WARSHIP LOWERS GUN FROM DECK TO LAND

GUANTANAMO BAY, Cubt, April 21.—(I. N. S.)—Anchored in Guantanamo Bay, opposite the naval station, the U. S. S. battleship Florida successfully lowered from her decks and landed on the beach a 155-millimetre gun on a massive mount and tractors.

The big field piece, completely set up and in readiness for action when it reached land, was swung over the side to a platform built on two large motor boats, making a pontoon that would, with its own power, carry the gun to shore. This was followed by the landing of two seventy-five field pieces and tractor tracks for ammunition and the train of a landing party.

The action was done with great dispatch and without a hitch and all equipment landed without an accident. These guns and tractors are a part of the equipment of the advance pase of the Marine Corps. The guns are now at the Marines' post of the Guantanamo station, where they are manned by a detachment which has recently arrived from Quantico, Va. The men are to be drilled with the gun and especially with a view to its use for landing parties, as was demonstrated in the landing by the Florida.

This special practice of the Marine is being directed by Lieutenant Colonel Richard M. Cutts, U. S. M. C., and will be a part of the training schedulle of the Atlantic fleet, which is here with its commander-in-chief, Admiral Hilary P. Jones, U. S. N., on the flagship Columbia.

NO OLD WOMEN NOWADAYS

Modern dress, hair dressers, facial experts and cosmetics all combine to keep women of all ages young and attractive in appearance. Not until the telltale wrinkles become so deep, the figure stoops, or some ailment or weakness develops to drak a woman down does she really lok her age.

Every woman owes it to herself and her family to keep herself young in appearance, and happy. When headaches, backaches or "the blues" develop or when a woman reaches the trying age from forty-five to fifty, Lydia E. Pinkham's Vegetable Compound may be depended upon to keep her in health as it has so many other women whose letters we are continually publishing in this paper.

HOME DEMONSTRATION IDEAS FOR HOUSEWIVES

Clothing

To dress economically means to choose materials of quality, to select designs easily cared for, and to have in the wardrobe only such garments as suit one's social needs.

To dress artistically means to consider one's proportions, style, and coloring. It requires a knowledge of the best in current use and an adaptation of the attractive features to one's needs.

From Bulletin, O. A. C.—V. D.

Construction of a new building by the Eugene hospital at an approximate cost of $50,000 will be undertaken this spring. It is planned to have it ready for patients by fall.

Deer are reported grazing in the fields close to Wingville, about five miles from Baker, the long winter season and chay yblanket of snow having driven them from the mountains.

S. W. Engelien of Klamath Falls went over a 150-foot embankment near Stelsman in his automobile Monday morning. The car was wrecked but Engeline escaped with a few scratches.

Despite the abundance of idle labor, owners of Marion county hop yards report that they cannot obtain sufficient help to cultivate their growing crops.
