Besides being of such quality it was from land which duced over one hundred bushels he acre.

The De Lavel Separators have made poor men rich in Coos county.

Earley Seed Potatoes—Beauty of Hebron—at J. B. Marshall & Son's.

If you want your photo enlarged at no cost to yourself go see J. Denholm.

Marshfield is to have a foundry and machine shop in the near future says the Coast Mail.

Mrs. Charles Ashton, of Lampey Creek, who has been quite sick for several weeks is improving.

Robert Breen came over from Beaver Hill the latter part of last week and remained in town over Sunday.

Mr. W. M. Burgess has placed lumber on the ground and will build a dwelling on his farm, which joins the farm of T. P. Hanley.

THE NATURAL HEN Incubator and Brooder—$1.25, cheap, easily constructed, practical. Send $1.25 for plans or call on the agent, J. H. Begne Bandon, Oregon.

FOR RENT—The livery barn, near the Town Hall. This barn has stalls for 16 head of horses, abundant room for hay and feed, shed for wagons, etc., and office room. Price $4.50 per month. Apply to J. H. Jones, Bandon, Oregon.

A small boy, son of A. Sandquist at Bay city mill, on Coos bay, was instantly killed last week in climbing a pile of lumber in the mill yard. He pulled over a tier of 2x6 lumber which fell upon him breaking his neck besides resulting in other injuries.

DIED.—In Oakland, California, February 25, Mrs. C. H. Lockwood. Mrs. Lockwood was a former resident of Bandon and is a daughter of J. H. Gaunt-tt, of this place. She leaves a husband and three children in Oakland, and two brothers and several sisters to mourn her death.

Bandon has a brass band and the instruments arrived last Sunday on the steamer Mandalay, and the boys have gone to work manfully, each to acquire his part. Of course the skill necessary to produce music has to be bought by careful effort, but the boys hope to be able by July 4th, next, to do justice to a national holiday and Bandon should give them a rousing celebration on that occasion. The boys deserve credit for their enterprise and none more so than Geo. P. Topping, who has been the leading spirit in bringing this project to a realization.

H. Swetka has completed J. Kiernan's government contract on the jetties, at the mouth of the river, and is getting the government scows moored in secure places and other property stored away. The tug Brick has been put on the beach for some slight repairs, after which she will be left here until a favorable opportunity presents itself to take her to the Sound. The work that has been accomplished during the last 18 months has been of great benefit to the channel on the bar and it is to be hoped that this work will be extended further in the near future.

We call the attention of our patrons to the extraordinary offer of Rand & McNally's Great Atlas of the World by the Daily Bulletin which is available to Bulletin-Recorder subscribers on payment of $1.50. This Atlas is issued upon the completion of the U. S. Census, once in ten years, and contains the maps and latest geographical delineations of every country in the World, together with a complete statistical chart of imports, exports, resources, etc., and historical, religious and political statistics. The Atlas will be ready for shipment between March 1st and 15th. To avoid the express charges leave your order and the amount at the RECORDER office before that date. For particulars in regard to Atlas see in Saturday's Bulletin.

On every hand we hear the virtues of Humboldt county, Cal., praised to the very utmost but without doubt, when as thoroughly farmed and properly cultivated, the bottom lands of of the rich and fertile Coquille Valley are her equal in every respect, even to her most favored industry—dairying. This is attested to as a fact by former Humboldt dairymen, who are continually coming into our valley and buying dairy farms. The dairying business as now conducted here compares favorable with Humboldt's output, yet in Humboldt it is conducted as an art while with us it is as a primitive and uncertain industry. With better cows, better management, more business-like attention and a higher state of cultivation of our lands Coos will cause Humboldt and every other county on the Pacific slope to look to their laurels if they hope to excel as dairying communities.

The annual school meeting takes place next Monday at 2 o'clock, p. m.

There is considerable repairing to be done at the Coquille Light station and the contract will be let soon.

Mrs. Nasburg is selling off her goods preparatory to getting in a large stock of Spring and Summer Millinery.

Last week George Colvin, of Bear Creek, had both of his hands quite severely injured by the machinery of a shingle mill on Fishtrap.

W. Jacobson, of Portland, has been looking around Bandon for two or three days. Mr. Jacobson was the contractor for the jetty improvement done here two years ago.

BORN.—At Bandon, Feb 23, 1901, to Mr. and Mrs. R Johnson, an eleven pound boy. Keeper Johnson is highly elated at the sturdy little man who has come to stay at the Life-saving station.

An item in the Roseburg Review of recent date mentions the name of Sol. Culver, formerly of Bandon, as one of the prominent farmers of Camas Valley who is in favor of a creamery at that place.

J. Denholm has just received the largest and best assorted stock of Spring and Summer Dress Goods, Novelties and Staples which he has yet had since coming to Bandon. Give him a call.

Rev. T. J. Owens and family who have had J. Quick's farm on Lampey Creek rented for the past year, will move to Coquille this week. A gentleman from Coos River has leased the farm for the coming year.

Peter Anderson of Parkersburg is having lumber placed on his lot in Woodland addition, near the residence of Mrs. J. A. Rupert, preparatory to building, after which, we understand, that he will move to Bandon.

W. M. Burgess, the well known creamery man, has returned from the state of Washington where he has been operating a creamery for the past several months and will probably have charge of the Coquille creamery the coming season.

We are sending out statements to subscribers who are a year or more behind that time in arrears, and will appreciate it as a favor if our patrons will respond promptly as a newspaper is like anyother business and cannot live without funds.

The Foresters' ball came off last Saturday evening on schedule time and was well attended and a success, being up to the standard of excellency usually attained by this order, which has heretofore proved that its members are good entertainers.

The examination of pupils in the 8th grade, in graded schools, commences to-day and continues for three days. There is a large number of pupils in the Bandon school who have been working energetically to successfully pass the examination.

DIED.—At Prosper, Feb. 27, 1901, Mrs. John Moore. Deceased was in her usual health until about a half hour before her death which occurred about 10 o'clock in the evening. We have been unable to learn further particulars. The funeral takes place at Bandon to-morrow afternoon.

Word was received here Monday evening of the death of Jesse Culver who died at the home of his parents, Mr. and Mrs. S. J. Culver, in Camas valley, Douglas county, Oregon, and Miss Phoebe and George Culver started next morning for the home of their parents to attend the funeral.

The steamer Rio Janeiro, from the Orient and Honolulu, ran on a sunken rock last Friday morning in entering the Golden Gate during a fog, and sank in a few minutes. There were 29 cabin passengers, 150 in the steerage and 140 in the crew, making 319 persons on board. The latest estimate of the number drowned is 93.

Mr. J. H. Timen, the resiling coal operator of Riverton, has bonded a parcel of coal land from Mr. Henry Clemens and will begin work with several men as soon as the weather permits. The land is situated on the river below Lampey Creek and it is Mr. Timen's opinion that it contains the best and largest body of coal on the Coquille River.

Florence West: It is reported that a steel schooner will be built at San Francisco during the year to ply between that place and Gardiner. The vessel will be fitted with the latest devices for efficient work and will have high class engines. The constantly increasing business of this part of the Pacific coast is constantly asserting itself, and is creating a demand for craft of this character. Success to our friends in Gardiner.

Florence West: The steamer Acme, built for the trade between San Francisco and Acme, has made a successful trial trip and will be ready for business at an early date. The Acme is peculiarly adapted for the trade between such places as the Siuslaw and may be relied on to give satisfaction to its customers. The Siuslaw & San Francisco Lumber Co. deserve credit for this bit of enterprise and will no doubt reap the reward to which it is entitled. The Acme will be placed on its regular run some time in April, and will make weekly trips to the big California metropolis.

Guard: Should the present weather conditions prevail throughout this month and part of next there is every indication of a large and choice crop of fruit this coming season. Almond trees are almost all blossomed out all over the Willamette valley. This early blossoming out of trees is almost without precedent in the history of the valley. As a rule, the trees do not begin to blossom before the first week in March. Several large almond trees in Eugene are literally covered with the delicate pink blossoms and present a most beautiful sight. This in February, too. It is to be hoped that the weather will continue as it has been thus far, which will insure a magnificent crop this summer.

WANTED—Capable reliable person in every county to represent large company of solid financial reputation; $900 salary per year payable weekly; $3 per day absolutely sure and all expenses straight bona fide, definite salary no commission or salary paid each Saturday and expense money advanced each week. Address, I. H. Nash, 334 Dearborn st. Chicago.

### Henry J. Zumwalt Dead.

E. M. Blackerby received word last Sunday of the death of his father-in-law, Henry J. Zumwalt, of Sixes, who passed away that morning at the advanced age of 81 years and 3 months.

Deceased had been lingering on the verge of the grave for the past two months and had taken no nourishment worth mentioning for about 45 or 50 days.

Mr. Zumwalt was one of the early pioneers to this coast and has long been an honored resident of Curry county.

He leaves an aged wife, a daughter and a son and several grand children.

### NOTICE OF DISSOLUTION.

Notice is hereby given that the partnership which existed between John Jenkins and D. F. Merrill, was mutually dissolved, the first of January 1901, and that each party has since that time, and is now conducting business independently of the other and that I am responsible only for my own contracts.

Dated at Randolph Feb. 7, 1901.

D. F. MERRILL.

Thousands are Trying It.

In order to prove the great merit of Ely's Cream Balm, the most effective cure for Catarrh and Cold in Head, we have prepared a generous trial size for 10 cents, sufficient for ordinary use, or send 10 cents to ELY BROS., 56 Warren St., N. Y. City.

I am cured from catarrh of the worst kind ever since a boy, and I never hoped for cure, but Ely's Cream Balm seems to do everything. Many acquaintances have used it with excellent results.—Oscar Ostrum, 13 Warren Ave., Chicago, Ill.

Ely's Cream Balm is the acknowledged cure for catarrh and contains no cocaine, mercury, nor any injurious drug. Price, 50 cents at druggists or by mail.
