The steamer Mandalay had a freight cargo of 1,300,000 up from San Francisco last trip. When she sailed for San Francisco she carried one 200 ton of coal, 1600 cases of salmon, besides a lot of miscellaneous freight. She also carried ten passengers to Gardiner.

It is now clearly proven that any farmer engaged in Dairying either on the Coquille or elsewhere, cannot become rich without the New Method of Separating Cream from Milk. The De Laval is the recognized separator and machines. The Pioneer Hardware Store of Marshfield is agent.

The members of the Fire Department Band (fire excepted) took their instruments and went to Coquille last Sunday with the excursionists, discoursing music at the prominent points on the river. They report a pleasant trip and a good time although the day proved to be too wet for the Baseball League to pull off the game scheduled for that day. Next Sunday the Coquille and Marshfield nines are to play at Marshfield.

Harold Havens, an expert miner, who has spent some six weeks looking around the Randolph Beach, was a passenger to San Francisco on the Mandalay when she sailed last Monday. Mr. Havens had come up to test the merits of C. F. Allen's black-sand gold mining machine. It appears that he and Mr. Allen could not agree as to the manner of making the test, but he returned to San Francisco believing the machine a fake, and there is no likelihood of the parties whom he represented investing any money in it.

Col. C. J. Holt, closed his series of temperance lectures here last Sunday evening with an excellent address. During his stay here he organized a Woman's Christian Temperance Union of 48 members. As to the good that will result from his visit to Bandon remains to be seen. If the organization presses forward in an intelligent, energetic manner, guided by wisdom in all things, it will be a perfect success, but if it is managed in a haphazard way established with sloth and lack of energy it will soon get have an excuse for its existence.

Captain Korth, master of the schooner Corinthian, put his vessel on the beach, last Monday, to make some slight repairs to the rudder, and to regalar the hull.

Sales of De Laval Separators to date beat all previous records. The Pioneer Hardware Store of Marshfield is kept very supply to the Great Demand for these wonderful Machines.

The steamer Dispatch has been put upon the beach and is undergoing repairs, repainting, etc preparatory for the summer's run. The Favorite has been placed on her run, while the Antelope took the Favorite's place.

The passenger list on the Mandalay when she sailed last Monday, was Mrs. Euphemia Dyer and daughter Ethel, L. V. Lovejoy, John Blackhock and wife, Harold Havens, Mrs. C. Chinoy, besides those who purchased tickets at Coquille, whose names we were unable to obtain.

Ben Vandover returned last Monday from a visit to Roseburg whither he went to prove up on a timber claim. He rode over from Myrtle Point on horseback, and as it rained on him each day going and coming, he had rather a disagreeable trip, although he found the roads in rather good condition except slippery from the rains.

W. A. Woolliever, district deputy head consul, and O. S. Brown, of Grants Pass, who have been here for the past three weeks in the interest of the Modern Woodmen of America, expect to organize a camp of that order here on June 5th. The names of over 40 persons have been secured each of whom intend to become members.

The reading room has been supplied with daily papers, giving the latest news, and much other good literature has been added. It is open every evening and all persons are cordially invited to avail themselves of its hospitality. Marshfield Sun: The Marshfield baseball team have had their grounds ploughed at the race track and will roll and harrow the same, and by the date of the scheduled game in March field their grounds will be in first class shape. A grand stand is also to be erected to comfortably seat the patrons of the game, and the boys predict that they will have as good, if not the best ball ground in the county. Some interesting sport is looked forward to.

Remember the Stiletto Sewing Machine at Mrs. Corson's.

James Rogers who was reported seriously ill, last week, is some better.

Mrs. McKinley, wife of President McKinley, is reported to be out of danger.

James Gibson, of Gold Beach, who was taken to the asylum at Salem, a short time ago, died in a few days after his arrival at that place.

Keeper Johnson and Captain Reed made a voyage to the steamer Mandalay, in a leaky boat, last Sunday night. The steamer was lying above Parkers wharf and by the time it was reached the boat was full of water and sank as the parties got out.

W. H. Peck, the mining operator, has purchased some valuable black sand mines in the Blanco district, from Peach, Farrier and Sheller, and is making preparations for extensive mining operations. He has disposed of the Farris mine to an Illinois party who is expected to arrive soon.—Port Orford Tribune.

Why don't you bring in those books borrowed from the library?

For Choice Groceries of guaranteed strength and purity go to Magoon's grocery.

The steamer Mandalay is due here from San Francisco by Tuesday or Wednesday.

Rev. W. Horsfall will hold services in St John's chapel next Sunday, morning and evening, at the usual hours.

Rev. M. O Brink came down from Coquille yesterday and commenced a protracted meeting in the M. E. chapel here, last evening.

J. A. Cox, of Floras Creek was in town last night having come up to haul a piano to Dairyville for Miss Hanna Willard of that place.

Mrs. Corson carries a fine stock of millinery consisting of Ladies Hats Ribbons, Curtains, etc. She has added Sewing Machines to her stock and can give you a bargain in that article. Call and examine her goods.

Exchange: France is colonizing its felons in the penal colony of New Caledonia in the South Pacific ocean. One of the cultured rascals is editing a paper for his associates in the colony. It is a good idea. McKinley should let Mark Hanna try his hand at the business.

Coquille City had its scene of egg throwing last week when a couple of its citizens received a shower of such missiles from a rabble that should be cared for. The party was returning home from a temperance lecture and are supposed to have been mistaken for Rev Hunter and wife. It is to be hoped that the perpetrators will be run down and punished to an extent fitting the offenses.

Kindled the Fire With Coal Oil.

From the Coast Mail.

Miss Lola Miller, who is employed in the family of Rudolph Amstein in South Marshfield, lost a great part of her hair and sustained some severe burns, Monday, by the ignition of some coal oil which she was pouring into the stove to make the fire burn better.

It seemed better on suddenly that fired the to her hair and some of her clothing but Mrs. Manning, who was present, instantly threw something over the girls head and smothered the flames.

The girl's left hand and the left side of her face were painfully but not seriously burned and no scars are likely to result. Dr. McCormac was called and relieved her sufferings and the girl resumed her duties in a couple of days.

But for Mrs. Manning's prompt and efficient action, another tragedy would have been chargeable to the coal oil habit.

The quarterly for the Oregon Historical Society No. 4, for December, 1900, has been received. This completes the first volume, which is of great historical value. The contents of this volume are as follows: "The Oregon Trail," by F. G. Youngpillinstrated by a map of the immigrant road from Independence and Council Bluffs to Oregon City, and numerous half tones showing different scenes along the route. This is one of the most important articles yet published, and it is the beginning of a movement which it is hoped will result in permanently marking the immigrant route from the Missouri to the Willamette rivers. "A Day with the Cow Columns," by the late Jesse Applegate who came in 1843. Col. Geo. B. Currey's Tribute to the Ox. Whipping. Sam L. Simpson's poem, "The Complaint of the Pioneers," two poems by Joaquin Miller, "Pilgrims of the Plains," and "Pioneers of the Pacific" and a document relating to "The Oregon Emigrants, 1843." make up a table of contents by which this issue is fittingly described as "The Oregon Trail Number." Address all inquiries about this publication to Geo. H. Himes, Assistant Secretary, Oregon Historical Society rooms, City Hall, Portland, Oregon.

Temperance Reception.

The Woman's Christian Temperance Union league, of this place, will give a reception in Ross's hall, at 8 o'clock, sharp, on Saturday evening, May 25, to those who signed the pledge not to use intoxicating liquors as a beverage.

A good program has been arranged and light refreshments will be served in the way of entertainment.

The guests are respectfully requested to attend early.

AROUND THE COUNTY.

From the Myrtle Point Enterprise.

Wm. Lester returned to this place this week after an absence of seventeen months in the Philippines. He was a member of Co D, 35th U S V.

W. E. Lundy departed Tuesday morning for Cape Nome, where he has mining interests. He will join Sam Currier and John Giles and the three will engage in mining together. He will take a steamer at Seattle which sails for Nome the 30th.

E. A. Adams, formerly engaged in business at this place, arrived here with his family Sunday from Grants Pass. Mr. Adams will probably remain here permanently and engage in business again. They have many friends who are glad to see them return.

A. H. Black & Co. this week shipped 28,000 pounds of evaporated apples to the Portland market. The apples were put up by Black & Co. last fall, and it is safe to say are equal to anything ever put up in the state. They also shipped 500 gallons of vinegar as a sample.

From the Coquille Herald.

J. G. Bliss, of Los Angeles, California, is in this county looking over the locality with a view to locating. He seems very well pleased with the looks of our section.

Jesse Norton, who has been in eastern Oregon for some time past, arrived in this section a few days ago. We presume he will, as usual, take an active part in the training of horses for the coming racing season.

The Pearl boys are putting in a chute at their mine at the edge of town to facilitate the handling of coal. We hope to see the boys delivering this fine fuel in town in large quantities in the near future. Our experienced townsman, J. C. Wilson, the machinist, tells us this is the best steam coal he has ever run across on this coast.

Lawrence Harrison, of Little Rock, Arkansas, a brother of our old friend, B. J. Harrison, of Myrtle Point, is at Roseburg and Geo. Collier has gone to meet him and bring himself and family in. There are eight in the family and Uncle Ben has made arrangements for them to locate for the time being near the Point. These brothers have not seen each other for 48 years. This will doubtless be a happy meeting.

While working in the logging camp of Matson & Anderson, on Coos river, Saturday, the 11th inst., Gus Holm received an injury from which he has since died. It seems Mr Holm was driving a dog or wedge into a log when a sliver from the same struck him in the neck cutting the carotid artery slightly, and making quite an incision in the interior jugular vein. By holding the wound firmly with his hand he checked the flow of blood to such an extent that a clot formed and prevented his bleeding to death at once, but later on, when the reaction took place, the wound broke afresh and while all possible was done for him, these efforts proved futile and he passed away the following Thursday.

Town Primary.

A. D. Moine was declared the unanimous choice for Town Recorder.

A. G. Erickson and Donald Charlesworth were declared the candidates for Town Marshal.

On motion the following were declared the candidates for Trustees:

A W Kime,	E Dyer,
M S Smith,	M Brewer,
M R Lee,	S Richardson,
A G Hall,	Y M Lowe,
J W Feller.	

Moved, seconded and carried that the Town of Bandon celebrate the 4th of July.

Moved, seconded and carried that a committee of three be appointed to make all arrangements for said celebration.

On motion the meeting then adjourned.

LINES ON A SKELETON.

Author Unknown.

Behold the brain!—'Twas a skull
Once of ethereal spirits full!
This narrow cell was life's retreat;
This space was thought's mysterious seat;
What beauteous pictures filled this spot—
What dreams of pleasures long forgot!
Nor love, nor joy, nor hope, nor fear,
Has left one trace of record here.

Beneath this moldering canopy
Once shown the bright and busy eye;
But start not at the dismal void;—
If social love that eye employed,
If with no lawless fire it gleamed,
But through the dew of kindness beamed,
That eye shall be forever bright
When stars and suns have lost their light.

Here, in this silent cavern, hung
The ready, swift and tuneful tongue;
If falsehood's honey it disdained,
And, where it could not praise, was chained—
If bold in virtue's cause it spoke,
Yet gentle concord never broke,
That tuneful tongue shall plead for thee
When death unveils eternity.

Say, do these fingers delve the mine,
Or with its envied rubies shine?
To hew the rock or wear the gem
Can nothing now avail to them:
But if the page of truth they sought,
Or comfort to the mourner brought,
These hands a richer meed shall claim
Than all that waits on wealth or fame.

Avails it whether bare or shod
These feet the path of duty trod?
If from the bowers of joy they fled
To soothe affliction's humble bed—
If grandeur's guilty bribe they spurned,
And home to virtue's lap returned,
These feet with angels' wings shall vie,
And tread the palace of the sky.
