Post-War Buys Bolster Mart

By T. W. Kienlen
(United Press Staff Correspondent)

New York, Jan. 16 (UP)—Stocks developed irregularity today as shares of companies with good peacetime prospects grew in popularity.

Wall street analysts interpreted scattered buying as resumption of investment demand following yesterday's "peace scare" shakeout, coupled with a search for good post-war "buys."

In the latter group such stocks as Farnsworth Television, Emerson Electric, National Dairy, and Spiegel, Inc., reached new 1944-45 highs on gains ranging to a point in Emerson. Dresser Industries, a leading producer of oil drilling equipment, also rose more than a point.

In the group with Farnsworth, Radio Corporation also advanced fractionally. Such stocks responded to a prediction of an RCA official that after the five full post-war years of production the television industry will gross nearly $1,500,000,000 annually and provide 300,000 new jobs.
