Your rule of adding rice to the water *a little at a time* is the vital principle in Hills Bros' process of roasting coffee

INTO the vigorously boiling water you pour the rice *a little at a time* so that each grain will cook perfectly. Hills Bros. roast their coffee by their patented, continuous process in which only *a few pounds are being roasted at a time*. The result is a satisfying, uniform flavor.

No bulk roasting process can get the results in flavor that this exclusive process of Hills Bros. secures. And because the matchless coffee is packed in vacuum (originated by Hills Bros.), all of this delicious flavor comes to you. Ask for Hills Bros. Coffee by name and look for the Arab on the can. Write for free copy of "The Art of Entertaining." Address Hills Bros., Dept. 331, 2 Harrison St., San Francisco, Calif.

Fresh from the original vacuum pack. Easily opened with a key.
