WHY WE SAY

by STAN J. COLLINS & L. J. SLAWSON

This phrase has arisen in allusion to the laborers in the Bible parable who were called to work in the vineyard at the 11th hour and yet received a full day's pay.

Atom Control Talked

LAKE SUCCESS, June 12 (AP)—United Nations atomic delegates went to work without delay today on Soviet Russia's new detailed plans for international atomic control. This temporarily sidetracked another battle over the veto.

Meeting as the working committee of the 12-nation atomic energy commission, the delegates who heard Soviet Deputy Foreign Minister Andrei A. Gromyko unfold his plan yesterday discussed how much of it should be considered in their committee and how much should be shunted to the commission's political committee which is specifically studying controls.

The working committee had been slated to take up a Soviet proposal which seeks to overturn a majority decision in the commission that no veto shall apply on atomic punishments. The delegates felt, however, that they must decide first on how to tackle the latest Soviet control proposals.
