Local Option May be Issue

Dallas—That local option may be an issue on the ballot in the November election became apparent here this week following a meeting of citizens at the Presbyterian church to discuss the feasibility of the step.

The group stated that it was the sense of the meeting that an organization be formed in Dallas to oppose the traffic in alcoholic beverages.

"In the minds of those present the city would be a better place if the sale of such were eliminated here," leaders stated.

A second meeting will be held Thursday evening in the church to decide whether the issue should be presented at the fall election.

The issue was voted on four years ago and failed to carry by a margin of 200 votes.
