## GENERAL NEWS.

The entire divorcement of the state from the church in France is regarded as a certainty of the comparatively near future.

By a vote of 45 to 20, the California house of representatives has voted to cede the Yosemite valley to the general government.

The coldest spot in the United States February 2, was Glendive, Mont., where the thermometer registered 53 degrees below zero.

Observers note a recently developed sun spot that is 80,000 miles in diameter lengthwise, and oval shaped. It is one-tenth the sun's diameter.

The coroner of New York City has been convicted by a jury of demanding a bribe from a lawyer who was defending a physician accused of malpractice.

The entire Cuban cabinet has resigned, none of them agreeing with President Palma about certain public issues. Palma refuses to accept the resignations.

The Chicago Municipal Art League has awarded the first prize for excellent landscape painting to William A. Harper, a negro, who had nine paintings on exhibition.

The government of France will foster cotton culture in the Soudan, the ministry and chamber of deputies acting on the presumption that unless something extraordinary is done America will absolutely control the culture and manufacture of cotton in a few years.

According to the London Times' Pekin correspondent, Germany is seizing every opportunity to tighten her grip on Canton because apparently she realizes that Russia's position is hopeless and that after the war opportunity for aggression in China will be less favorable than hitherto, because China will feel more free to resist all foreign aggressions.

## NORTHWEST NEWS.

All the water power mills in the Coeur d'Alene country are out of commission on account of slush ice.

The forestry building at the Lewis and Clark fair will be the largest log building in the world and made of the largest logs.

A bill is before the Idaho legislature to abolish Kootenai county by dividing it and naming the northern half Lewis and the southern half Clark.

Andrew Shaw, a young man living near Orofino, Idaho, slipped and fell on an ax which he was carrying over his shoulder. His head was badly gashed.

Mrs. Wolf and Mrs. Moffett, in charge of the Crittenton Home at Spokane, declare that 65 per cent of its inmates are deserted wives. There are now being cared for at the home 20 illegitimate babies.

Private advices from Washington give assurance that the Jones bill creating a new federal judgeship for Eastern Washington, will be passed at this session of congress. The friends of Judge Sullivan, of the law firm of Sullivan, Nuzum & Nuzum, of Spokane, are first in the field with his candidacy.

At Culbertson, Mont., W. G. Greer, a rancher, was murdered by an unknown assassin, who apparently summoned him to the door and then shot him dead in his tracks. Greer was found by a neighbor lying just within the door of his cabin, with a bullet hole through the chest. Greer was a rancher. The man had been dead for several days when found.

$30 acre ranch. Four hundred acres on river bottom, 60 acres set to alfalfa. Well improved; good orchard; running water. One among the best in the county. Price is right. We have other and smaller propositions equally good.

## The CHURCHES

### Presbyterian Church.

Morning worship at 10:30. Sermon, "God Is a Spirit, and They That Worship Him Must Worship Him in Spirit and Truth." Sunday school at 12 m. Y. P. S. C. E. at 6:30 p. m. Subject, "What I Owe to Christian Endeavor." Leader, Miss Flora Walker. At the hour of evening worship, 7:30, a popular song service will be held. Familiar hymns, responsive exercises and a brief address are arranged about a central theme to give unity and impressiveness to the service. The theme tomorrow evening will be "Throw Out the Life Line." The subject of the prayer meeting next Wednesday evening will be, "What Is it to be a Christian?" Answers are requested from as many as possible to be given at the meeting.

### Congregational Church.

Services as follows: Sunday school 9:45 a. m., Mrs. S. A. Lowell, superintendent. Morning preaching service at 11, subject, "The Great Teacher, His Methods." Preaching at the West End at 2:30. Evening service at 7:30, beginnnig the sixth week of the revival meetings. The revival meetings will continue for some tome, in fact, these meetings have been so helpful and so many are interested in them, that we cannot stop now, and the end is not in sight. There are many seeking the true way of life, and they are looking to us for help. T. R. Egerton, pastor.

### Methodist Episcopal Church.

The revival continues at this church. Special services tonight at 7:30. Sunday school, 10 a. m. Sermon, 11 a. m., followed by a baptismal service for adults. Class meeting, 12:15 p. m. At 3 p. m. a general children's service will be held. Epworth League, 6:30 p. m., and revival service at 7:30 p. m. A cordial invitation is extended to all services. Robert Warner, pastor.

### M. E. South.

All the usual services at the usual hours. Rev. C. E. Battelle will preach at 11 a. m. (the pastor being at Weston. Mr. Howard will occupy the pulpit in the evening.

### Church of the Redeemer.

Services for the fifth Sunday after Epiphany: Sunday school and Bible classes, 10 a. m.; celebration of the Holy Communion and sermon, 11 a. m.; evening prayer and sermon, 7:30. Subjects of sermons: Morning—"The Spiritual Development of Christ; the First Dawning of the Consciousness of His Messiahship; the First Dawning of the Consciousness of His Peculiar Relation to the Father; the Growth of the Consciousness of His Redeeming Mission; Man, Capable of Being Redeemed; He, Himself, the Redeemer of Humanity From Sin." Evening—"John, the Baptist, the Interpreter; a Voice, Crying in the Night; the Baptist's Testimony." Strangers cordially welcomed at all services. The rector is always glad to speak with any one concerning any matter of spiritual interest. Rev. Henry Dixon Jones, rector.

### First Christian Church.

Sunday school, 9:45 a. m.; song service and communion, 11 a. m. to 12 m. 3 p. m., lecture by Evangelist Dorris to men; subject, "Man Before Man; Man Before God." This is a great lecture, and every man in Pendleton should hear it. Evening service, 7:30. Special music. Miss Fraker will sing. Sermon by Evangelist Dorris, subject, "What Does it Mean?" The meeting are very successful, 54 additions thus far. Mr. Dorris will be with us another week. The public cordially invited to attend. N. H. Brooks, pastor.

### Baptist Church Notice.

Services for the week beginning February 5:

Sunday—10 a. m., Bible school; 11 a. m., public worship; 3:30 p. m., Junior meeting; 6:30 p. m., Young People's prayer meeting; 7:30 p. m., song and praise service. "Addition by subtraction," is the evening topic.

Monday—7:30 p. m., trustees' meeting, Dr. Ringo's office; 7:30 p. m., B. Y. P. U. business meeting.

Tuesday—7:15 p. m., teachers' meetings of S. S.; 8 p. m., Christian Culture study class.

Wednesday—7:30 p. m., prayer meeting. Subject: "The Mind of the Master With Reference to Answered Prayer."

Thursday—7:30 p. m., special prayer service for the lost.

Friday—8 p. m., choir rehearsal.

### The East Webb Revival.

Plans are being laid for the coming of Rev. C. F. Clapp of Forest Grove, Ore., to assist in the meetings now being held in the Congregational church. Mr. Clapp is superintendent of Home Missions for Oregon, and is well and favorably known as a revivalist. His many friends in Pendleton will be glad to hear him, and with Mr. Clapp added to the present working force, the meetings will no doubt increase in interest and power.—T. R. E.

### Warranty Deeds Filed.

The following warranty deeds were filed today in the office of the county recorder:

Charles L. Owlsey to J. D. McKennon for the SE 1-4 of section 23, in township 36 E. W. M., containing 160 acres. Consideration, $400.

J. D. McKennon to Bocks-Thomas Co., for the SE 1-4 of section 23, in township 36 E. W. M., containing 160 acres. Consideration, $400.

### Needs More Teachers.

Superintendent Frank K. Welles, who visited the public school at Weston this week, has recommended that one more teacher, at least, be employed there. The present force is overworked and the rooms crowded somewhat, it is said.

## OSTEOPATHY

### Pelvic Diseases of Women.

It is estimated that less than 10 per cent of women are in perfect health. Why this alarming state? For the answer to the greater part of it we must look to the so-called pelvic diseases, or female troubles. It is rare indeed to find a woman in the active period of life entirely free from these ailments. Is it any wonder that scientists are constantly asserting the degeneracy of the human race, when these must be the mothers of it? That in France and Germany the death rate exceeds the births! Is it any wonder that so many false cures are heralded, and that for years quacks have made this their harvest field? With years of suffering, distress, aches in back, ovaries, uterus, with their reflex accompaniments, headaches, digestive disorders, bladder trouble, etc., is it any wonder that woman submits to the healing caustics, pessary, electric shock and finally the surgeon's knife, to find herself at last unsexed, a nervous wreck and a hopeless invalid? Such is the story of a household in our own town. Cannot science end this awful tale? If not, a new and hardier race must take the place. He who brings this story to a close will be greater than any now on history's pages. Such a one is now striving hard for this glorious end in the person of Dr. Andrew T. Still, the founder of osteopathy. Said Senator Jos. B. Foraker, "If the founder of Osteopathy does not more in this life than what he has done to relieve the suffering of men, his name will go down the ages as the greatest physician of any and one of the benefactors of the race."

Is this eulogy merited? Let us examine his theory and see if it be reasonable, for we should reason better although we have never so. The body is not a mystery, works by law, just as truly as any other machine. So have a reason.

The uterus and ovaries have an abundant and delicately balanced nerve and blood supply on which they depend to functionate, or perform their duty of life, procreation. Because of this abundance and delicacy of nerve and blood supply, they are easily disturbed. At this point Still began by asking, "How does disturbance come about?" Strange is that no physician ever asked before, or if he asked, failed to answer. Dr. Still never stopped, he had an answer.

The blood to the female organs as well as to all parts is controlled by the raso-motor nerves. These, in the spinal cord, pass out between the vertebrae, thence down through tissues and over joints to organs. Cut the vaso-motor nerve of any vessel and the vessel will be paralyzed. Then the force of the blood within the vessel spins the wall, accumulating an excess of blood, an inflammation or congestion. Now these facts of physiology as a starting point, Dr. Still began the search for the agent cutting the vaso-motor nerve. Diligent search recovered the vertebrae between which the nerve leaves the spinal cord, slightly displaced, the ribs, the 11th and 12th, were drawn down and together, and that the pelvic bones, commonly called the hip bones, were twisted. "An idea," says Dr. Still. "These bring pressure and cut the nerves as they pass by them. If I straighten these it should give the desired result." He did the work. The result you have in the above quotation from the wife of Ohio's governor senator.

You have been duped long enough. Henceforth proceed by reason. Investigate. There are several in this town who have been treated without complete explanation and understanding. Pick the wheat from the chaff. The pretenders are numerous and they infest our state until Senator Fitzgerald's bill, now before the legislature, becomes a law and compels all osteopaths to go before an examining board. Don't judge Osteopathy by what some pretender has been able to give you. Would you judge medicine from the work of a quack?

Frequently we hear, "I have uterine displacement, so Osteopathy can't help me." Does not displacement come from the stretching of the ligaments, weakened by malnourishment? What will correct it? Prop it up with a pessary, or improve the blood supply and nourish the ligaments back to strength?

Because you cannot detect slight displacements of bones, do not be positive there are none. The fingers will find them and point them out to your satisfaction. Medical doctors, those who never have, often assert that these displacements do not exist. Any such we can invite to call, as we have some excellent examples of all classes of displacements among our patrons.

Osteopathy makes no claim to cure all cases. Some mild cases are incurable, some very bad cases are easily cured. Most depends on the patient, whether it be a removable cause or not. Then comes in the recuperative power of the body. The longer the case is delayed the more the recuperative power is lost.

Give Osteopathy a chance before you before submitting to the surgeon's knife, which must forever destroy you as a woman, unsex and wreck your nervous system, condemn you to the terrible irritation of a scar tissue and leave you incapable of motherhood, and unfitted in body and mind for wifehood, a nervous wreck on the sands of time, just drifting because you have not been told away.

There is a chance for you. Don't nothing to investigate fully with Doctors Holsington, Despain block, Pendleton, Ore., who are graduates of Dr. Still, the founder. They will fully answer any question.

General clean-up of all winter goods at prices that will surprise you. Teutsch's.
