The Fourth

On the 4th of July in 1776 our freedom was really born; from that day *on it was a long bitter fight, but right won out.*

In the last decade men have been gaining a new freedom—it's in clothes. They no longer have to suffer the excessive made-to-measure charges nor the time wasting delay and uncertainty.

You men can now get just what you want when you want it in ready clothes.

Hart, Schaffner & Marx

have been the greatest factor in this victory--men everywhere have come to know that no matter what their taste, they can get something they'll like in these good clothes at a moment's notice. If you're one of the men who are not in on this victory, you'd better come in today.

We are offering every man's suit in our house at most radical reductions. Now is the time for you to buy.

This store will be open this evening till 9 o'clock and will be closed all day tomorrow, July 4th.

SOCIETY

Miss Sybil Clopton, former popular young lady of this city, arrived last evening from Portland to be bridesmaid to Miss Eleanor Vincent whose wedding to John Urquhart is to be an event next week.

Mr. and Mrs. Wesley Matlock are to spend the Fourth at Seaside, Mr. Matlock going down tonight to join his wife who is at present in Portland.

Mrs. Thomas Thompson arrived home last evening from Portland where she has been receiving treatment for her eyes.

Mr. and Mrs. L. E. Twitchell and family left today for Walla Walla where they will spend the Fourth.

Mrs. N. M. Perkins, formerly of this city, is a guest of Mrs. Lina H. Sturgis. Her home now is in Boise.

Mrs. George Peringer and daughter Murel, have arrived home from a visit with friends in Portland.

Miss Jennie Perry arrived home last evening after an extended visit in Eugene and Portland.

Home Hints and Recipes

Think Good Thoughts.

(By Agaball Moore, in Chicago News)

The woman who thinks right will live right and work right, and she will be happier and more beautiful with each succeeding year, for age cannot wither her. Charm is in the mind.

The first cue to right thinking is directness. Don't waste time and energy thinging about nothing. Aimless thinking will grow on you and unfit you for serious, earnest thinking. Form the habit of following each idea to its end or else definitely thrust it aside if you will find it not worth fostering. Make your mind systematic, and before you know it you will reject useless thoughts and useful ones will rush into the vacancy.

Be ready for fresh ideas as they come; thrash them out and pigeonhole them in your brain, ready to be applied or worked with when occasion demands them. Think for yourself. Be neither too ready to accept other persons' ideas unqualifiedly nor steel yourself against them; but don't let others think for you.

Carry every original idea to its logical conclusion. The greatest combination of abilities is that which is able both to create and to carry out. Many persons have creative ability and many others the ability to work out another person's theory, but few are blessed with the ability to do both.

Clear your mind of rubbish. How can you expect to work clearly and concisely if the mind is cluttered up with such junk as the impressions left by sickly novels, petty worries and exasperations, and so on? You can read on faces whether the mind is clear and whether it is oversystematic to the point of fussiness or whether it is at ease so that it works calmly and with directness.

Above all, think beautiful thoughts. Live in an atmosphere of beauty and put yourself in harmony with it. It is all a matter of cultivation. As you think, so you are, so train your mind in the way it should go and your personality will improve.

Use Hot Plates.

When serving hot bread or pastry of any kind, use hot plates. The most delicious pastries will become soggy when served on cold plates while they are still warm.

Pins Are Aids.

If when transferring an embroidery design or initial through carbon paper you will find it difficult to get the design into its exact place, try sticking pins in the article you wish to trace, so that the heads of the pins outline the exact spot. You can then feel the pin head through the carbon paper and so know where to place the design.

America Has Speed Test.

HAMMONDSPORT, N. Y., July 2.—Speed trials and a bench test of the new propellers marked the day's work on the Rodman Wanamaker Trans-Atlantic flying boat, America. At noon Lieutenant Porte, who is to pilot the boat, took the America out for the longest trip she has made in the air since the trials began a week ago. He flew down the lake several miles, alighting on and rising from the water several times. Apparently, he had no difficulty in bringing the machine to planing speed on the water.

On a trial against time over a marked course the machine showed a speed of 60 miles. During this test the motors were running at 1200 revolutions per minute, instead of their maximum of 1300.

WASHINGTON, July 2.—Major Edgar Russell, of the army signal corps, returned from Hammondsport, N. Y., where he inspected the giant flying ship which is to attempt the trans-Atlantic flight. He expressed the opinion that while the flight if successful, would be of momentous interest in aerial achievement, its consummation would be unlikely to have immediate effect on the status of the aeroplane as a war instrument.

FIRE SWEEPING THROUGH VALLEY; HELP CALLED FOR

APPEAL IS SENT TO THE DALLES FROM RANCH—GRAIN IS BURNING.

THE DALLES, Ore., July 3.—An appeal was received for help in fighting a fire in Five Mile valley, six miles east of here, which had swept unchecked through an area miles in extent and threatened to devast fields of standing grain.

Starting from an unknown cause on the George Reed ranch, the flames spread wildly and resisted every effort of the farmers to check or confine them to a single section. Sixty men sent into the valley last night practically were powerless before the rush of flames. The flames increased in violence and widened the area in their path with every hour during the evening.

It was impossible to determine the extent of the damage. The valley promised a bumper yield of grain. The flames have lighted up the sky here, though the fields where the fire is raging were hidden by the mountains along the Columbia river.

The call for aid was sent from the George Reed ranch.

Auburn Has Gold Strike.

BAKER, Ore., July 2.—A strike of gold was reported from the little town of Auburn, where the first gold strikes of the Baker district in the early days were made. Jime McCabe, an old prospector, appeared here with a bottle of golddust and nuggets worth about $60 and a story of uncovering a pocket from which he had taken about $3000. The story was noised about Baker and several oldtimers hurried at once to the scene of the promised activity.

William Mix, a widely known prospector, has a claim adjoining McCabe's at Auburn, and the story has been going around today that he, too, has been finding pocket gold in large quantities.

Pocket gold always has been a feature of the Auburn camp, although it has been years since such a large find as McCabe's has been reported. Small seams containing free gold also have been found, and in some instances hove brought large sums to the finders.

Police Arrest Bookmakers.

NEW YORK, July 2.—The betting question at racetracks came to the front again when a squad of detectives from New York descended on the Aqueduct course and arrested eleven men whom they charged with accepting cash bets on the races.

The authorities, in accordance with court decisions, have taken no action when oral betting was resorted to, but it is alleged by detectives that bookmaking on a cash basis has become frequent of late, and that arrests were planned to put a stop to this infringement of the law.

Exports $653,000,000 Ahead.

WASHINGTON, D. C., July 2.—Details of the $4,279,000,000 foreign trade of the United States last year are set forth in the annual report on commerce and navigation just issued by the department of commerce. They show exports exceeded imports by $653,000,000. Exports of manufactures amounted to more than six times the imports of like classes. Last year 80 per cent of American foreign trade was carried in foreign vessels, while in 1950 70 per cent was carried in American ships.

Splendid Remedy For Eczema

Also for Salt Rheum, Acne, Tetter, Psoriasis and Other Skin Troubles.

After using S. S. S. for a while, the characteristic marks of all skin troubles change completely. When eczema has become chronic the lower skin loses its power to divert impurities and thus they continue to gather in the weak spots or those already attacked. The action of S. S. S. is that of an antidote, and this fact has been demonstrated time and time again in the most severe forms of weeping eczema.

Its influence in the tissues where the tiny arteries transfer the red blood for the worn-out blood to the veins is quite remarkable and goes on constantly with every tick of the clock—the beat of the heart.

And new skin is thus caused to form while the germs of irritating influences that cause eczema are scattered and their harmful nature entirely suspended.

S. S. S. has a wonderful tonic influence in the blood because it contains no "dope," is entirely free of any mineral drugs or any other drugs except the remarkable medicinal effect of the pure vegetable products of which it is made.

Few people realize how harmful are many of the strong, crude ointments that used to be in favor before they learned that S. S. S. is safe, speedy and sure. Ask at any drug store for a bottle of S. S. S. Give it a good trial and you will soon see a decided improvement in any form of skin trouble. Write to The Swift Specific Co., 538 Swift Bldg., Atlanta, Ga., for special free advice and new book on skin or blood trouble.

IOWA'S COMPENSATION LAW IS EFFECTIVE

DES MOINES, Ia., July 2.—Iowa's workmen's compensation law went into effect and the state is prepared for it as few states which have taken this step have been. The Iowa Manufacturers' Association has perfected its organization so that the association stands behind the law and the manufacturers do not have to patronize bonding companies. There is to be a graded scale for payments, according to the risk of the industry. It is estimated that Iowa manufacturers will save at least $1,000,000 a year by carrying their own risks. Manufacturers say they will ask no delay and that they will aid in enforcing the law.

Convicts Would Stop Drink.

PHILADELPHIA, Pa., July 2.—A petition drafted by prisoners in the eastern penitentiary, declaring that fully 70 per cent of the crime within this state is directly attributable to the excessive use of intoxicating liquors and asking for the enactment of prohibition legislation, is being circulated among the convicts in that institution.

It is reported that 1500 signatures of inmates of the prison will be attached to the petition, which is to be presented to the legislature. The editor of a paper published in the penitentiary by the prisoners started the movement.

Freckle-Face

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

The modern stove for the farm

A good oil stove cooks just as well as a wood or coal range—and does it quicker and cheaper. It saves your time and strength—for there's no wood, coal or ashes to lug. The

New Perfection OIL COOK STOVE

burns kerosene—the clean, cheap, easily-handled fuel. Its blue flame gives an intense heat and you can regulate it to any degree you want—just like a gas range. It doesn't smoke—nor taint the food. An ideal summer stove because it doesn't over-heat the kitchen. Many use it the year 'round. Dealers everywhere.
