The society editor of one of the Chicago newspapers, in reporting a meeting of a woman's club, said the president wore a purple and white check shirt waist and gray skirt, while the secretary "was attired simply in black silk vest." Even in as hot a town as Chicago the secretary must have been a trifle chilly.

An epidemic of measles has broken out among the members of the fourteenth Cavalry, at Fort Leavenworth Kansas, and it is feared that the disease will practically disable the regiment for a time at least. Forty men are now in the hospital, and new cases are appearing daily. The disease is in a mild form, and no serious results are anticipated.

George Newell, a Seattle business man, who says he is the first man to strike oil in Idaho, is at the Perkins. His oil well is situated near the bank of Snake river, 14 miles south of Nampa. He took the land up five years ago, under the desert land act, and in boring for artesian water, he struck the oil at a depth of 90 feet. A company has been formed in Seattle to operate the well. —Oregonian.

**Pullman Ordinary Sleepers.**

The tourist travel between the east and the Pacific coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Co. has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleeper, being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making coffee and tea and doing "light housekeeping," and each section can be fitted with an adjustable table. A uniform porter accompanies each car, his business being to make up berths, keep the car clean, and look after the comforts and wants of the passengers. In each of the trains which are dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers." The car is attached to the "Chicago-Portland Special," which goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger. Much of the first class travel is being carried in these cars, the rates being lower, and the service being nearly equal to that in the palace sleepers.

For rates and full information, including folders, write to A. L. Craig, G. P. A., O. R. & N. Co. Portland, Ore.
