Stocks Show Recovery

NEW YORK, Feb. 27 (AP)—Stocks got in the recovery beam in today's market although the general bulge was unaccompanied by the speed of the recent tumble.

Steels, motors, gold mines, packers, selected rails and pivotal industrials exhibited the principal strength. Airlines such as Easter, American, United and Pan-American came to the fore at the last. While the majority of advances ranged from fractions to a point or so, there were assorted jumps of around four. Top marks were trimmed here and there at the close but the plus column was widely populated. Dealings frequently slowed and transfers approximated 1,000,000 shares against 1,350,000 in the previous session's sell-off.

Wheat Shows Sharp Advance

CHICAGO, Feb. 27 (AP)—Corn and wheat advanced sharply on the board of trade today on expectation that Herbert Hoover's European food survey would stress the need for continued American grain shipments to deficit food areas.

At one time wheat had gains extending to 60 cents in the May contract. March wheat rose to a new high for any wheat future since 1920, when $2.75 was reached in July of that year.

Corn was up more than 4 cents at times. Cash dealers said 100,000 bushels of cash corn were sold to exporters. Distillers were said to be in the market again after taking fairly large quantities yesterday. Cash corn sold above $1.50 in the spot market.

Wheat closed ⅛ to 5 cents higher, March $2.43.
