State Secretary Dulles, A Man Of Controversy, Will Be Sorely Missed

Editor's Note—The effects of Secretary of State John Foster Dulles' career on international events will be discussed and argued for a long time. This is the first of a two - part series assessing those effects in the light of Dulles' resignation Wednesday. It is the work of John M. Hightower, whose coverage of foreign affairs for AP spans Dulles' official career.

By JOHN M. HIGHTOWER

WASHINGTON (AP) — John Foster Dulles has been both violently denounced and extravagantly praised for his work in foreign affairs.

Few men in his position have been more controversial, and historians will be slow to adopt President Eisenhower's estimate that he was the country's greatest secretary of state.

But there can be no doubt that in the critical weeks ahead he will be sorely missed.

His successor faces a tough task in picking up the direction of foreign policy where Dulles, stricken by cancer, has put it down. In the six years he was in office, the lawyer-diplomat achieved great stature not only as a figure in American government but also as a leader of the free world in its struggle against expansive Chinese communism.

He demonstrated a rugged capacity for work—days, nights and weekends — which probably few other men can equal. He knew other leaders of the free world from close personal contacts and he traveled, with apparent relish, 560,000 miles on trips which took him to 46 countries.

This would be true even for a man in the position of Under secretary of State Christian Herter, who has worked with Dulles for two years.

But the times now allow no easy period of settling in. The man who takes over Dulles' desk has his work already cut out.

On April 29, he must meet in Paris with the foreign ministers of Britain, France and West Germany to make final preparations for negotiations with the Soviets on delicate and dangerous questions of the future of Berlin and Germany. On May 11, with his British and French colleagues, he must sit opposite Soviet Foreign Minister Andrei Gromyko in a Big Four conference that is likely to stretch into a grueling month of frustrating argument.

Very likely in late July or August there will be a Big Four summit conference in which the new secretary will play a key role as the chief adviser to the President in further exchanges with the Soviets.

For such negotiations as these, Dulles was prepared by long experience and a love of the game of diplomacy born of a lifelong interest in foreign affairs. His ambition to take over the job went back to his boyhood association with two other secretaries of state, his grandfather, John Watson Foster, and his uncle, Robert Lansing. Dulles achieved that ambition Jan. 21, 1953.

Dulles ran the State Department with complete confidence in his own abilities and the know-how accumulated over the years. From the time he took over, he was the dominant figure. One of the most frequent criticisms was that he operated out of his vest pocket.

Few even of his closest advisers knew precisely what he would do in a given situation. Even high officials in his own organization looked to his news conferences many times for fresh light on his policy thinking about critical problems.

Some weeks ago while Dulles was undergoing cancer treatment at Walter Reed Army Hospital this reporter asked a State Department official who was really running U.S. foreign policy.

"Dulles," he replied. "When there is a meeting on some problem, everyone tries to figure out what the secretary would decide if he were there. It's a tricky business. Because when Dulles was there he didn't always think exactly as other people guessed he would."

This period of administering foreign affairs under the shadow of Dulles is now coming to an end.

The abrupt end to his career upset Dulles' hope of serving as secretary throughout Eisenhower's two terms. Until illness forced his hand, he had never seriously considered withdrawing.

Achievement of the post in the first place came as the result of long years of effort and preparation.
