$10,000 DAMAGE BY FALLEN STORE ROOF

Damage estimated at $10,000 occurred this morning when the roof of the Clemens & Ebert implement store on East Court street crashed under the weight of snow.

The building had been built at two times, and the front part, which was finished about two years ago, was not damaged this morning with the exception of the back side of the outside side wall which is slightly pushed out.

The chief damage will be to the back part of the building, which measures 85 by 42 1-2 feet. The roof came down on this warehouse section and not only will the building itself be practically a loss, but there will be considerable damage to the machinery which was set up there, the proprietors declare. Binders, a car and a truck were a part of the machinery in the warehouse.

IDEAS FOR HOUSEWIVES HOME DEMONSTRATION

The easiest digested fats containing vitamines are in cream, butter and whole milk. Next comes the fat in peanut butter and egg yolk. Cheese, although high in fat, should not be given to children.

Because milk contains also the ideal protein for children, it serves a double purpose and should be placed in the diet instead of meat. Cornmeal, brown bread, eggs and vegetables make up for the necessary protein content.

The "C" vitamines are found in fruit, milk and vegetables. Cooking at a high temperature for a long time may destroy these, so we should feed oranges, apples, celery, raw carrots and cabbage, cereals and milk to supply these vitamines. The lime and iron so necessary to bone development, are also found in the above list. The starches and sugars which give heat and energy are partly supplied in cereals and bread and occur in large amounts in potatoes, tapioca, etc.

There has been much attention given recently to the work that is being done in food research. Most people are not greatly concerned with the results showing how much of the different vitamines is necessary to sustain life in a pigeon or guinea pig, but the facts become important when they are translated, so that the housewife will know how to make a wise selection of food to provide a safe diet. She is told that a faulty diet is responsible for deficiency diseases in children and that the fat soluble vitamines A and the water soluble B protect against this condition. These vitamines are found in animal fats, egg yolks and leafy vegetables. Cod liver oil is sometimes used by physicians to adjust a deficiency of these vitamines, especially if the child is below weight. Whole milk used in liberal amounts is also a valable aid in supplying vitamines A and B. There is usually too large an amount of sugar in the form of syrup, or candy in the diet of the child.—V. D.

CHINESE FESTIVAL TO FULL MOON IS AGES OLD

HONOLULU, T. H., Nov. 21.—(I. N. S.)—One of the privileges enjoyed by residents of our mid-Pacific Territory is that of witnessing the ceremonials and customs of the always fascinating Orient.

One of the most interesting of these ceremonials is the observance of the Chinese festival of the Full Moon, marked in the Chinese calendar as the fifteenth night of the eighth moon, which commenced this year on September 15. This festival, originated by the Emperor Ming Hwang of the Tang dynasty in the eighth century, is now a major holiday of the Chinese people and is observed by them, rich and poor alike, the world over.

In Honolulu, where the September moon is perhaps a little brighter and more glorious than at any other place in the world the feast of the Full Moon is observed principally by the making of gifts among the Chinese residents and by feasting on the night when the moon is at its full. On that night throughout Honolulu's Chinatown tables are set in the moonlight and are loaded with moon cakes, grapefruit, taro, chestnuts, lichee nuts, sweetmeats and other delicacies. There gather families and friends to partake of the feast, but before the food is touched incense is burned and obeisance made to the moon goddess. After these ceremonies are completed the merrymaking commences, to continue in a milder form for several days during which many gifts are exchanged and the poor are remembered generously by their wealthier brethren.

While the younger generation of Chinese are inclined to slight the details of the full moon festival, the older Chinese still carry it through very much as it was done by the ancient Emperor Ming Twang.

PASTOR'S WIFE TOOK PLACE.

COLUMBUS, Ohio, Nov. 21.—(I. N. S.)—The wife of a local clergyman occupied his pulpit while he was ill. The Sunday congregation at Trinity Methodist Episcopal church plainly displayed surprise when the wife of their pastor, Rev. C. B. Ketcham, took his place in the pulpit. Apparently at ease, and acting as though she had been accustomed to occupying the pulpit, Mrs. Ketcham directed the service. She did not preach, however, in place of the sermon she gave a reading.

COLDS

"Pape's Cold Compound" is Quickest Relief Known

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks any cold right up.

The very first dose opens clogged nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness.

"Pape's Cold Compound" costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's!

Vassar "Vamp"

Will Broadway sit up and take notice when the Vassar College girls come to New York with their own "Follies" to raise funds for the college endowment fund? Broadway will—if there are many like Peggy Dixon, one of the "vamp" chorus.

MOTHERS! CLEAN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste out of the bowels, and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.
