U. S. IMMIGRATION RESTRITION LAW IS FAVORABLE TO CANADA

MONTREAL, July 15.—(I. N. S.)—"The United States has, more or less, closed the door to European emigrants," said Colonel J. S. Dennis, of the Canadian Pacific Railway and a recognized authority on immigration and colonization. "What will the effect be on Canada?"

"Canada today is in much the same position that the United States was at the beginning of the nineteenth century. Its population at the commencement of the twentieth century was much the same as that of the United States at the beginning of the nineteenth century. Its great farm areas need settlers to grow food to feed its growing cities and to provide traffic for the great railways.

"Never was Canada in such a position to choose the best kind of citizenry from troubled Northern Europe. Undoubtedly much of the immigration that was headed to the United States will be diverted to Canada a type of immigrant that has rarely been available to it before.

"Today Canada can get the pick of Europe—the people who wouldn't dream of coming if the world were in a settled state. They are the kind it can choose carefully and place on its empty farm lands with a maximum of confidence that they will make good.

"Now those United States citizens of foreign origin whose relatives and friends through the immigration restriction act are debarred, can invite them to join them in Western Canada.

"To Canada the United States immigration restriction act must come as a blessing."

PORTLAND—1925

WASHINGTON, July 15.—(I. N. S.)—The house foreign affairs committee favorably reported the resolution requesting the president to invite the foreign governments to participate in the exposition at Portland in 1925.

"Forest Navy"

Tars of the Pacific fleet test out depth bombs—in a forest! By dropping a weight from certain heights they obtain a pressure equal to that of the water at similar depths. The test bomb is placed directly beneath the weight. When it strikes the ground—bloole!
