UNSEEN TRAGEDY!

HIDDEN IN THE GRASS out of sight from the casual eye are *the future woods of America.* Tiny trees—just seedlings hardly hand-high, but the timber of tomorrow.

That's why apparently harmless, slow-burning grass or brush fires are in reality as deadly as though they were burning the big trees. These "harmless" fires *are* forest fires, too. They destroy those tiny seedlings.

So for America, for your children, pledge yourself to be extra careful with matches, smokes, campfires—*any* fire. Make sure every spark is out—*dead* out! Remember those tiny trees hidden away in the grass, growing for tomorrow.

Remember—Only you can PREVENT WOODS FIRES!
