisted by CUTICURA OINTMENT, for beautifying the skin, for cleansing the scalp and stopping of falling hair, for softening and whitening red, rough and sore hands, for baby rashes, itchings, and chafings, and for all the purposes of the toilet, bath and nursery. Millions of women use CUTICURA SOAP in the form of baths for annoying irritations, inflammations and excoriations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative antiseptic purposes which readily suggest themselves to women, especially mothers. Thus it combines in ONE SOAP at ONE PRICE, viz., 25c., the BEST skin and complexion soap, and the BEST toilet and baby soap in the world. Sold throughout the world.

East Oregonian.

WEDNESDAY, FEBRUARY 6, 1901.

SHEEPMEN IN CONVENTION.

SIX STATES WILL BE REPRESENTED IN PENDLETON MARCH 5-7.

Annual Meeting of the Pacific Northwest Woolgrowers' Association is to Be a Rousing One.

R. C. Judson, industrial agent of the O. R. & N. company, attended the meeting of the Pendleton Commercial Association Tuesday evening and later took the train for his home at Portland. One of the results of his visit is already apparent in the association taking charge of the arrangements for the annual meeting of the Pacific Northwest Woolgrowers' Association which will be held in Pendleton on March 5, 6 and 7, Tuesday, Wednesday and Thursday. A special meeting of the Commercial Association was called by Vice President H. F. Johnson last evening to be held on Thursday evening, February 7, at which the personnel of the different committees will be announced of those who will have certain details to look after. A number of committees will be appointed, including a general committee of arrangements, committees on accommodations, badges, entertainment, etc.

Gov. T. T. Geer, by vote of the association, has been invited to be present and address the convention on the opening day, Tuesday, March 5.

The interest taken by sheepmen throughout Montana, Wyoming, Utah, Idaho, Washington and Oregon, the six states composing the association, regarding the leasing of government range lands, is such as to warrant the prediction that the annual meeting to be held here will be a rousing one. It is estimated that between 400 and 500 visitors will be present.

A program of interest to all in anyway connected with the sheep and wool business is being prepared. The local committee will secure the Frazer opera house or some other suitable place for the meetings, and will furnish vocal and instrumental music for diversion.

Among the prominent ones who will be present and participate in the program by lecturing or in discussion of interesting topics:

Dr. James Wythecomb, of the agricultural college, Corvallis, Or.

Prof. Pernot, bacteriologist of the agricutural college, Corvallis, who will deliver an illustrated lecture on wool fiber.

W. J. C. Kenyon, manager of the Omaha stockyards, will lecture regarding the handling of sheep in the yards.

H. B. Carroll, superintendent of the St. Paul stockyards, will lecture, his subject being "Feeding Range or Screenings for Market."

Richard Scott, of Milwaukee, Or., "Raising Early Mutton Lambs for the City Market."

Prof. W. J. Spillman, of the agricultural college at Pullman, Wash., will lecture on "Grasses."

Prof. H. T. French, of the agricultural college at Moscow, Idaho, will discuss "Fitting Range Sheep for Market."

H. M. Williamson, of the Oregon Agriculturist and Rural Northwest, Portland, will tell of the "Benefits Derived by Stockmen by Taking Periodicals Treating of Livestock and Farming."

Prof. John A. Craig, of the Iowa agricultural college will lecture on "Selecting Sheep," and will illustrate by having the sheep on the platform and explaining by object lessons.

The Allen Sheep-Shearing company, of Chicago, will have a representative here, and will have one of their sheep-shearing machines in operation provided they can get suitable power. The machine is operated by electric power.

The above are some of the features that will go to make up a program that will be of interest and benefit not alone to sheepmen, but to all who are so fortunate as to be able to attend the sessions.

For your health's sake

A glass of CALIFORNIA WINE at luncheon and dinner will do more to tone up the system thereby keeping away disease, than any other known means.

Pure grape juice is a great blood maker and when a plentiful supply of pure rich blood is coursing through your veins, you can laugh at disease.

Our prices are very reasonable and within the reach of all.

Glen Ellen Wine Vaults

Court Street, near Johnson.

It Dazzles the World.

No discovery in medicine has ever created one quater of the excitement that has been caused by Dr. King's New Discovery for Consumption. It's severest tests have been on hopeless victims of consumption, pneumona, hemorrhage, pleursy and bronchits, thousands of whom it has restored to perfect health. For coughs, colds, asthma, croup, hay fever, hoarseness and whooping cough it is the quickest, surest cure in the world. It is sold by Tallman & Co., who guarantee satisfaction or refund money. Large bottles 50c and $1. Trial bottles free.

Strikes a Rich Find.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H., "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by Tallman & Co.

Woman's Aid to Y. M. C. A.

It is hoped that a large and representative audience of women will be present at the women's massmeeting, to be held at the Commercial club rooms, at 3 o'clock, Thursday afternoon, of this week. Several short talks will be given; it is hoped that Mr. Stone of Portland, state secretary, will be at the meeting. Miss LeBarre will give the ladies some interesting information concerning the matter under consideration, and business of importance is also to be transacted. The committee's plans are well matured, but many volunteers will be needed to successfully carry the plans out.

Look at Your Face.

And see if it is reflecting health or disease Karl's Clover Root Tea beautifies the face and complexion, and assures perfect health All druggists 25 cents and 50 cents Money refunded if results are not satisfactory. Tallman & Co.

Notice to Contractors.

Money! Money! Money!

Is what I must have, therefore, all who know themselves to be indebted to me please come and settle at once. This request is made for the purpose of saving myself from my own creditors. JOE BASLER.

Sick headache absolutely and permanently cured by using Moki tea. A pleasant herb drink. Cures constipation and indigestion, makes you eat, sleep, work and happy. Satisfaction guaranteed or money back. 25 cents and 50 cents.

COMMERCIAL ASSOCIATION.

THE ANNUAL ELECTION OF OFFICERS WAS HELD LAST EVENING.

Action Taken in Opposition to Hunt's Bill Redistricting the State and Fulton's Usury Bill in Legislature.

The regular meeting of the Pendleton Commercial Associaiton last evening was well attended. The annual election of officers resulted as follows: H. F. Johnson, president; F. W. Vincent, vice-president; F. F. Wamsley, secretary; J. R. Dickson, treasurer; T. C. Taylor, C. B. Wade, J. A. Borie, W. D. Hansford, Leon Cohen, C. J. Smith, E. D. Boyd, J. F. Robinson and F. E. Judd, board of managers.

The report of Treasurer Dickson showed that there was $127.48 on hand on Feburary 5, 1900, and $749.45 last night, a gain of $621.97. The total amount collected from the members during the preceding year was $2062.50 and the expenses were $1440.53.

The method adopted by E. D. Boyd and James A. Fee, trustees of the Sturgis bequest of $5000, regarding the investment of the principal and disposition of the interest thereof, was explained by the former.

Hunt's Redistricting Bill.

T. C. Taylor explained some of the provisions of the bill introduced in the legislature by Senator Hunt, of Multnomah county, for the redistricting of the state into senatorial and representative districts in accordance with the federal census of 1900. Upon motion the association decided to oppose the passage of the bill, as Eastern Oregon was not given a fair share of representation thereby, and the president and secretary were instructed to notify the Umatilla delegation of such action.

Fulton's Usury Bill.

Mayor F. W. Vincent spoke of the bill introduced in the legislature by Senator Fulton, of Clatsop county, known as the Fulton usury bill. He explained that the bill was aimed to cripple building and loan associations particularly and that it was retroactive, thus having a tendency to cause endless and expensive litigation and impair contracts that had been made years ago and had been nearly completed. A motion prevailed that the bill was inimical to the best interest is of the Commercial Association and that it should be strangled in committee or have its head chopped off when it came up for action. The president and secretary were instructed to advise the Umatilla delegation of the action of the committee.

Woolgrowers' Convention.

R. C. Judson was present and addressed the association. The result of his talk will be found in an article elsewhere on the woolgrowers' convention to be held in Pendleton March 5-7, one month hence.

JUDGE LOWELL'S ADDRESS.

Interesting Observance of John Marshall Day by the E. O. S. N. S.

Weston, Feb. 5.—A noteworthy event in the literary life of the Eastern Oregon state normal school occurred Monday evening at the normal hall, where John Marshall day was observed in a manner truly interesting to a large audience of students and citizens who assembled there.

The address by Hon. S. A. Lowell, of Pendleton, was delivered with the oratorical power and rhetorical elegance that invariably mark this gifted speaker's platform utterances. Moreover, the thoughts it breathed of patriotism, devotion to duty, steadfastness of purpose and exalted character, and the information it contained concerning not only John Marshall but other great Americans mentioned by the speaker as having immortalized themselves in history could not fail to have been of value and interest to every citizen present, as well as the student body. The speaker ranked John Marshall, the great jurist, with Washington, Hamilton and Jefferson, whom he described as a quartet of early Americans who had moulded and sustained the republic. Chief Justice Marshall's success, and the great work he was able to accomplish, the speaker ascribed to perseverance and sincerity rather than to intellectual brilliancy. In the course of his remarks he paid tribute to the law, and to noted lawyers whom he mentioned, but advised young men against entering this profession now, as its opportunities for distinction have been greatly lessened.

The platform and hall had been tastefully decorated with the national colors, and behind the speaker the wall was draped with a huge American flag. A delightful musical program was rendered in connection with the lecture. Sweet songs that never die, "Old Kentucky Home," and "Juanita," were sung by the normal school chorus, and a brilliantly beautiful duet, "I Know a Bank Where the Wild Thyme Grows," by Miss Harkleroad and Miss Peebles, with Miss Beattie as accompanist, charmed all hearers.

In behalf of citizens present and the school, President Beattie thanked Judge Lowell for his magnificent address.

WANTED ARTESIAN WATER.

Senator Proebstel Favors the Boring of the Wells.

Senator Proebstel, of this county, is interesting himself in a proposition to bore experimentally for artesian water at some favorable point in Eastern Oregon. With this idea in view he sought advice geological from Prof. Thomas Condon, of Eugene, whose opinion is appended herewith. While for years there has been talk at different times and places of boring for artesian water in Eastern Oregon, where geological conditions would seem to indicate its presence no practical, thorough test has ever materialized. It is to be hoped that Senator Proebstel will be able to accomplish something definite in this direction:

Eugene, Jan. 12, 1901.

Senator Proebstel,

Dear Sir:—Your inquiry in regard to thickness of basalt rock in Eastern Oregon in its relation to artesian boring, suggests to me the following:

First—The elevated waters from which the pressure must come are in the Cascades and the Blue mountains.

If we think of boring for under ground extension of the waters of the Cascades, the line of the Des Chuttes river will mark the belt to be examined, and all along this belt the thickness of the basalt is enormous, as any one can see by examining the sections of this rock through which the Des Chuttes has cut its way at Hemenway's bridge 30 miles from The Dalles, where the old Canyon City road crosses that stream. The river has here cut its way through hundreds of feet of hard basalt without reaching bed rock—the sedimentary rocks below.

Besides, the evidence is clear that the underlying rocks are along this line too badly broken up to hold confined a mass of artesian waters.

Second—If we think of boring for under ground extension of the waters of the Blue mountains and seek for this purpose to approach the foothills of those mountains along a belt in the John Day valley, we will find at once the basalt is thinner and narrower.

Or, if we approach the Blue mountains from the north along a belt containing Pendleton and Weston the basalt here again would be thinner and in restricted streams.

So much for the thickness of the sheets of basalt in these regions.

But another condition to success remains to be considered; that is, an unbroken, uncrushed condition of the bottom, for a broken bottom won't hold water; and this condition is very difficult to prove beyond a mere probability. Of course the boring itself will help to determine this essential condition. THOMAS CONDON.

EVERYBODY DELIGHTED.

Newbro's Herpicide Destroys the Dandruff Germ Permanently and Cures Baldness.

Quinine and rum and a whole lot of other things, are pleasant to rub on the scalp after washing it free of dandruff, but not one preparation of the general run will cure the dandruff. A germ causes dandruff and falling hair. It is necessary to kill that germ, to be permanently cured of dandruff, and to stop falling hair. Newbro's Herpicide will positively destroy that germ, so that there can be no more dandruff, and so that the hair will grow luxuriantly. "Destroy the cause, and you remove the effect."

Teachers' Examination.

Notice is hereby given that the county superintendent of Umatilla county will hold the regular examination of applicants for state papers in the normal school building at Weston as follows: Commencing Wednesday, February 13, at 9 o'clock a. m., and continuing until Saturday, February 16, at 4 o'clock p. m.

Wednesday—Penmanship, history, spelling, algebra, reading, composition.

Thursday—Written arithmetic, theory of teaching, grammar, bookkeeping, English literature, civil government.

Friday—Physiology, geography, physical geography, mental arithmetic, school law.

Saturday—Botany, plane geometry, general history, physics, psychology.

J. F. NOWLIN,
County School Superintendent.

Played Out.

Dull headache, pains in various parts of the body, sinking at the pit of the stomach, loss of appetite, feverishness, pimples or sores are all positive evidences of impure blood. No matter how it became so, it must be purified in order to obtain good health. Acker's Blood Elixir has never failed to cure scrofulous or syphilitic poisons or any other blood diseases. It is certainly a wonderful remedy, and we sell every bottle on a positive guarantee. For sale by Brock & McComas.

"Knobs O' Tennessee" Thursday Night.

What James Whitcomb Riley is to dialect poetry, Hal Reid is to stagedom. In his southern idyl the "Knobs O'Tennessee," whose scenes are laid in the foothills of the mountains of Tennessee, among the whispering pines, he has found ample scope for his ability in this line. Few plays of this class have met with as great success, the plot is original, the comedy scenes natural, and genuinely humorous, the present company, efficient. The scenery used in this production was painted by Berah from sketches by the author of the play.

For 50 Years

mothers have been giving their children for croup, coughs and colds

Shiloh's Consumption Cure

Mothers—have *you* SHILOH in the house at all times? Do you know just where you can find it if you need it quickly—if your little one is gasping and choking with croup? If you haven't it get a bottle. It will save your child's life.

"Shiloh always cured my baby of croup, coughs and colds. I would not be without it." MRS. J. B. MARTIN, Huntsville, Ala.

Shiloh's Consumption Cure is sold by all druggists at 25c, 50c, $1.00 a bottle. A printed guarantee goes with every bottle. If you are not satisfied go to your druggist and get your money back.

We have some heavy shirts for men at less than cost.

THINKS WHEAT IS GOING UP.

Opinions Held by the Largest Wheat Raiser in Washington.

"It is my firm belief that wheat will be worth 50 cents a bushel in the interior within two weeks," said W. H. Babcock, the big Eureka Flat rancher to the Tacoma Ledger. There is probably no individual in the state who raises more wheat than Mr. Babcock, or who watches the market conditions more studiously. He has now about 300,000 bushels of wheat, comprising his last two crops on hand, and of this amount about half is stored in Tacoma warehouses.

"My prediction regarding the price of wheat is based on several things," continued Mr. Babcock. "The visible supply will take a drop in a few days, charters are getting weaker and the mills are requiring more and more every day. I do not look for extreme high prices, but there will be such an advance as will cause most of the farmers to let go of their holdings. I believe that there is still 35 or 40 per cent of the product of Walla Walla county unsold, although considerable of it is shipped. There is about 300,000 bushels of unsold wheat in Tacoma today."

Mr. Babcock differs with the statisticians who have placed estimates on the amount of the wheat crop of 1900. He feels confident that it will not exceed 200,000,000 bushels.

Chronic nasal catarrh poisons every breath that is drawn into the lungs. There is procurable from any druggist the remedy for the cure of this trouble. A small quantity of Ely's Cream Balm placed into the nostrils spreads over an inflamed and angry surface, relieving immediatley the painful inflammation, cleanses, heals and cures. A cold in the head vanishes immediately. Sold by druggists or will be mailed for 50 cents by Ely Brothers, 56 Warren street, New York.
