CLOSED DOWN.

The last load of rock for the jetty on the present appropriation went down the river Saturday morning. Let us hope that another appropriation will be forthcoming at this session of congress, and that the work will be pushed to a completion as rapidly as possible.

Wednesday a scow load of machinery was taken to the government buildings at the mouth of the river and the work completed for this time. The quarry pits have been mucked out and everything placed in order. Superintendent Brady claims this to be the hardest piece of government work on the coast, owing to the fact that it is so long between appropriations that the track for conveying materials wore out by the action of the elements until the expense of repairing and keeping it in order was very great.

GREENLEAF ITEMS.

By a West Correspondent.

December 1, 1900.

Fred Pepiot is going to saw up some of those big firs in his slashing and try to send them millwards.

J. A. Burnett is still too weak to walk but seems to be gaining in strength and takes some nourishment.

From October 27 to november 27—a month and a day—there have been a funeral, a birth and a wedding in the Burnett residence.

Hermann Steinhauer has blasted a lot of rocks in Lake creek above Deadwood which will cause his and other people's logs to run better towards the mills at flood time.

James Johnstone is building, in his new home, the first brick fireplace and chimney in these diggings. Hermann Steinhauer burned the brick and is doing the Mason work.

Clarence J. Burnett has gone to the Siuslaw and will probably work there for a while, and not build his new house until the weather settles and the roads become better for hauling materials.

John McVay started last Thursday for Eugene, where he expects to meet and marry a lady whom he has never seen and bring her to preside over his home, which has been lonely since his boys left him alone after his wife's death. He became acquainted with his intended through an advertisement which brought him a great flood of applicants for his heart and hand, from which he selected the one whose photograph and references suited him best. He is expected home Monday, December 3d.

Married, at the residence of the bride's father, Justice of the Peace J. A. Burnett, November 17, by Elder John Jeans, Marion P. Wheeler and Miss Alice M. Burnett. The bride's wedding present from her father was a deed to 100 acres of land on which stands the Burnett dwelling and buildings. [The West adds its congratulations to those of the many friends of the young bride and groom, and wishes them a happy, prosperous voyage through the journey of life.]

The Wheeler-Burnett wedding had not been intended to occur this winter, but at the earnest wish of the bride's father, who was dangerously ill and feared he might not live to see it, the groom was called home from his employment on North Fork and the ceremony performed.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucuous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
