VICE PRESIDENT BACKS MEMORIAL TREE DRIVE

(By United Press.)

WASHINGTON, May 12.—In a letter to the Home Country Folks, back in Indiana, Thomas P. Marshall, vice-president of the United States praises their planting of memorial tree in honor of the boys who went to war from Collamer. The report of the tree planting was made to the American Forestry Association, which is registering all memorall trees in a national honor roll. The Association informed the vice-president who was so proud of the home folks, Collamer being in his home county, that he wrote the following letter:

My Dear Mr. Galbreath:

The idea appeals to me far more than storied urn or animated bust. It embodies a living thing, representative of a vital sentiment of the American people and I hope it is going to be universally popular in America. When the tree shall grow large enough a fitting plate can be attached to each one of them bearing the names of the soldiers.

Of course it rejoices me to know that citizens of my county, under your leadership, have been among the first to take advantage of this idealistic and patriotic movement.

May Heaven send sunshine and showers upon these trees, so that they may live to a distant age—vital reminders to the youth of every generation of what America has done and great incentives to the doing of the fine things for which the Republic has been so remarkably conspicuous.

With sincere congratulations, I am

Your very truly,

(Signed)

THOMAS H. MARSHALL.

MARTIN L. GALBREATH
COLLAMER, IND.

Memorial tree planting, reports to the American Forestry Association show, is going on all over the country.

Nurse, in France, Says Kiddies in Sad Plight

CHICAGO, May 12.—It was with a mixture of relief and regret that Miss Marie E. Miller, 4449 Lowe avenue, Red Cross nurse returned to Chicago after 18 months overseas and found Chicago "kiddies" healthy, happy, normal children, clean and wholesome and with honest-to-goodness playthings.

Miss Miller sailed for France in September, 1917, with Miss Marie Phelan's infant welfare service group. She did rescue work among the women and children at Toul, at Neuve Chapelle and at La Concordia and also worked with wounded soldiers.

The children at Toul were in a sorry plight, according to Miss Miller. They were emaciated and dirty and hungry. Particularly pitiful were their attempts at play without playthings and their delight in a few kindergarten toys sent Miss Miller by a Chicago school teacher.

"The children loved the nurses," said Miss Miller. "They particularly admired the red cross on their caps and wanted to wear red crosses, too.

"I am glad I was over there and was able to help a little, but, oh, how glad I am to get back to Chicago," she added.

Miss Ione Stephenson of Miss Phelan's infant welfare service also has returned from the service overseas.

TO HAVE CLEAN, HEALTHY BLOOD

Bright Eyes, Clear Complexion Take Famous Springtime Tonic and Blood Purifier "Celery King."

Three times a week for three weeks brew yourself a cup of Celery King and drink it just before retiring. Give it to the children, too. You'll be surprised how gently yet effectively creates a normal action of the bowels, cleansing and strengthening of the system, banishing pimples, scrofula and other blood disorders. Celery King keeps the blood pure and rich by freeing the system of all waste matter.

LENIENCY CRITICISED BY AMERICAN LEGION

ST. LOUISE, May 12.—Full congressional investigation of the action of war department officials in releasing and giving honorable discharges to conscientious objectors is demanded in a resolution, unanimously adopted by the caucus of the American Legion. The caucus demanded that Congress immediately banish forever from America all aliens, and undesirables.

RESOLUTIONS CHEERED

ST. LOUISE, May 12.—Delegates shouted and cheered when two resolutions were reported today, one demanding investigation of conscientious objectors releases and condemned those responsible for "protecting these objectors", and "condemned all I. W. W., international socialists and anarchists who attempted to secure their release."

ALASKA BUILDING HIGHWAY SYSTEM

CORDOVA, Alaska, May 12.—Since January, 1905, when the Alaska board of road commissioners came into being, 4830 miles of road and trails have been completed in t he territory, representing a total expenditure of $4,823,596.

These figures were made public in the annual report of the board just issued, with a statement by Major W. B. Waugh, president. The report summarized construction and other activities up to March 1, 1919.

Of the total mileage of roads and trails, the report staes, 2566 miles comprise a connected system reaching from Valdez and Chitina to Eagle, Fairbanks, points above the Arctic circle, to the lower Yukon, Nome, Candle and other Yukon river points by a second system of 2738 miles, which begins at Seward and serves the Iditarod, Ophir and Innoko districts, the report adds. In addition to these two systems, there are 288 miles of short local roads and trails.

Differences in costs of construction in Alaska and in the states are forcibly brought out in the report. Nearly $6000 a mile was the cost of 410 miles of road from Valdez and Chitina to Fairbanks. In the states, normally, $5 will hire a team and driver for one day and the owner furnishes weed. "In many cases on much of the Alaska work," the report says, "it costs $5 to feed one horse one day, and many other costs are in the same proportion."

Honolulu "Y" Celebrates.

HONOLULU, T. H., May 12.—The fifteenth anniversary of the founding of the Honolulu Young Men's Christian association was celebrated here with a banquet at the central "Y" building, with many of the prominent men of Hawaii as guests, including Sanford B. Dole, president of the Republic of Hawaii and later first governor of the territory following annexation by the United States. Mr. Dole is a charter member of the Y. M. C. A. One of the speakers representative of the Y. M. C. A. international committee.

The Honolulu Y. M. C. A. was established April 30, 1869, but the celebration of the anniversary will continue. The annual exhibition by the boys' clubs department and athletic and social entertainments are scheduled for the last days of the celebration.

SPIRITUALIST PASTOR FREED ON FORTUNE TELLING CHARGE

KANSAS CITY, May 12.—Mrs. Julia Fleck, pastor of the New Light Society Church, Texas avenue and Cherokee street, who was arrested March 12 on a charge of fortune telling, was discharged in police court today after she had shown that her church was regularly organized and incorporated under the laws of the State and that it is a spiritualist organization affiliated with other spiritualist churches in St. Louise.

The complaint against Mrs. Fleck was made by Policewoman Elizabeth Hoch, who made the arrest and charged that Mrs. Fleck told her fortune for 50 cents, in which Mrs. Fleck stated untruths.

Mrs. Fleck stated that she was only the medium for spirit communication and that if what she told Miss Hoch was untrue, the spirits and not she were at fault.

$1000 for Return Of Stolen Jewelry

ST. LOUIS, May 12.—Mrs. H. J. Cummings of 4545 Lindell boulevard has renewed her offer of $1000 reward for the return of the jewelry which was taken from her home last October, in the hope, she says, that with the closing of the season at Palm Beach and other winter resorts, the burglar will retun to the city ready to talk business.

The jewelry, valued at about $3000 and containing a number of heirlooms on which no accurate value could be placed, was taken between 6 and 7 p. m., while the family was at dinner. The burglar climbed to a second story window.

In response to a question Mrs. Cummings said: "The police? Oh I prefer not to say anything about them. I suppose they do the best they can. They were very polite to me. I simply feel that I have given them ample time—six months—and if I hear anything from the burglar it will be a mater between him and me and one that does not affect the police."

BIG FOUR CONSIDER NOTES.

PARIS, May 12.—The "big four" yesterday considered the latest German communications regarding the peace treaty. The notes were later referred to a committee of experts for a report back to the "big four."

BALLOON WILL FOLLOW.

NEW YORK, May 12.—United States naval aviators are preparing for an ocean balloon flight. A naval dirigible will make an attempt to cover the course of the trans-Atlantic seaplanes, it is learned.

Some men's greatness is due to their smallness.

Below Your Equator

there is, in the form of the intestinal canal, a wonderful laboratory, within which are manufactured the very materials which are vitally necessary to sustain life, and also violent poisons which directly and indirectly cause disease and death.

Food waste, if allowed to accumulate, stagnates and gives rise to poisonous matter. This, if allowed to be absorbed into the blood, produces 90% of the disease that attacks mankind, from a transient neuralgia to a permanent hardening of the arteries.

Bright's disease, liver trouble, heart enlargement, high blood pressure, skin affections, rheumatism, insomnia, nervous exhaustion, mental affections, all may be caused by such self-poisoning, the warning of which is obstinate or habitual constipation.

Nor is it safe or sufficient to take castor oil, pills, salts, mineral waters, etc., in the effort to force the bowels to move. Not only will the constipation grow worse with the continuance of such remedies, but the dose must be constantly increased with an ever-weakening effect.

But Nujol acts differently—and successfully. Nujol is not a drug—does not act like any drug.

Nujol brings about thorough and natural bowel evacuation, at regular intervals, because it helps Nature to restore and to maintain the proper mechanism by which body waste is removed and its stagnation prevented.

Nujol overcomes constipation by removing its causes. Get a bottle of Nujol from your druggist today and send coupon for free booklet—"*Thirty Feet of Danger.*"

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may *suffer* from substitutes.

Events Crowd Life Of Concert Singer

NEW YORK, May 12.—Important events are crowding one another in the life of Mrs. Jacqueline L. Shearman, who is known on the concert stage as Adelaide Quelus. About two weeks ago she was taken to the Knickerbocker hospital, suffering from three bullet wounds, inflicted, she said, by a jealous admirer at her apartment at 20 West One Hundred and Ninth street. A few days ago Mrs. Shearman was served in the hospital with a summons in a divorce suit brought in the supreme court by Lieutenant David S. Shearman, U. S. A.

Mrs. Shearman, about whose identity there was much doubt when she was shot, is a granddaughter of the late Lillian Lewis, an actress. Her stepfather is Lawrence Marsten, actor and playwright. Lieutenant Shearman has been stationed at Camp Sevier, South Carolina. The Shearmans have been living apart. They have two daughters in a convent and another who is living with relatives in Brodoklyn. Mrs. Shearman accused Joseph Garrison Knapp of shooting her. He was arrested and held without bail, but denied the charge.

Expressive Reply

"You don't have to go as far as the of the family."

"And what did you say?"

"Bah!"

Velvet

THE SMOOTHEST SMOKING TOBACCO

Smoke over your problems. A little drawin' on a fren'ly pipe often saves a heap of drawin' on a bank account.

Velvet Joe

Velvet is a friendly tobacco in the truest sense, because, like friendship, it has been allowed to ripen *naturally*—nothing *forced* or *unnatural.*

There are "hurry up" ways with tobacco but only patient *ageing* (two years in wooden hogsheads) can bring out the mellowness that sets Velvet apart.

Roll a Velvet Cigarette
Velvet's nature-aged mildness and smoothness make it just right for cigarettes.

You know what mellowness is—now think of a good friend who is never harsh to you.

There you have the *big thing* about Velvet—
mellow friendliness.

You and Velvet—begin your friendship today.
