TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

COMBINED FOOD BOARD REPORTS

Thanks to the food supplies the United Kingdom has received from the United States and Canada, the diet available to Her people is now barely adequate, although Americans and Canadians fare somewhat better, according to the report issued Monday of this week by the combined food board of these three countries. While the pre-war diets of the three countries were similar, the United Kingdom has been compelled during wartime to turn more to grains and vegetables for her protein and fats, while the United States and Canada have fared better than the United Kingdom in animal fats and fruits. The combined food board, set up in 1942 to achieve maximum utilization of the food resources of the United States, Canada and the United Kingdom, includes a member from each of these three countries. The report just issued is the most complete comparison yet made of civilian food supplies in these countries.

MOTODISTS KEEP TIRE RECORDS

Tire inspection records must still be presented to ration boards whenever application is made for gasoline or tire rations, the Office of Price Administration said in explaining the need for saving the tire record form. The tire record must be kept with the automobile and transferrel with the car if sold. Operators of trucks, buses, taxicabs and other types of commercial motor vehicles are still required to have their tires inspected periodically, although passenger car tire inspections are no longer required.

TIRES FOR SMALL TRUCKS

Small trucks delivering essential foods, laundry, drugs and medicinal supplies and dry-cleaning apparel, and trucks operated by medical or dental laboratories will be able to obtain new truck tires of eight or less ply and all sizes of new passenger tires, OPA announced. Delivery trucks for beverages, ice cream, retail stores, confections and tobacco products, heretofore ineligible for any tires, will now be able to get used passenger tires, used truck tires smaller than 7.50-20 and obsolete sizes of new passenger tires.

COUNTERFEIT-STOLEN GAS COUPONS

More than 90 percent of American motorists have endorsed their gasoline coupons, OPA said in reporting the progress made in stamping out counterfiet and stolen gas coupons. Since January first, 926 counterfeiters, peddlers and persons who had robbed local boards were arrested, and 611 motorists who bought gasoline illegally lost their rations. Also, 20,061 filling stations had to turn in valid coupons to make good the illegal sale of more than four million gallons of gasoline and 1,140 other stations were denied the right to buy or sell gasoline for periods varying up to the duration of the war.

FARM FILM FOR LOCAL GROUPS

A two-reel technicolor and sound film "Farm Garden", produced by the U.S. Department of Agriculture, is available for local groups and organizations interested in the fundamentals of farm and city gardening, the Office of War Information reports. The 20-minute film depicts planning, planting, cultivating and harvesting, and the control of garden pets and diseases. Persons interested may write the OWI Bureau of Motion Pictures, 1400 Pennsylvania Ave., N.W., Washington 25, D.C. or their state extension service, for the name of a local distributor from whom they may get the film.

TO TRAIN MEN FOR SEA DUTY

Men 26 years of age and over are needed especially during the nxet 10 weeks to be trained for service abroad merchant vessels, the War Shipping Administration announced. Physically fit, honorably discharged veterans and men classified 4-F or 1-C, 17½ years of age and over, will be accepted for training. Men with previous sea experience may apply for refresher courses, upgrade training or officercandidate courses. Applicants may register at Maritime Service enrolling offices in major cities or inquire directly of the U. S. Maritime Service, War Shipping Administration, Washington 25, D.C.

ROUND-UP

WPB-sayys--Many electrical and mechanical repair shops are not taking advantage of a WPB regulation to aid them in obtaining parts and materials for domestic appliances such as refrigerators, washing machines, radios, clocks, sewing machines, stoves, bicycles, lawn mowers and plumbing...At present, there is no visable possibility of resumption of passenger car production until after the vitcory over either Germany or Japan...Because of the limited supply of household "Fly" spray guns, housewives should take extraordinary care of the ones the now have.

Vote 12 for Circuit Judge

This office is Non-Partisan and will be filled as a result of your

Vote in the Primary

Paid political advertising.

Judge Irwin Troxell

Candidate for County Judge of Malheur county on the republican ticket at the primary election May 19, 1944.

Three years ago the county had $138,700.00 outstanding warrants on which we were paying interest. The road budget was sufficient for only about three months' work. Road machinery was available but we could not buy, because of our financial condition. The roads were and are still in a deplorable condition. The court house needs repairs.

But now all outstanding warrants have been called in. We have a surplus in the general fund and the road fund.

By conservative figures we should have well over $100,000.00 in our road fund in a short time. We have purchased and paid about $5,000.00 for the Malheur county home, which has been a profitable investment.

After the war, road machinery will be available, the boys will be coming home, we will be able to give them employment and buy adequate equipment to accomplish the much needed project of road building.

A modern addition should be added to the court house.

We should support and cooperate with the county health office.

For months your county court has been working with the state of Oregon and the U. S. government, formulating plans for post-war readjustment and development work, in which all three participate in financing. Our plan designates 588 miles of road for heavy gravel, 77 miles to be oiled, numerous bridges and grades to be established: also weed control and rodent control under the supervision of the County Agricultural Agent.

TO THE VOTERS:

This is to advise you of my candidacy for nomination and election to the office of Judge of the Circuit Court in and for the Ninth Judicial District of Oregon.

I am now your Judge and pledge myself to the continuation of my present program of prompt, efficient and unbiased determination of litigation in your Court. This is a service the people have a right to expect. It is the duty of a Judge to determine rights regardless of the parties, interests, or attorneys involved, and I pledge myself to that practice.

Robert D. Lytle

TO THE VOTERS OF MALHEUR COUNTY:

If nominated and re-elected to the office of County Judge, I will work hard right along for the best interests of the entire County; stand always for the welfare of all its people; help improve conditions by supporting worthy efforts to do so; oppose any attempt to spend money on something we can get along without until after the War; cut the running expense of the County to the lowest possible figure consistent with necessity and efficiency; start a road program going to take care of the roads as they should be taken care of, in charge of some one who can handle it; devote my entire time to your service and be proud to do so.

Yours sincerely,

David F. Graham
