## Every Prosperous Farmer has a McCORMICK

### Be Sure and See

the McCormick Big 4 Mower before you place your order.

The McCormick Big 4 Mower has higher wheels and weighs 100 pounds more than any other mower. It will cut anything.

We also have the McCormick mower in the regular size. We are closing out our Champion mowers at a very low figure and have only a few left.

ELKINS & KING.

Wurzweiler & Thomson sold five Deering mowers and three hay rakes Friday which shows that the hay crop is going to be good this year even if it has been cold all spring. There is no better business point in the interior than Prineville as is evidenced by the immense volume of business transacted here every month. With the advent of a railroad, this would be the shipping point for all the stock and wool that now goes to outside points.

### Mid-Summer Millinery.

Wishing to close out my entire stock of millinery by July 1, I am prepared to offer greater bargains than ever before offered in Prineville.

### CALL

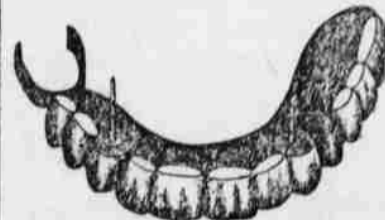

and take advantage of this opportunity before it is too late as my stock will soon be exhausted.

Bridge work or teeth without a plate. The most beautiful and natural effects produced by this class of work. Artificial teeth that are beautiful and lifelike.

Parents, save your children's

teeth. It is wrong to neglect them. Food mixed with the putrid matter of decaying teeth is very unhealthful.
