AMONG THE EXCHANGES OF THE INLAND EMPIRE

Automobile Line in Oregon.

The first automobile to run between Shaniko and Bend has been purchased and it is to be ready for service as soon as the roads become passable. This machine, however, is not to enter the general carrying business, but is owned by and for the use of the Deschutes Irrigation & Power Company. The officers of that company concluded that present methods of conveyance between Bend and the railroad consume too much time for busy men, therefore they have taken this means of overcoming the difficulty.

This new auto is of Michigan make and is known as the Cadillac. It will seat four people and be driven by a steam engine of eight horsepower. It is said that the machine will run wherever a wheel will go. While it is something of an experiment in this country, there is no doubt it will prove successful and that the service of the first machine will depend somewhat the development of automobile transportation in Eastern Oregon.—Bend Bulletin.

Pretty Little Crook.

Ella Morton is in the city jail charged with forgery. It is regarded as an unusual case, as Spokane police records fail to show another woman crook.

Ella Morton woman was arrested on a warrant yesterday by Detective Lynch at her home in the State hotel on Sprague avenue. The complaining witness is L. M. Boughton, formerly engaged in the meat business with his brother on Howard street, where Keane's saloon now is.

According to the story told by Boughton, he was an admirer of the woman and gave her $25 a week. Last week she asked for $10 on the plea of having a ring in pawn which she wished to redeem.

Boughton says he made out a check for $10 on the Old National bank, writing it with a lead pencil. The check, when cashed at the bank proved for $550 and Boughton charges the woman with having erased the figures and raising the amount to the larger sum.—Spokesman-Review.

Artesian Water at Boise.

An artesian well which promises big things, has been located in the addition to Boise, about one quarter of a mile northeast of the Krall stone quarry, in the eastern section of this city. The parties interested in this project are Messrs. Smith, Kanagy, Hall, Clement and Grigsby. About a month ago Major Hall began boring this well, and the latter part of last week water was struck in an artesian flow at a depth of 420 feet.

The water is exceedingly clear, and is warm, and while not found in great quantities, nor at any great pressure, the owners of the well are confident that if the boring is continued, water will be found in quantities sufficient to make it of commercial value. The water was struck in a sand stone formation, and the existence of the artesian flow assures the projectors that a large and substantial well is located near by.—Boise Capital News.

One Telephone to Eight Poeple.

In Walla Walla there are 13 telephones to each 100 population, according to figures made by Manager Bingham of the local exchange. This percentage is nearly as large as any city in the country, and is rapidly increasing. At this time the city maintains 1375 independent telephones, while in January, 1900, there were but 350 instruments in the entire exchange. To maintain this system and permit people to communicate quickly with each other, 37 people are employed regularly by the company, and at times extra men are used in repair work and construction. Of these people 19 are lady operators, nine are linemen and constructors, and other are telegraph operators, cashiers and stenographers.—Walla Walla Union.

The Dalles Improving.

More street improvements will be made in The Dalles this season than for years past. Second street is being macadamized and now property owners on Fourth street have petitioned the council to macadamize that street from Jefferson to the Fourth street bridge, asking that a covering of 10 inches of crushed rock to be placed on the street and rolled to a solid surface. The petition was referred to the committee on streets and public property to examine and report next Monday evening. If the report is favorable the council will levy an assessment on abutting property to pay for the improvements.—Times-Mountaineer.
